WOMAN SHOOTS EX-SPOUSE IN PALACE HOTEL

William P. Hunter Seriously Wounded in San Francisco Grill by Former Wife Following Quarrel Over Money

Victim Shot Down Tries to Escape, But Second Bullet Strikes Him; Divorcee Explains Reasons for Action

SAN FRANCISCO, Nov. 26.—While scores of luncheon guests fled for shelter Mrs. Agnes Hunter, young and attractive, shot and seriously wounded her former husband, William P. Hunter, in the main grill of the Palace Hotel shortly before noon today.

The shooting occurred with dramatic abruptness and threw the grill and its patrons into a turmoil.

The couple were seated at a table conversing, when Mrs. Hunter suddenly rose to her feet, saying, "This, then, is your final answer?" Then drawing a revolver she fired a shot at Hunter, who rose to his feet and then collapsed on the floor.

VICTIM TRIES TO ESCAPE SECOND SHOT

As Mrs. Hunter advanced upon him Hunter scrambled to his feet and started for an exit leading into the ballroom of the Palace. Mrs. Hunter fired again, dropped the pistol and became hysterical. Hunter made his way to the street, hailed a taxicab and was driven to the Harbor emergency hospital. According to physicians, one bullet struck him in the back while another penetrated the abdomen. They pronounced his condition serious.

While Hunter was on the operating table he was visited by a woman who identified herself as Hunter's wife, saying she was registered with him at the Palace Hotel. She said she married Hunter on November 2?? Aside from admitting that she came from San Jose she declined to identify herself further or to reveal where she had married Hunter. She bitterly assailed Hunter's former wife, declaring that she was mercenary and had been persecuting Hunter for money for some time.

Jealousy of other women and the alleged failure of Hunter adequately to provide for herself and a five-year-old son is given by Mrs. Hunter as her motive for the shooting.

The couple were divorced last August by Superior Judge Flood in San Francisco. Since that time Mrs. Hunter has been residing with a sister at 3057 West avenue, 32, Los Angeles.

After the shooting she was taken to police headquarters where she made the following statement:

"I came up from Los Angeles last night to see my husband and to urge him to provide more fully for myself and our son, William. In the early years of our married life he did not have much money, but lately he has been very successful in oil operations in Texas, and I thought it was only proper that I should be given some of the money he has been spending on other women.

WANTS MONEY TO SEND BOY TO MILITARY SCHOOL

"With him it has always been women, women, women. He has been giving me $80 a month for the support of myself and my baby. I have been anxious to send the boy to a military school. Mr. Hunter and I were married seven years ago. He was married several times before that.

"After I arrived here last night, I registered at the Plaza hotel and then went down to Kearny street where I bought a revolver in a second hand store. At that time I did not intend to shoot my former husband, but merely planned to frighten him into a more liberal attitude toward myself and son.

"Later I registered at the Palace Hotel. I registered under the name of Bowie. I learned that my husband also was registered there and was accompanied by a woman—a beautiful blonde woman.

"This morning I met him in the lobby of the hotel and suggested that we sit at a table in the grill while we conversed. I told him he was making money and that he looked prosperous and I told him that I thought he should give me my allowance; that I should be given some of the money he was spending on other women.

"He refused and I said, 'This is your final answer then,' and when he replied in the affirmative, acting on an impulse, I drew the revolver and shot him twice.

"I have always believed that the trigger of a pistol worked hard; I was surprised how easily the trigger of my revolver worked."

Mrs. Hunter soon regained her composure after the shooting and made her statement to the police calmly and dispassionately, manifesting excitement only when referring to her former husband's alleged attentions to other women.

Mrs. Dorothy McCombs, formerly Miss Williams of Washington, has requested that her marriage to the former chairman of the Democratic national committee, William F. McCombs, be declared invalid by the pope. Mrs. McCombs is a daughter of Colonel and Mrs. John R. Williams of Washington. She is a sister of Mrs. Joseph Leiter. She was married in London in 1917.

Princess Radziwill, formerly Dorothy Deacon, youngest of three beautiful daughters of Edward Parker Deacon of Boston, has requested that her marriage to Prince Albert Antoine Radziwill, be declared invalid. The relatives of the prince opposed the marriage.

Duke Heinrich Borwin von Mecklenburg-Scherwin has requested the pope to annul his marriage to the former Elizabeth Pratt of New York. The [illegible] of her first husband, Count de Gasquet-James. The German courts refused to recognize the validity of the union, and at the instance of the kaiser, the duke started annulment proceedings. The duchess was born in New York in 1860, and is more than twice the age of the duke.

FORMER SECRETARY OF I. W. W., JACK DIAMOND, BARES MANY SECRETS

Jack Diamond, former I. W. W. secretary and delegate, star witness for the State in the criminal syndicalism trial of James McHugo before Judge James G. Quinn, took the stand today and, for the first time in the trial, directly connected the defendant with the organization which has been under consideration since the case opened. He set forth McHugo as a member of a defense committee for the I. W. W. prisoners at Fresno and Sacramento, chosen when the previous committee of "intellectuals" had failed of results and a "rough-neck committee was wanted that could get some action."

History of the I. W. W. since its inception, culled from remembrances of his own eleven years' membership in the organization, formed the chief part of Diamond's testimony. He discussed direct action, sabotage, Industrial Workers' propaganda and the part which individual members and secretaries played. He brought into the case for the first time the activities of the "sapping committees" that coerced men into the organization when other means failed.

DIAMOND MAY BE ON STAND SEVERAL DAYS

Besides Diamond's testimony the morning session of the case included more than an hour's reading from I. W. W. publications, chiefly its main organ, "Solidarity," but also the "One Big Union," the "Industrial Worker," the song book and other printed matter. Diamond's direct examination went on into the afternoon session. It is expected that all of Friday, tomorrow being a holiday, and possibly the extra session of Saturday will be occupied in his cross-examination.

The defense expects to begin its presentation of evidence Monday. Testimony will be offered by government experts who have studied the Industrial Workers of the World, members of that organization, especially representatives of the group that was in trouble at Everett, Washington, and others. The defense attorneys announced today their case might consume most of a week.

Diamond declared he joined the I. W. W. in 1907, two years after it was organized. He remained with it until January 1, 1919. During that time he held several important positions, being a delegate to the national conventions and, for some time, secretary of the Fresno local. He was previously in the Western Federation of Miners, which went as a body of 27,000 men into the I. W. W. early in its history.

In the original preamble of the organization, Diamond testified, it was given out that it planned to accomplish socialization of industries by either political methods or indirect action. In 1908, he said, all reference to political action was stricken from the preamble, and at that time those who favored political action withdrew to a rump convention at Detroit under the leadership of Daniel De Leon, and formed what subsequently became the Workers' International Industrial Union. The Miners' Federation withdrew from the original I. W. W. at this time.

Like Elbert Coutts, also state's informant and former I. W. W., who preceded him on the stand, Diamond claimed that most of the published I. W. W. literature was for public consumption, and that it did not faithfully reflect the methods and purposes of the organization. He testified at some length with regard to sabotage, defining it as any act that tended to cut down the profits of the employer, whether it was destructive of life or limb or property. He had never read any I. W. W. publication which objected to sabotage.

Questioned by Deputy District Attorney A. A. Rogers he told at some length of the methods employed for recruiting and training saboteurs; that is, members who practiced sabotage. He said:

"Whenever a likely-looking young fellow would show up an older member would first take him and try him out. He would probably take him first out into the jungle where men were employed who were not members of the I. W. W. Then he would say to him:

"'Look at these fellows! What do we want of them here?'

"Then he would direct the candidate to kick over their food or otherwise dispose of them. The next step would be to teach the candidate how to gather in a few chickens for food, or maybe a pig. Then he would be taught to gather up the cash that a few non-organized workers might have available where they were sleeping in box cars or in a barn.

GIVEN TESTS IN BURNING PROPERTY

"Provided the candidate had shown proficiency so far, his instructor would now proceed to test out his views with regards to fires and incendiarism. If he agreed with them he would be by this time a full-fledged saboteur, or sab-cat, as they were called.

"Generally the 'cats' worked in gangs of three, two to do the work and a third to act as a messenger. It was necessary for the sabotage groups to keep in touch with each other and not interfere. They got together for their work with some caution. It was customary for one of them to go out one day and another the next, and so on until they were ready to start work. The secretary's office served as a general clearing house for news of all I. W. W. activities. The secretary did not necessarily know of sabotage activities, or where the 'cats' were operating, but generally he did."

Diamond was led by Rogers to a discussion of sapping committees. These were usually formed for "assisting" in recruiting the organization. If a man would not join after he had been clubbed with a hose at the hands of the committee, it ran him out of town. Diamond averred that "cow-itch" applied to the persons of recalcitrant non-organized

MORSE FAILS CHIEF; OKEHS WHITNEY TALK

Commissioner Takes the Civic Center Address Into Own Hands and Overrules Lynch in Withholding Permission

Police, However, Will Be in Attendance and Permit No Unpatriotic Language; the "Negro" is to Be the Topic

Commissioner of Public Health and Safety F. F. Morse changed his mind again today and overruled Chief of Police Frank J. Lynch, announcing that Miss Anita Whitney will be permitted to speak at the meeting Friday of the Oakland Civic Center. Ever since the controversy occasioned by the chief's pronouncement that Miss Whitney would not be permitted to speak because of her radical beliefs, Commissioner Morse has let it be understood that he would support Chief Lynch in any decision that official might make in this connection.

Continued assertions of the members of the Center that Miss Whitney would speak in any circumstances have caused protest and have brought to Commissioner Morse's office delegations of women who have asked him to make some assertion as to what he would do in his official position.

DECIDES TO WITHHOLD, PRESENT OBJECTIONS.

This statement was not forthcoming until today, when he took the affair from the hands of the chief and sent to Mrs. Annie G. Law, president of the Center, the following letter:

"I refer to your communication stating the names of proposed speakers to address your organization on November 28, and the subjects to be discussed by them.

"Inasmuch as Miss Anita Whitney has been extremely active of late in giving personal support to exponents of radicalism in this city, I have hesitated to permit her to speak. However, after fuller consideration I have decided to withhold any objection for the present, and to merely advise you that my department will hold her strictly to account for any unlawful or seditious statements that she may make.

"Accordingly, I have to advise that I am hereby granting the permission requested by your communication subject to the qualification stated."

Miss Whitney will not be permitted to indulge in seditious language, however, as Chief Lynch said today, after learning that the commissioner had finally changed his stand and had overruled him, that policemen will attend the meeting and make arrests if the circumstances justify.

CANNOT MAKE ANY UNPATRIOTIC TALK.

Asserting his intention, Chief Lynch said:

"Miss Whitney will not be allowed to say anything unpatriotic or defy constituted authority in any way. If she is allowed to speak by Commissioner Morse, I can do nothing, of course. But whatever advantage she may have at the meeting, the police department is not going to tolerate any seditious utterances from her. And I am constrained to expect seditious remarks judging from Miss Whitney's record. That record is on file in police records, and it cannot be denied. Miss Whitney came under the surveillance of this department during the war by her pacifist attitude."

The ordinance against sedition in any form, which was adopted by the city council April 22, 1918, and which imposes a fine of $500 or six months in jail, or both fine and sentence, will be the weapon the police will resort to, said Chief Lynch.

This ordinance reads: "It shall be unlawful for any person within the city of Oakland to utter or use within the hearing of any one or more persons any seditious language, words or epithets, or to address another or to utter in the presence of another, any word, language or expression or seditious remarks, having a tendency to create a breach of peace.

"Any person who shall violate any of the provisions of this ordinance shall be guilty of a misdemeanor and upon conviction thereof, shall be punished by a fine of not to exceed $500 or by imprisonment not exceeding six months, or by both fine and imprisonment."

Miss Whitney is on the program to speak concerning the negro, and it has been repeatedly asserted by officers of the Center that she purposes nothing radical in her remarks.

MALONE PUT OFF STAND IN LUSK INQUIRY

Former Collector of Customs of Port of N. Y. is Thrown Into Rage When Statement is Halted by the Members

Soviet "Ambassador" Admits Paying Malone $1000 for Advice; Light Shed on the Bolshevik Finances in U. S.

BY UNITED PRESS.
LEASED WIRE TO TRIBUNE.

NEW YORK, Nov. 26.—The Lusk legislative investigating committee today refused to allow Dudley Field Malone, prominent New York attorney and former collector of the port of New York, to complete his voluntary testimony before the committee.

During a tumultuous session of the committee, which had been hearing testimony of Ludwig C. A. K. Martens, "ambassador from the Soviet government of Russia," Assemblyman McGilligott ordered Malone off the stand after Assistant Attorney General Charles B. Newton had accused Malone of attempting to insult the committeemen.

Malone appeared before the committee and asked to be allowed to make a statement, which he said was due him following testimony given yesterday by Martens, who said Malone had accepted $1000 for legal advice given the "Soviet ambassador."

Malone was sworn and accorded the privilege of testifying as a [illegible] finished his first sentence before Newton sprang to his feet and shouted to him to stop.

Malone had started his statement with "I come as a taxpayer, a citizen and a member of the bar to denounce the immoral, cowardly and un-American conduct of this investigation by your counsel and the attorney general—"

"Wait a moment. You must not continue these remarks," shouted Newton, his face flushed.

MALONE ACCUSED OF AGITATOR METHODS.

"You have no right to interrupt. Only the chairman has. If what I say is not true, the committee has full right to examine the facts," returned Malone.

Assemblyman McGilligott — "You could at least reply to the attorney general. Your attitude is discourteous to the committee."

Malone—"The attorney general insinuated in questioning Martens yesterday that I had misused political influence and I now demand an opportunity to explain the true facts."

Newton—"A courtesy was extended Malone in making the statement. The manner in which he started showed he did not want to explain, but to insult the committee."

McGillogott to Malone—"Leave the stand. You are here to agitate and not to explain."

"I am not agitated but determined," retorted Malone.

"Your opening statement does not warrant further courtesy. Please step down," shouted McGilligott.

"I insist I be given a hearing. I have already given a statement to the press," pleaded Malone.

"We have had enough out of you," said McGilligott.

"You will hear more out of me before it is over if you continue these insinuations," shouted Malone as he quit the stand and left the room.

MALONE TELLS OF RED RECOGNITION MOVE.

After he had been refused a hearing, Malone told newspapermen that negotiations are now under way in Copenhagen between representatives of Great Britain and Litvinoff, soviet representative, "regarding the question of recognition."

Martens, who calls himself ambassador of the soviet government of Russia, admitted late yesterday that he paid Dudley Field Malone, former collector of the port of New York, $1000 on September 12 for "help in a commercial transaction." He told the joint legislative committee investigating radical activities that it was for advice in trying to arrange a $2,500,000 shipment of books, meats and chemicals to be paid for on delivery in Petrograd.

Martens denied he knew that Malone had formed or was forming "a corporation to do business with soviet Russia," and declared that his "embassy" was not specifically interested in such an organization. He did not know that Malone "had been speaking in behalf of the soviet government of Russia either before or after he paid him $1000, he said, and denied that he and Malone had spoken from the same platform in Madison Square Garden here last June.

SOVIETS SEND OVER $90,000 TO BUY GOODS.

Malone was not regular counsel for the soviet, Martens said, but was employed solely as special agent in plans to buy and ship to Russia $5,-000,000 worth of boots and $4,500,-000 worth of other supplies.

Martens testified that since coming to this country his "embassy" had received $90,000 from the Russian soviet government. He added that this was his only source of funds and that he had not received a cent in contributions here.

FAMOUS REVOLT CHIEF EXECUTED BY CARRANZA TROOPS FOR 'REBELLION'

Felipe Angeles, Noted World Over as Military Genius, Decorated for Aid to Allies, Shot After Exciting Trial

NOTED MEN VAINLY TRY TO SAVE HIM

CHIHUAHUA CITY, Mex., Nov. 26.—(By The Associated Press)—General Felipe Angeles, revolutionist, was executed at 6:35 a. m. today inside the barracks of the 21st Regiment of Cavalry by a firing squad. Many spectators were present. General Angeles met death without visible emotion or fear.

LEASED WIRE TO TRIBUNE.

EL PASO, Texas, Nov. 26.—General Felipe Angeles, Mexican revolutionary leader and famed throughout the world as a military genius, was executed by a Carranza firing squad at Chihuahua City early today, following his conviction with two companions on charges of rebellion against the Mexican government, according to a telegraphic report from Chihuahua City this morning.

General Angeles was sentenced to death by four Carranza generals in the Teatro de Los Heros (Theater of the Heroes") at 10:45 o'clock last night. He was immediately taken from the building through a rear entrance to await execution, which was set for 7 a. m. today.

The Chihuahua City correspondent of the El Paso Herald telegraphed his paper that General Angeles was executed by a Carranza firing squad at 6 a. m. today.

General Angeles was entirely unmoved, apparently as sentence was passed. Throughout the trial, the military leader, famous among military men of the world as the man who brought the French 75 millimeter gun to perfection and made it admittedly the best piece of artillery ordnance in the world, presented a smiling countenance to his accusers.

GENERAL ANGELES' COMPANION KILLED.

The trial was the most sensational ever held in Chihuahua City, where Angeles and two companions were taken after their capture near Parral by state volunteer troops November 19.

Four companions were captured with Angeles after their discovery in a cave in a hill that faces San Tome, Mexico. Two of these already had been executed by Carranza troops. Of others in the small party with General Angeles five were killed in the fight that ensued in trying to escape the state troops.

The two remaining companions, Major Nostor Encisco de Arce and the soldier, Antonio Trillo, were joint defendants with their chief before the court martial. Major de Arce also was sentenced to death, but his sentence was commuted to twenty years' imprisonment. Trillo, a 17-year-old boy, was sentenced to serve six years and eight months in prison.

The trial began at 8 a. m. on Monday and continued until afternoon. After a short recess the trial continued, lasting until 4:20 a. m. yesterday, when the prisoners were taken back to their unfurnished cells.

Court reconvened at 10 o'clock yesterday morning and continued until sentence was passed at 10:45 o'clock last night, with the exception of very short recesses.

FEAR ATTEMPT TO RESCUE GENERAL.

Doors to the Theater of the Heroes were opened to the public, and the place filled to overflowing with persons of all degree anxious to watch the famous leader tried. Excitement was high during the trial, and, according to reports reaching here by courier and otherwise, federal officials feared attempt would be made to rescue Angeles and his followers.

Heavily guarded armed guards surrounded the buildings and were

SHERIDAN, Wyo., Nov. 26.—Scores of coal miners who declined to return to work were rounded up by United States soldiers in Carneyville, Wyoming, today and placed on interurban cars for removal to the county jail in Sheridan.

All other miners in the town were ordered by Major Warren Dean, military commander in Northern Wyoming, to return to work this afternoon.

WASHINGTON, Nov. 26.—Secretary Baker said today it was "inconceivable" that an army officer would order the arrest of coal miners for their failure to return to work as reported from Sheridan, Wyo. He added, however, that he could take no action until he had received an official report on the incident.

GARFIELD TO ISSUE ULTIMATUM TODAY

BY ASSOCIATED PRESS.
LEASED WIRE TO TRIBUNE.

WASHINGTON, Nov. 26.—A definite and final statement on behalf of the government in the coal wage controversy will be made to the operators and miners late today by Fuel Administrator Garfield.

Dr. Garfield's statement to the miners and operators was expected to be somewhat in the nature of an ultimatum. The twenty to twenty-five per cent increase was understood to be acceptable to the operators, but grave doubt was expressed as to whether the miners would approve it.

Final decision was reached by the Cabinet at the meeting today, Dr. Garfield and Secretary Wilson said. The fuel administrator called a joint session of operators and miners for 5 p. m. to receive the decision.

INCREASE PROPOSAL FOR MINERS IS WON

While neither Dr. Garfield nor members of the Cabinet would say what the Cabinet's decision was, it was reported that the fuel administrator had won his point for an increase of from 20 to 25 per cent in miners wages as against the 31 per cent proposed by Secretary Wilson and agreed to by the miners.

After the Cabinet meeting there

ALLIES FACE NEW CRISIS IN BALTIC STATES

BY INTERNATIONAL NEWS SERVICE.
LEASED WIRE TO TRIBUNE.

BERLIN, Nov. 26.—A new crisis with the allies is threatened over the German troops in the Baltic states. The German cabinet has decided "in the name of humanity" to send troops to Russia, in defiance of the allies, unless a line of retreat to Germany is opened immediately for 20,000 German soldiers in the Baltic states, it was announced today. It is claimed that Lettish and Lithuanian forces have surrounded the Germans and threaten to annihilate them, refusing meanwhile to grant an armistice.

GEN. ANGELES, REBEL CHIEF, IS EXECUTED

placed about the theater and on the stage.

At times persons in the audience halted the proceedings with pleas for clemency. Many hundred women were present and from among these a coterie of social leaders, headed by Mrs. Revilla, Mrs. Calvan and Miss Ignacia Ramirez, several times interrupted the court to plead for Angeles. Many pleas for clemency also were sent to President Carranza at Mexico City.

A delegation of French citizens, residents of El Paso, Texas, waited upon the court and presented a petition for clemency because of his many services to France and the allies during the world war, in recognition of which he had been made chevalier of the Legion of Honor.

The petition had first been made to the second criminal court, but was overruled, the court declaring it had no jurisdiction because the alleged offense of Angeles had been committed against the commanding military officer of the district.

APPEALS MADE IN VAIN TO HIGHEST COURTS

Attorneys for Angeles yesterday tried desperately to save Angeles and his companions. They appealed to the federal court at Juarez, Mexico, and to the supreme court at Mexico City. They tried to change the proceedings on a writ of ampharo, similar to habeas corpus proceedings in the United States, but differing in that while proceedings are stayed the defendants must remain in jail pending decision on the amparo appeal.

This action led court officials at Juarez to announce the trial had been completed. The appeal of the French residents also went to Mexico City.

An answer to these petitions was received late Tuesday evening from Mexico City, saying the supreme court was in recess and therefore the petition should be filed with either the district court, the county court or the court-martial itself. The district judge at Juarez, according to Chihuahua advices, received today, also refused to act. The county court answered likewise. Thus the courts were closed to the accused men and the only avenue of legal escape was from President Carranza. Petitions also were forwarded to Mexico City by telegraph from Chihuahua by the French colony there, by other foreigners and many Mexicans. Many hundreds of names were signed to the petitions.

MEN SAVED BY ANGELES SEEK TO INTERCEDE

A delegation of citizens arrived from Parral to intercede for General Angeles. It was composed entirely of prominent citizens who at different times had been saved from death at the hands of Francisco Villa or his followers by General Angeles. They were too late to be heard by the court. Several students from the military college of Chapultepec, the West Point of Mexico, from which General Angeles was graduated, were permitted to have a confidential talk with him. The former students went to the military college while Angeles was assigned there as an instructor. When they were ushered into the prison room where their former professor was under guard they surrounded him and holding him close in their arms they wept for several minutes, too overcome with grief to talk. When they left the general's eyes were still wet with tears.

GUILTY OF REBELLION IS COURT'S VERDICT

At 9:45 p. m. the court closed and one hour later the judge announced the verdict as follows:

"General Felipe Angeles, you have been found guilty of rebellion, and are condemned to death.

"Major Ernesto Enciso de Arce, you have been found guilty of rebellion, not including the charge of desertion against you; you have been condemned to death; but your sentence is hereby commuted to twenty years' imprisonment.

Antonio D. Trino, you have both found guilty of rebellion and, not including the charge of desertion against you. You are sentenced to serve six years and eight months."

The prisoners then, in accord with the findings of the court martial, were delivered to the military commander to carry out the sentences.

The outcome before dawn proved the petitions for clemency unavailing.

HONORS WERE NOT SOUGHT FOR HIMSELF

General Angeles sought no honors for himself in the event of a successful revolution against the Carranza government. This he made clear in an interview with an Associated Press correspondent last June on the eve of Francisco Villa's abortive attempt to capture Juarez. The interview was granted in the Angeles-Lopez Camp south of the city of Juarez, while preparations were going on for the investment of the border port.

In the course of his discussion regarding the aims of the revolution, General Angeles said:

"I could not be provisional president of Mexico in view of my oft-repeated principle that no military leader should be the chief executive of my country.

"Furthermore, even if I should be chosen for that post by my compatriots I should refuse to serve as I have had no preparation or training for it. A military chief in Mexico, with the great military power that success in any revolution would bring to him, would be able to disregard the interests of the people and become a military director with all the tyranny that dictatorship implies.

"General Villa and I believe that after the revolution has won its fight a civilian should be elected, one who knows the needs of the country and will have the ability and rectitude to provide them."

WORKS FOR MEXICAN LIBERAL ALLIANCE

General Angeles said he went to Mexico in the interest of the Mexican Liberal Alliance, the purpose of which, he said, was to unite all factions warring against the Carranza government and to establish a true democracy. It was the intention of the revolution, he said, to conquer the State of Chihuahua, and there receive the refugees from Mexico who then were in the United States and other countries.

When the revolution forces were dispersed by United States troops following the attack on Juarez, General Angeles became a fugitive in the State of Chihuahua, his forces scattered and disorganized.

For months little authentic news of the "intellectual revolutionary leader" reached the border, but it was believed in military circles that he and Villa were quietly engaged in recruiting a new revolutionary army. At the time of General Angeles capture last week he was accompanied only by a small bodyguard, some of whom were killed in the fight with Mexican federal troops. Several others were summarily executed.

NEW YORK, Nov. 26.—Madame Felipe Angeles, wife of the Mexican revolutionary leader, is gravely ill at the home of friends here and has not been notified of his execution

CAR SERVICE IS KILLED BY JITNEY BUSSES

BY ASSOCIATED PRESS.
LEASED WIRE TO TRIBUNE.

LAWRENCE, Mass., Nov. 26.—Car service on local lines was suspended today by order of the public trustees of the Eastern Massachusetts Street Railway Company, who declared that because of jitney competition the street cars were being operated at a loss.

Only two interurban lines were running, and thousands of mill workers were obliged to walk or crowd into the many buses which were operating without license.

The bus owners attempted to meet the situation by bringing in scores of additional vehicles from surrounding cities during the night.

No fares were collected, but contributions were accepted. The owners said returns were larger than if the usual bus fare of 7 cents had been charged.

men, or lye in their shoes, were other methods of winning their allegiance.

HAD SYSTEM OF ENDING DISPUTES

He declared the Industrial Workers had their own system of adjudicating disputes among members. They took no stock in the regularly constituted courts, he said, maintaining that these were run for the special benefit of the capitalist class and that working-men were stupid to expect justice from them. Committees were appointed as needed to settle disputes, he said, and whatever disputes could not be settled in the meeting halls were referred to the general executive board at Chicago.

Coming to the connection of the defendant, McHugo, with the organization, Diamond claimed he had seen him at Fresno, but that he first became acquainted with him in March, 1918, upon the reorganization of the California Defense Committee, which was seeking ways and means of defending the I. W. W.'s who had been arrested at Fresno and Sacramento.

According to Diamond's story, the committee had previously been composed of "intellectuals," whose chief delight was the writing of long and rhetorical statements which did everything but get in the funds. The defendants who were out on bail and others decided, he said, that "what was needed was a rough-neck committee that could actually go out and get results."

McHUGO GOOD MEMBER, HE SAID

So such a committee was at once chosen, a few being retained from the old committee but a number of new men being appointed. One of these, he said, was the defendant, McHugo. McHugo represented Oakland. He was a good member, Diamond said. Witness saw a number of bulletins in the headquarters of the committee which listed subscriptions of considerable magnitude gathered in Oakland and sent in by McHugo, who was Oakland secretary as well as representative.

This defense committee, Diamond said, was organized to take care particularly of the interests of the I. W. W.s arrested at Fresno and Sacramento. He gave a list of these whom he knew. In the list were the names of a score or more, regarding whom testimony to the effect that they were saboteurs and direct actionists has been given during the previous sessions of the trial. Further details regarding the activities of some of these defendants were given by Diamond in answer to Rogers' questions.

I. W. W. UNALTERABLY OPPOSED TO WAR

In the course of the reading from I. W. W. publications by Deputy District Attorney John U. Calkins, several thousand words of Industrial Worker propaganda were presented to the jury. Among the excerpts from "Solidarity" and other publications were these:

"It is needless to say, the I. W. W. is unalterably opposed to war and conscription. We shall be true and loyal to our trust."

"Were You Drafted? Our organization is opposed to all nationalistic and imperialistic wars. We are opposed to our members being forced into bloody and useless wars for the benefit of the capitalist classes of Europe. All members of the I. W. W. who have been drafted should write upon their exemption claims: 'I. W. W. Opposed to War.'"

"The organized workers have the right to take whatever they want with or without reason. The Industrial Workers of the World is the court of last resort, and from its decisions there is no appeal."

"We must drive home this lesson. We must teach the worker to be on his guard against the fallacy of political revolution. We must show him that compromise is inseparable from political action. We must cultivate a self-reliance to resist the temptation of the political tin gods. The political machinery protects the exploiters. The revolutionists will refuse any form of co-operation with capitalist political government.

"We know what we want and will demand what we want. Tomorrow we will not demand but take."

I. W. W. WANTS THE EARTH, SAYS PAMPHLET

Extracts from I. W. W. pamphlets to show the evils of the organization were read yesterday afternoon by Deputy District Attorney Calkins. Cartoons from Industrial Worker periodicals also were displayed. Among the extracts which Calkins read were the following:

"The I. W. W. is not satisfied with more wages; he wants the earth. If the I. W. W. is forced to break the law it will do it gleefully. Under the present system there is one thing that can bring freedom and that is violence and revolution. This is our day.

"Washington's legislation against criminal syndicalists will receive a response from the mills, factories and fields. One ounce of sabotage is worth a ton of legislation. Don't forget sabotage; it has 99 lives — the I. W. W. cannot be killed."

Charges that a circular containing an I. W. W. pronunciamento against criminals had disappeared from the store of printed matter in evidence in the case were made in court by Cleary. When he sought this circular for the purpose of presenting it to Elbert Coutts, state's witness, it could not be found. The prosecution attorneys denied it had been offered in evidence.

SABOTAGE DEFINITIONS SOFTENED BY LAWYER

Cleary sought to bring out in Coutts' cross-examination that destruction of social values was not intended in sabotage, but a reduction of the boss' profits where possible. Coutts claimed that this and other theories were put forth by the I. W. W. but not carried into practice. He said he had got the idea from W. B. Haywood, secretary-treasurer of the organization, himself, that the I. W. W. should destroy property in the practice of sabotage.

"The idea of the I. W. W. is to get control of the world," said Coutts; "peaceably if possible; if not, then by the destruction of anything and everything that stands in their way."

Coutts said that the opinion was expressed in I. W. W. meetings he had attended that the insurance companies started the hue and cry against the I. W. W. after the San Joaquin valley fires in order to frighten the farmers into taking out more insurance.

CAR LINE FACES FRANCHISE LOSS

That the San Francisco-Oakland [illegible] operate cars over Fruitvale avenue, and that similar action may result on other lines of the company where improvements are not made in accordance with agreements with the city, developed before the city council this morning following the reading of a communication from W. R. Alberger, general manager of the company, stating that the company will be unable to make required improvements in Fruitvale avenue.

"This work has been delayed for five years now," said Commissioner of Streets W. J. Baccus, "and some action should be taken to compel the company to proceed with the work required of them."

"It wouldn't do any good to force them to forfeit their franchises," said Commissioner W. H. Edwards.

"It would be bad for the city," answered Baccus, "but it might be a good idea to let the people suffer in order to show the company that we mean business, and to force them to do the work they are bound to do."

A delegation of property owners in the district, headed by Dr Minora E. Kibbe, appeared on the floor of the council to urge the improving of the street, and Tuesday, December 2, was set as the time for the hearing of their demands.

Meantime the case has been referred to City Attorney H. L. Hagen for a legal opinion as to what steps the city should take in view of the failure of the company to commence work agreed upon.

Friends with whom she is stopping stated that she was in a very precarious condition and they feared to give her the news at this time.

Madame Angeles came here from El Paso three months ago with her daughter, aged 22 years, and three sons, the oldest of whom is 20. Since coming here she has had no direct word from her husband, who had been wandering around in the wilderness of the interior of Mexico. Her illness is said to be due to nervous exhaustion resulting from worrying over General Angeles' safety.

the ransom demanded for his release. The latest information from Puebla said that Jenkins, refusing bail was still in jail awaiting trial.

The apathetic attitude of the press was broken this afternoon when El Universal published an extra containing a special despatch from Washington declaring the United States was considering intervention.

MEXICO CITY, Nov. 25.—Federal forces, after clearing rebels from the village of Malacatepec, conducted an investigation showing that William O. Jenkins, American consular agent, was seen in that place on the date of his recent abduction in company with the bandit leaders Cordova and Cora, according to official advices received from Governor Cabrera tonight. The despatches said Jenkins was riding with the bandits in an automobile and appeared to be on friendly terms, whereas he asserted after his release that he had entered the village blindfolded and on horseback.

Cabrera pointed out in his report that this indicates the "falsity of Jenkins statements." This information, it was said, would be conveyed to the American embassy here in an effort to prove Jenkins guilty of perjury.

was a somewhat general impression that the operators would be called upon to bear practically all of the proposed wage increase but officials withheld comment.

Thus far the position of the mine union officials has been that they could not accept anything less than the original demands of the Cleveland convention for a sixty per cent increase in wages and a thirty hour week without the approval of that convention. Should they hold to this view after the meeting, Dr. Garfield said it might be that several weeks would elapse before a final settlement was reached.

ATLANTA, Ga., Nov. 26.—Managers of all industries, commercial houses and other large users of coal of the southeastern regional district are asked to close their establishments with the end of today's business and remain closed until next Monday morning.

As far as practicable, all business offices and houses are asked to arrange to close daily at 4 p. m. during the coal crisis in order to lessen consumption of coal.

NEW YORK, Nov. 26.—William B. McAdoo today sent a telegram to the bituminous coal operators at Washington in which he reiterated his charges that the mine owners have made excessive profits ranging all the way from 15 to 2000 per cent.

WASHINGTON, Nov. 26.—Desertions from the army from March 1 to November 17 of this year averaged more than 800 per month, with less than 15 percent of the men apprehended, the War Department announced today.

The average period of confinement in army disciplinary cases has been reduced from 6.63 years to 1.85 years, clemency having been recommended in 81 percent of the 7627 cases reviewed, figures made public today show.

In 2750 cases the entire unexecuted portion of the sentence was remitted.

SOLOELLE
The Tone-Coloring Solo Player Piano

Accompanied by the Soloelle, the singer forgets mechanism so evident in other players and constantly wonders at the remarkable versatility of this instrument which cannot make a technical mistake and yet, on account of its separate melody and accompaniment control and its marvelous control of tone-color, gives all that an artist demands of a perfect accompanist.

Clarence Whitehill

The Soloelle marks an epoch in the history of the player piano because it accomplishes two things heretofore considered impossible:

First
The Soloelle is the only player piano that affords complete and unrestricted control of Melody and Accompaniment separately.

Second
The Soloelle is the only player piano that affords control of the tone-color—the kind, quality or character of tone as distinguished from quantity of tone (tone gradation).

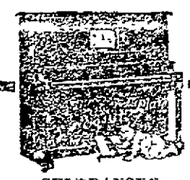

We know of no one who, having heard the Soloelle and realizing its acknowledged superiority, has ever purchased any other player piano—Come and hear the Soloelle—Play it yourself—Sing with it if you want to, and you will be convinced.

OAKLAND HOMES ARE ROCKED BY MYSTERY BLAST

Inspector William Kyle of the arson squad, is probing the blast that wrecked a house at Twenty-eighth and West streets, injured one man and rocked houses for a radius of two blocks, early this morning.

The fire department responded. J. Adamina, a painter, of 834 Twenty-ninth street, was scraping the walls of the house with a gasoline torch. The torch exploded in his hands, he told Battalion Chief M. Carroll. Carroll reported the force of the blast was too great to be caused by such explosion and made a full report to Chief Elliott Whitehead.

Chief Whitehead reported to Captain of Inspectors Walter J. Petersen, who ordered a rigid investigation.

Adamina was severely burned and his hair singed. The walls of the house were blown out. Windows were shattered and the glass from the panes was scattered into the gutter of West street.

The house is owned by J. Massara.

Chambers' Condition Considerably Better

Improvement in the condition of State Controller John S. Chambers was noticed today, beginning about 3 o'clock this morning, according to announcement from the sick room at the Hotel Oakland. His physicians reported that the patient was steadily pulling out of danger, and that the prospects for his recovery are greatly increased. Too much confidence is not expressed, however, because of the nature of the illness. Controller Chambers was suddenly seized with an attack of pneumonia Saturday night after stopping at the hotel for a brief rest before returning to Sacramento from San Jose, and his condition developed seriously. Mrs. Chambers is with him, as are also members of his staff from the San Francisco office.

.....

There is a case in Oakland of a cloud blotting out the happiness of a deserving family. It was caused by the smoke from their burning home. The man's name is Manuel Adreu. With his wife and their eight children they lived at 2776 East Eighth street. Last Saturday, while the father and mother and all but three of the children were away, the house caught fire in the upper story and burned to the ground. That night the family possessed only the clothes they wore, their every-day clothes.

Mabel Adreu, aged 15, rescued Olive aged 6, and Theodore, aged 3, and the dog, from the flames. Neighbors took them in. Later in the day the father, aged 69, returned from the lumber yard where he works, and saw the ruins.

SAVINGS OF FAMILY.

The house contained seven rooms. The family had lived there eleven years and the home and what it contained, free from debt, represented the savings from his toil and the toil of his wife added to by the children as they grew up. Mostly it had been built by his own labor.

The family had decided to sell the home and go to Manteca, near Livermore, where they would acquire a little piece of land. For that reason the insurance was allowed to lapse a month ago. A few days before the fire the house was sold, $40 being paid. The papers were not drawn and they owe the intending purchaser the money.

CHILDREN ARE RESCUED.

The total loss of house, furnishings, clothing and currency is estimated at $3000. The mother had been busy making clothes for all the children in anticipation of the move to a new neighborhood. Everything was lost. They deem themselves lucky that the little children were saved from the flames by the heroic effort of Mabel.

The children are: Julia, aged 23, married, working to support herself and 4-year-old child. Minnie, 21, earning $10 a week. Lucile, 17, earning $10 a week; Mabel, 15; Sophie, 13; Daniel, 8; Olive 6 and Theodore, 3. Julia lived with the family and lost everything. The grandmother, aged 72, lived with them also, losing everything she possessed.

HELP IS NEEDED.

The combined effort of the parents and children can keep the mouths fed, but cannot restore the home. Without the helping hand the family cannot be kept together, it is feared. The father is only a laborer, earning a laborer's pay. And he is very old.

The children are bright, well-mannered and the family is deserving. They are good Americans and during the war they helped in every way possible.

At present the family is with Mrs. Mary Sousa, at 2127 Thirty-fourth avenue.

New Outdoor Club Will Meet Tomorrow

NEW HOME RULE BILL WILL BE INTRODUCED.

LONDON, Nov. 26.—A new home rule bill setting up two parliaments in Ireland with a council or senate of forty to be chosen by the two probably will be introduced in parliament within the next two weeks.

Daily sessions are being held by the cabinet committee in charge of the measure, the subject under discussion at present being finance, which is in charge of a sub-committee under the chairmanship of J. Austen Chamberlain, chancellor of the exchequer. Control of the customs has always been a point of sharpest difference when other home rule schemes have been debated and was one of the rocks upon which the Irish convention was shipwrecked. Control of police is another knotty point.

ARMISTICE DAY PARADE SEEN IN FILM AT KINEMA

Virtually every fraternal order, civic body, and organization in Oakland was represented in the Armistice Day parade, motion pictures of which are now being shown at the Kinema in The TRIBUNE-Kinema Weekly. Beside the two thousand ex-soldiers and sailors that marched with the American Legion, as many more were in line with the contingents that represented industrial plants, or organizations. Red Cross workers, members of war relief and auxiliary organizations, the Grand Army of the Republic and the Girls of '61 also participated in the parade.

Commercial classes showing the children in the California State school for the deaf and blind practicing typing is also a feature of The TRIBUNE-Kinema Weekly today.

SPLASH HEARD IN CITY HALL; FINDS BATHER

When a man bathes in ice cold water in the public lavatory of the city hall, Oakland, at 6 a. m., does the act imply he is insane?

The Oakland police are taking no chances. Hence A. Demaria, former shipyard worker, is held in the city prison for investigation.

Captain Charles F. Bock heard loud splashing sounds this morning emanating from the lavatory. Inside he found Demaria in a wash basin, his clothes stacked in a neat pile in a corner.

Demaria said he had no place to wash.

GIBBONS ISSUES THANKSGIVING MESSAGE IN U. S.

BALTIMORE, Nov. 26.—Cardinal Gibbons, primate of the American heirarchy of the Catholic church, issued this Thanksgiving message:

"We offer thanks to God this year because of the many blessings received from Him during the past twelve months, in particular for the cessation of the world war, and in our own country for the prosperity and peace we enjoy. We thank Him for the spirit of patriotism fanned into a warmer flame in the hearts of our people, and manifesting itself most recently in the resolve to curb effectually those destructive forces which strive to undermine or overthrow the just and wise provisions of our government."

GYPSIES ADVISED TO LEAVE TOWN

Chief George Anko and his tribe of fifty-five gypsies camped near the Durant, flying field, Seventy-third avenue and Foothill boulevard, have been told to move on.

Captain Thorvald Brown of the Oakland police advised Anko and his followers they would have to vacate. The band of wanderers are given until noon tomorrow to move on. George Anko Jr. is being treated in Hayward Sanitarium and when he is discharged the wanderers have agreed to march out of Alameda county.

Mitchell Delromo, who presides next to Chief Anko, notified Captain Brown that his band would migrate to Richmond.

Two Defendants Ask Immediate Sentences

Two alleged criminals were in a huggy to be sentenced to the penitentiary when arraigned before Judge James G. Quinn in the Superior Court this morning. Joe King, charged with robbery, said he was guilty, did not want a lawyer and did not care to be referred to the probation officer, but wanted to be sentenced at once so he could begin serving his time. Thomas Price, colored, charged with passing a fictitious check, stoutly affirmed his innocence but said he was ready to be sentenced also. Judge Quinn refused to accede to their demands and continued their cases until they obtain lawyers.

Famous Ex-Pastor Dies at Pasadena

PASADENA, Cal., Nov. 26 — The Rev. Robert R. Meredith, once pastor of what was said to be the largest Congregational church in the United States, in Brooklyn, died at a hospital here last night. He was 83 years old, and had had a long career in religious and civic affairs.

When the Civil war broke out he left the pulpit for the field of battle and served in the Union army. He came to Pasadena ten years ago. He is survived by a widow.

'BIG FOUR' CHIEFS DENY RY. STRIKE HAS BEEN CALLED

CLEVELAND, O., Nov. 26.—The 500 general chairmen of the four railroad brotherhoods in conference here took a vote on the offer of Director General of Railroad Hines, granting time and one-half for overtime in new freight service, just before adjourning for lunch. The vote was given tellers to count and will be announced after the convention reconvenes at 2 p. m.

CLEVELAND, O., Nov. 26.—Although admitting there was a possibility that such action may be considered, heads of the "big four" brotherhoods were a unit today in denying reports that the 500 general chairmen in session here, have voted to call a strike of the railroad men.

"No motion or resolution pertaining to a quick strike has come before the conference," said William G. Lee, president of the railroad trainmen, "and I do not know whether any such motion or resolution will be presented."

President Lee said he had wired a Kansas City local which threatened to strike, saying that if "they think they are bigger than the United States government, which is operating the railroads at present, I have no advice to give them."

WASHINGTON, Nov. 26.—Workers on the railroads who are affiliated with the American Federation of Labor are favoring a strike, it was stated today. The American Federation of Labor organizations for railroad workers have been taking a strike vote and returns show that about 90 per cent of the members favor giving the leaders the power to call a strike. These organizations, however, are more or less dependent upon the big four railroad brotherhoods as to the success of any strike.

HOTELS NEAR BATTLE FRONT FOR TOURISTS

PARIS, Nov. 19.—Hotel men, seeing fortunes in the expected flood of American and other tourists next year, are planning to erect "barrack hotels" along the battle front. The national chamber of hotel keepers, co-operating with the government, is seeking private capital to put up such temporary buildings during the winter.

Officers of the association said most of the hostelries now operating at towns on the front have patrons "sleeping in halls and even on billiard tables."

The first efforts are being directed toward making habitable hotels that were damaged during the war and inducing owners of places destroyed to rebuild them.

The arrest was made in connection with the Egyptian nationalist activities.

U. C. IS ANXIOUS FOR STANFORD WITHDRAWAL

BERKELEY, Nov. 26.—The University of California, in a letter signed by Ralph P. Merritt, administrative board, today, asked Stanford, in effect, to withdraw its order discontinuing athletic relations between the two institutions.

Merritt's letter said the University of California appreciated the gravity of the situation created when Stanford students invaded the California campus, but that the University of California desired to continue athletic relations.

The letter states that the University of California "in no way minimizes the gravity of the offense, deeply appreciates the friendliness with which you have drawn the matter to the attention of both student bodies."

Court Denies King Immediate Release

Efforts of Attorney Charles White to obtain the release of Joe King, charged with the theft of $135 and two wedding rings from his prospective mother-in-law, when Judge James G. Quinn denied the writ. The proceedings were brought on the ground of insufficient evidence at the preliminary hearing.

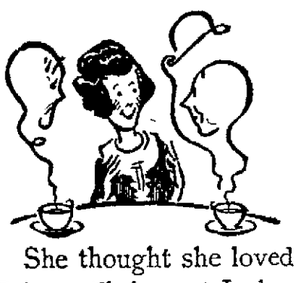

According to the police, King admitted stealing the money and jewelry from the handbag of Mrs. Gomez of Hayward when he went calling on her daughter Eva. Eva repudiated this confession at the preliminary hearing.

A DISCOVERY THAT BENEFITS MANKIND

Two discoveries have added greatly to human welfare.

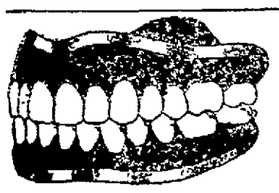

In 1835 Newton originated the vacuum process for condensing milk with cane sugar to a *semi-liquid* form.

In 1883 Horlick at Racine, Wis., discovered how to reduce milk to a *dry powder* form with extract of malted grains, *without* cane sugar.

This product **HORLICK** named **Malted Milk.** (Name since copied by others.) Its nutritive value, digestibility and ease of preparation (by simply stirring in water) and the fact that it keeps in any climate, has proved of much value to mankind as an ideal food-drink from *infancy* to *old age.*

SALUTE THE HAM AND—

Think of All the Misguided Dyspeptics Who Refuse the Good Things to Eat for Fear of Indigestion. No Trouble Like That if You Follow Meals With Stuart's Dyspepsia Tablets.

Lay a slice of broiled ham on a white plate with a couple of nicely

fried eggs and there you have a picture. Salute the autocrat of the breakfast table.

But, you say, I can't eat ham and.—they don't agree. This is the sort of prejudice a host of people have against many of the most tempting dishes, people who have just as much trouble with a glass of milk or oatmeal as they do with fried onions. Try eating what you like and follow your meal with a Stuart's Dyspepsia Tablet to relieve possible gassiness, rumblings, drowsiness, sour risings, heartburn, water brash, and the "stuffy" feeling after eating. These Tablets contain harmless ingredients that act with an alkaline effect just as the stomach does when it is perfectly normal.

Many physicians prescribe them for indigestion, dyspepsia and other digestive disorders, as they are sold in all drug stores everywhere in the United States and Canada. The druggist recommends them as among his steady staples, for they really give relief and are highly appreciated.—Advertisement.

Smashed to splinters

Yet the car was going only 15 miles an hour

MOST people think of a reckless driver as one who goes streaking along country roads at 50 miles an hour, or shooting through city streets faster than the law allows.

Yet official records show that 76% of all automobile accidents occur when the car is going 15 miles an hour or less.

Safety, for yourself and your car, is not a matter of how fast you are going, but how quickly you can stop.

Few motorists know how quickly they should be able to stop their car. It is so easy to *assume* the brakes are right—until an emergency shows they are all wrong.

How to avoid accidents

A simple inspection of your brakes at frequent intervals will make them a source of protection instead of danger.

Perhaps a tightening of the brake rods, or an adjustment of the equalizer is all that is needed. The garage man will know if relining is necessary.

Why Thermoid Brake Lining is safest and wears longest

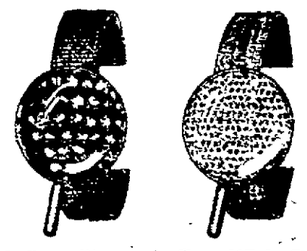

In each square inch of Thermoid Brake Lining there is *40% more material* than in ordinary brake lining. This additional body gives a closer texture which is made tight and compact by *hydraulic compression* under 2,000 lbs. pressure. In addition to this, Thermoid is *Graphalized*, an exclusive process in manufacture which enables it to resist moisture, oil and gasoline.

Have your brakes inspected today. Remember that every foot of Thermoid is backed by *Our Guarantee: Thermoid will make good—or WE WILL.*

S. F. Butchers Oppose Cheap Chinese Meats

SAN FRANCISCO, Nov. 25.—Union butchers today launched a campaign against Chinese meats. Chinese butchers are selling meat at a cheaper price than white butchers, according to M. S. Maxwell, secretary of the butchers' union. But they are working their help twelve and fourteen hours a day at very low wages.

The local butchers' union and sausage makers' union today notified the master butchers of San Francisco and the hotel and restaurant men of the city that they consider Chinese [illegible] meat unfair to organized labor.

None of our holidays of the year carries with it a holier sentiment or is so purely American in its significance as that of Thanksgiving Day. It is consecrated to the American home and carries with it a benediction of gratitude for the blessings of health, peace and contentment which we have enjoyed during the twelve months. No country in the world has so much to be thankful for this year as ours. Where most others are still suffering the results of warfare, famine and desolation, America has practically returned to a pre-war basis of tranquility. Make this day radiate this condition by dining where there will be reflected comfort, happiness and abundance. Below are some practical and pleasing suggestions of Hotels, Cafes, Restaurants and Cafeterias which strive to serve you in the manner which is best suited for this occasion.

COURT RULING RENEWS FIGHT FOR $60,000

decision reopening the $60,000 of the late Humphrey A. Randall giving Attorney Horace W. Philbrook, who charges that several attorneys and others conspired to murder his wife, Mrs. Florence E. Philbrook, a chance to renew his claim that she was defrauded of her rightful share of the estate, has been made by Judge Kinsell, in setting aside a decree of the late Judge W. S. Wells finding that Mrs. Philbrook was indebted to the estate by more than

Incidentally Judge Kinsell filed an affidavit denying prejudice on his part and asserting he is qualified to hear the premises.

Mrs. Philbrook, who was a sister of Randall, was left $5000 in the will and was made executrix of the estate. Later she was removed on the ground of incompetence and Mrs. Bates Randall, the deceased's second wife, substituted. When she failed to appear in court in answer to a summons to settle her account, after a protracted effort to serve the summons on her, Judge Wells accepted the evidence of the other side and declared her indebted as stated. Mrs. Philbrook died soon afterward.

An affidavit recently filed by Philbrook in which a murder conspiracy charge was made, declares his wife was physically unable to go to court, as she had fallen down a dark stairway and suffered concussion of the brain after the summons servers had shut off the light in their San Francisco home in the hope that she would be driven to appear in the open.

Judge Kinsell holds that Mrs. Philbrook was entirely excusable for not answering the summons and says that if Judge Wells had had the information set forth in the affidavit he undoubtedly would not have made the decree in question. The fact that Mrs. Philbrook's accounts have not been settled has delayed the settlement of the estate for several years. The decision, it is stated, will bring to the fore again a fight for the property involved, most of which is in Maine.

U. S. PEACE ENVOYS TO RETURN DEC. 5

PARIS, Nov. 26.—Any delay which may eventually be found necessary in the exchange of ratifications required to put the German peace treaty into effect will not change the plans of the American delegation, it was learned today. Under Secretary of State Polk and other delegates will leave Paris on the evening of December 5.

The potentiaries of Jugo-Slavia signed the Austrian peace treaty at 4 o'clock this afternoon. They will attach their signatures simultaneously for the protection of racial minorities, to the arrangement of relations concerning Italy, and to the financial arrangement concerning the sharing of expenses of the liberation of the former Austro-Hungarian monarchy.

Army Stores Will Suspend P. O. Orders

Second Oldest Native Son Is Dead

Patrico John Castro Answers Call

PATRICO JOHN CASTRO, second oldest native son of California, who died at his San Pedro ranch Monday night.

RICHMOND, Nov. 26.—In the death of Patrico John Castro, California lost its second oldest native son and one of the most prominent early settlers of Contra Costa county. His absence from the Castro ranch at San Pablo creek, where he resided since 1868, will be felt by residents among whom he has long been a familiar figure.

He came from the old Castro family, known throughout the West in the early days of the nineteenth century. His father, Victor Castro, was at the time the owner of Mare Island. It was he who named the island and later sold it to the United States Government for $800.

Louise Martinez Castro, after whom the city of Martinez was named, was the mother of Patrico, who was born in 1842 on the El Cerrito hill next to the county line.

MOVE TO PRESIDIO

Shortly after Patrico's birth, the Castro family moved to the Presidio at San Francisco but later returned to El Cerrito where Patrico John lived until his marriage to the daughter of a prominent Contra Costa county resident. In 1868 he moved to the ranch at San Pablo creek, where the children of this family are residing.

Up until a few days ago, when his illness became so serious that he was forced to take to his bed, Patrico John Castro could always be seen on the ranch, attirned as a farmer and busily engaged with the horses or the soil. Although he never joined the Native Sons' Lodge, he is credited as being the State's second oldest son. According to officials of the Richmond Lodge he was asked time and time again to join the organization, but each time refused saying that he had done enough signing in his younger days.

Victor Castro, his father, gained fame here after naming Mare Island, which has since become one of the greatest naval bases in the world. The story of the naming as told a son, Percy L. Castro, dates back to the early forties. Victor Castro with several companions and three mares started from one side of the Straits of Carquinez to cross to the other side. On reaching their destination, the men in the party discovered that one of the mares was missing and a search for him was started.

Many days were spent by the party in an effort to find the animal but all these efforts were futile. While out alone one day Victor Castro discovered the animal on one of the islands near the straits. He called the place Mare Island in honor of the muchly loved annimal. The name immediately spread and it still remains so today.

LEAVES FOUR SONS

Patrico John Castro is survived by four sons, L. H. Castro of Richmond, A. E. Castro, S. P. Castro and Percy L. Castro of San Pablo. Percy L. Castro is now in charge of the ranch at the creek.

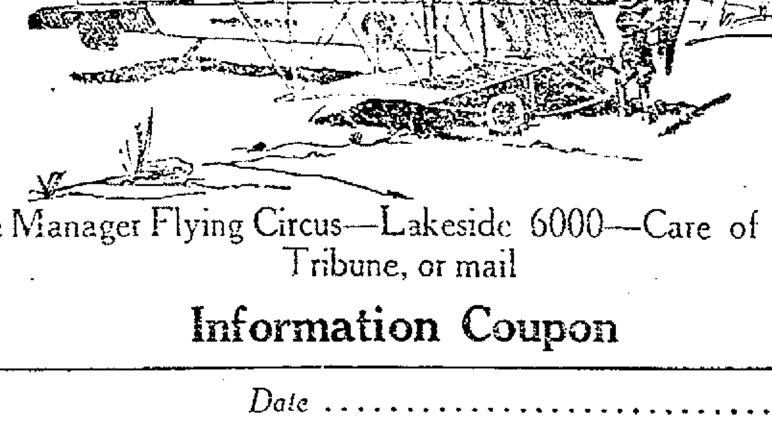

He was also the father of Mrs. T. J. Fitzgerald, Mrs. H. J. Brennan and the late Henrietta Castro. The late P. J. Castro was his son. nan and the late Henritta Castro.

His brother, Bell O'Neill and sisters, Mrs. H. Fitch and Mrs. Julia Galpin are residing in the State.

The funeral will take place from St. Paul's Catholic church at San Pablo, tomorrow morning at 10:30 a. m.

CRAB SEASON IS OPEN; CATCH LARGE

Lovers of crabs are happy again, following the opening of the crab fishing season, November 15. The fleet of crab fishing boats operating out of bay points, is again active supplying the crabs for the many connoisseurs who have been doing without for over three months and anxiously awaiting the day when the law again allowed them to procure their favorite food.

The closed season for the crab fishermen coincides with the moulting time of the crustaceans, and is established by law to conserve the supply.

The three and a half month period gives the crabs time to get an entirely new outfit of wearing apparel, and they are now in new hard shells and their flesh has resumed its edible condition.

When the time for moulting is due the crab discards his old shell by walking out backwards. This leaves the crab's body soft and watery. Sudden growth then occurs, the crab swelling at least 20 per cent in size. This is followed by a gradual hardening of the new shell.

Strict enforcement of the closed season, in which the crab fishermen co-operate, realizing that it is to their benefit, has kept up a large supply of crabs, according to N. B. Scofield, head of the commercial department of the California fish and game commission.

Other conservation measures which preserve the industry are the provisions which forbid catching of any crab measuring under seven inches across the back of the shell.

SERVANTS DESERT FORMER KAISER

AMERONGEN, Holland, Nov. 26.—Although the former German emperor appears to have found the quiet life at Amerongen to his liking, member of his personal suite have grown tired of village existence and recently there have been several changes in the ex-emperor's entourage.

Since Dr. Foerstner, who for many months acted as personal physician to the former emperor and empress, departed for Berlin about six weeks ago, there have been two new German doctors at Bentinck Castle. The latest is Dr. Alfred Machner, who came from Cologne a few days ago.

General von Dommes, who had been chief of the personnel suite for several months, has returned to Berlin, either on a vacation or permanently and has been succeeded by Friedrich Von Betz of Berlin, who was a court official under the old regime.

Countess Kellar, lady in waiting to the ex-empress, remains in service, however. A system of vacations in Germany has been inaugurated for the former royal pair's personal servants.

ELLIS ISLAND RADICALS ON TWO STRIKES

NEW YORK, Nov. 26.—More than three score radicals awaiting deportation hearings at Ellis Island, now being investigated by the House immigration committee, have instituted two strikes within 24 hours.

After having issued an ultimatum to the effect that they would not attend their hearings unless the wire screen which separated them from visitors was removed, they declined an invitation to march into the dining hall for breakfast this morning. The menu which the hunger strikers turned down consisted of prunes, oatmeal, bread with a substitute for butter and coffee.

Filipinos to Hold Thanksgiving Dance

The Filipino Brotherhood Association of Oakland will give a Thanksgiving dance and entertainment tonight in the Woodward building, War Camp Community Service Girls' club, 1444 San Pablo avenue. Estanislao S. Tongko, president of the association, will preside. Alexander Stewart, Rev. William Keeney Towner and Mrs. Esther Snyder will be speakers. Filipino music will be one of the features of the evening.

The committees in charge of the Thanksgiving celebration, of which E. S. Tongko is chairman, are: Reception—J. B. Cenera, J. Tinsay, V. Luna; decoration: C. L. Laudinorio, M. Martinez, D. Veto; refreshments: S. Y. Ymasa, I. Orias, P. Yabo, F. Mangle; finance: E. Ratio, A. Regalado, G. V. Tolentino; music: J. J. Batul and F. Sales.

Airship Will Carry Bibles to L. A. Folk

SAN FRANCISCO, Nov. 26.—Aviator Dan Davidson will make a non-stop flight Friday morning to deliver 10,000 scriptures from the Church Federation of San Francisco to the churches of Los Angeles. He will leave from Ingleside field and land at Exhibition park, Los Angeles, where services will be held, A. J. Waller presiding. The flight is a part of the program of Bible day, November 30, co-operation between the northern and southern parts of the state being aimed at.

This afternoon preliminary services were held at Ingleside flying field, under the direction of the Church Federation of San Francisco. Rev. Josiah Sibley of the Calvary Presbyterian church presided and Dean Gresham, as the personal representative of Bishop Nichols, delivered the address.

OREGON AIDS VETERANS

SALEM, Ore., Nov. 26.—The secretary of state was authorized today to issue certificates of indebtedness in a sum not to exceed $200,000 to care for the claims of ex-service men attending the various educational institutions of the State.

FOOD COST IN CITIES JUMPS 1 TO 9 PER CENT

Food cost in the San Francisco bay district showed an increase of one per cent in October over September, according to the report of the U. S. department of labor bureau of statistics. For 50 cities scattered all over the country, however, the prices remained about the same.

Portland, Oregon, and Seattle, showed increases of less than one-half of one per cent. Portland, Maine, on the other hand, was among the cities showing a decrease of less than a half of one per cent. Springfield, Illinois, showed the largest increase, three per cent. In September, however, prices there fell the same per cent.

With the exception of Baltimore, Butte and Norfolk, all the cities showed increases of from one-half of one per cent to nine per cent over October of 1918.

ABERDEEN ENGINE WASHES ASHORE

Nearly four years after being wrecked, the engine and keel of the steamer Aberdeen were washed ashore several hundred yards south of the Golden Gate life saving station last Friday. The hull was washed ashore a day after the wreck, January 27, 1916, but the bodies of Capt. Peter Knudsen and the crew that was taking a load of refuse ten miles beyond the bar for the Oakland Street Department have never been found. Junkmen who have been harvesting a fortune this week are now hoping that the boilers will also be washed ashore, as they are the most valuable part of the vessel.

The first beachcomber to strip the wreck of brass fittings was William Saunders, a garage man located near the place of the wreck, on Saturday and Sunday, who removed $800 worth of brass. Then came 20-year-old Albert Cranow, who hauled a wagon-load of brass worth $300 away. Other beachcombers also rushed to the scene and now there is little left of the wreck that is worth carrying off.

It is believed that the heavy seas tore the boilers loose and allowed the rest of the wreck to float in. The boilers will probably never be recovered.

LABOR PLATFORM HAS 32 PLANKS

CHICAGO, Nov. 26.—The labor party convention adjourned last night after completing organization and adopting a platform of 32 planks.

Organization of branches of the labor party already have been begun in Illinois, Indiana, Pennsylvania, Oregon, Washington and other states, Chairman Max Hays of Cleveland, Robert M. Buck of Chicago, and other leaders said. They expect farmers and co-operative bodies to join.

Among planks written in the platform were:

For abolition of the United States senate.

Repeal of the espionage act, abolition of conscription and secret treaties and establishment of free speech, press and assemblages.

No compulsory military training.

Nationalization of railroads, other national resources and all basic industries.

Adoption of the Plumb plan for the railroads.

Organization of a league of workers of all nations.

Viscount Astor to Retain His Title

BY ASSOCIATED PRESS.
LEASED WIRE TO TRIBUNE

LONDON, Nov. 26.—A bill introduced in the House of Commons, under which Viscount Astor would have been able to give up his title, inherited from his father, the late Viscount (William Waldorf) Astor, was defeated by a vote of 189 to 56.

ACCUSED TELLER CLEARED

NEW YOR, Nov. 26.—John Raymond McDonough, paying teller in the Irving National Bank, who was charged November 12 with an alleged false entry of $20,000 in his accounts, was honorably discharged yesterday by United States Commissioner Hitchcock on motion of the Federal district attorney. It was satisfactorily established that a check for the amount had been properly put through his accounts and that the false accusation resulted from misinformation lodged with the Federal prosecutor.

Salvador was the first of the South American countries to declare its independence.

Friends of Club Will Pay Visit To Day Nursery

By EDNA B. KINARD

The best way of learning is by seeing, feeling, touching, actually knowing. That is why on Friday, December 5, the social service section of the Town and Gown Club is taking its friends for luncheon to the Berkeley Day Nursery. The whole and entire reason for the Berkeley Dispensary and the Day Nursery, and the thing that it stands for in the lives and hearts and minds of the women and children clustered about Addison and Seventh streets will be clear to the visitors from the upper side on that day. A buffet luncheon will be served at one o'clock with inspection of the building following.

Children of the Home Club this year are not to entertain themselves. They are to entertain the little lads and lassies like themselves who know only the big family of the orphanages. This is a decided innovation but one which emphasizes the new democracy into which the club on the hill has swung. The children's party this year will take place on Saturday, December 13, with Mrs. Louis Decoto the hostess.

Lazear School has been chosen as the place where the Child Welfare Clinic which the Home Club has pledged itself to support will be located. Mrs. L. D. Manning has been appointed chairman of the finance committee, which will look out after the supplying as well as the depleting of the clinic treasury.

Over yonder in Alameda there is a big institution which we have known for many years as the California Girls' Training Home. Of the girls that are trained there we know less. But Christmas is coming. Some kindly spirited women looking about for good deeds to do discovered that these maids behind the high board fence which shuts them from a buzzing world lived in rooms no longer fresh and dainty as every girl's room should be. A bit of cretonne, a new dresser, a bed, a rug—they help life a heap when they are well chosen.

The word has spread throughout clubdom. There has been a long procession Alameda-ward and busy brains and eager pocketbooks have come forward to promise to the young women some of the important albeit little things that go into a girl's happiness.

Rockridge Woman's Club has adopted the Christmas plan along with its other plans. For already it has under its Yuletide program three families who must be sewed and cooked for and furnished with toys and sweets. Claremont Parent-Teacher Association, also, from the midst of its busyness, has sent its thoughts across to the island city.

Now it so happens that the two clubs are within the same neighborhood and the members of one are identical with the members of the other. Furnishing girls' rooms takes a goodly bank book and the two organizations have plotted together. They are giving a card party. Wednesday, December 3, their guests will gather to make merry that the Christmas eve may take to the big institution in the neighboring city the things which will be their gift. Mrs. A. A. Black is opening her home in Taft avenue for the function which will assemble fully 200 revelers who will have good will in their hearts.

When the Rockridge Woman's Club spent $50 for materials and began to make bloomers and clothing for little girls and boys they wondered what was really to become of that careful needlework and crisp comfort. The big stores of new garments are ready. It will be a veritable Santa Claus who will distribute them to the youngsters in some of the downtown schools whose education is in proportion to their clothes.

Whether army nurses should have relative rank similar to that which Canadian and Australian nurses now have will be discussed at the business meeting of the Collegiate Alumnae luncheon on Saturday at Hotel Bellevue. There will come before the university women in all probability a resolution, endorsing the Jones-Raker bill.

Oakland center, California Civic League, is rejoicing in the latest recruit which has been made to its membership. It is not an individual but an entire organization which has united its efforts with that of the civic workers. The Oakland School Women's Club, with its roll of more than 300 of the classroom teachers in the Oakland Schools have identified themselves with the program of the center. To show the broad interest of the definitely democratic organization, it might be mentioned that they are also identified with Oakland Federation of Mothers' Clubs, and the Women's Legislative Council of California.

BANISH CATARRH

Breathe Hyomei for Two Minutes and Relieve Stuffed Up Head.

If you want to get relief from catarrh, cold in the head or from an irritating cough in the shortest time breathe Hyomei.

It should clean out your head and open up your nose in two minutes and allow you to breathe freely.

Hyomei often ends a cold in one day, and brings quick relief from scuffles, hard crusts in the nose, hawking, spitting and catarrhal mucous.

Hyomei is made chiefly from a soothing, healing antiseptic oil, that comes from the eucalyptus forests of inland Australia where Catarrh, Asthma, Bronchitis, Tonsilitis, Influenza, Pneumonia and Consumption were never known to exist.

Hyomei is pleasant and easy to breathe. Just pour a few drops into the hard rubber inhaler, use as directed and relief is almost certain.

A complete Hyomei outfit, including inhaler and one bottle of Hyomei costs but little—at The Owl Drug Company and druggists everywhere. If you already own an inhaler you can get an extra bottle of Hyomei at druggists.—Advertisement.

AUTO MARKET: WANT AD COLUMNS. EACH THURSDAY.

CHURCH FOLK TO CELEBRATE THANKSGIVING

Thanksgiving will be observed by the churches of the Eastbay district tomorrow, either singly or in groups.

Several of the East Oakland churches are arranging for a united service at 10 o'clock tomorrow. The services will be held in the Church of the Advent. The Rev. H. L. Kerr of Brooklyn Presbyterian church and the Rev. J. F. Whittaker of the Eighth Avenue M. E. church will be the speakers. The addresses will be brief. The service will last but one hour. The vested choir of the church will render the special music. The Rev. Isaac Dawson will lead in the devotions.

The Fruitvale churches (the Christian, Congregational, Episcopal, Methodist and Presbyterian), will hold services at St. Philip's church, Nicol avenue and Capp streets. All the ministers will share in the 10.30 service and Rev. Webb of the Christian church will preach.

Rev. G. C. Pearson, the new pastor of the Twenty-fourth avenue M. E. church, will preach at the union services of the Twenty-third avenue community churches. The services will be held at 10:30 at the Twenty-third avenue church. The choir of that church will furnish the special music.

The Melrose churches will unite in their Thanksgiving service at the Melrose M. E. church. Rev. J. B. Orr of the Boulevard church will preach the sermon.

OAKLAND CHURCHES

The churches of North Oakland will meet at the Friends' church, Fifty-second and West streets, this evening at 7:30. Rev. Milton C. Lutz, pastor of the United Brethren church, will preach and the male quartet of the Emmanuel Presbyterian will lead the music.

The central churches will hold their Thanksgiving service at the First Congregational church, Twelfth and Clay streets, at 10.30 o'clock. Rev. F. M. Silsley, pastor of the First Presbyterian church, will be the speaker. The churches to unite in the services are the First Baptist, First Christian, First Congregational, Plymouth Congregational, First Methodist Episcopal, First Presbyterian, Union Street Presbyterian and Welsh Presbyterian, Temple Sinai and the First Unitarian. A large crowd is expected at this meeting.

INDIVIDUAL SERVICES

Members of the Catholic churches will meet in their own parishes and observe the day with special music, masses and appropriate addresses.

The Lutheran churches of the Eastbay cities will unite in their services at 10.30 o'clock in St. Michael's church, Alcatraz and Benvenue avenues, Berkeley. The Rev. G. H. Hillerman of the First Lutheran church will preach the sermon and St. Michael's choir will provide the special music.

Some Episcopal churches will hold their services individually. St. Paul's church will have a celebration of the Holy Communion at 8 o'clock and morning prayer and sermon at 11 o'clock. At St. John's church there will be a celebration of the communion and special music at 10 o'clock. One of the big features of the day will be the celebration of the Twenty-fifth anniversary of the Trinity Episcopal church. The service will be at 10.30 and the Rt. Rev. William F. Nichols will preach the sermon.

ST. JOHN'S, BERKELEY

A sunrise Thanksgiving service will be held at 7.30 o'clock at St. John's Presbyterian church, College avenue and Derby, Berkeley. The service will be in chare of the new pastor, Rev. Francis W. Russell, and the address of the morning will be made by President Benjamin Ide Wheeler of the University of California. The young people and children of the church will bring gifts of food for the San Anselmo home for orphans.

SEVENTH DAY ADVENTIST

A Thanksgiving service will be held in the Seventh Day Adventist church tonight. An interesting program of ten numbers will be rendered by the young people of the church. A thank offering for the many blessings of the year is to be taken. The service will be at 7:45 p. m.

TEMPLE SINAI

On Friday evening Dr. Harvey B. Franklin will officiate at a Thanksgiving service for the posts and corps of the G. A. R. at the Temple Sinai at 8 o'clock. Addresses will be given by Comrades Van De Mark and Prothero and community singing also will take a prominent place on the program.

Filipino Boys, Girls To Prepare Feast

One of the most interesting classes of the First Baptist Sunday school is the Filipino class of boys and a few girls. Tomorrow they are to have a Thanksgiving dinner at the church which they will cook themselves. The church is to be open to them. Mrs. Winchester has charge of this class.

Divine Science Will Offer Up Its Thanks

The Church of Divine Science will hold its annual Thanksgiving service this evening in Star King hall, the regular psychology lecture being postponed for the week to make way for the service of gratitude. During the service the Sunday school students will bring to the platform their contributions of good things which they have earned, to give to those who will need a bit of cheer on Thanksgiving day. Mrs. MacGregor, who has often delighted the congregation, will render two solos. The address will be on the subject, "Hemming Our Blessings." All are cordially welcome.

PRISONERS LAYS HIS TROUBLES TO WEDDING PLANS

SAN JOSE, Nov. 26.—Acting as his own attorney Clarence Montgomery, charged with felony embezzlement so impressed Judge F. B. Brown yesterday that the case was set over until Friday so a further investigation can be made.

"I just went away to get married judge. I intended to come right back," said the youth.

Montgomery has always borne a good reputation.

Thanksgiving Prayer of All Protestant Churches Asks for Peace on Earth

Cognizance of the world's unrest is taken in a prayer for Thanksgiving endorsed by the Interchurch World Movement of North America. It is approved for use in all Protestant churches joined in the movement. The prayer follows:

Almighty God, who in earlier days led our fathers forth into a large inheritance give us grace, we humbly beseech Thee to pass through these days of unrest and turmoil in confidence and courage that what has been so well begun will come to rich completeness.

Bless our land with the fruits of honest toil. Save us from the discord which misunderstanding brings. Keep our feet in the path of righteousness. Teach us to love liberty and justice and to practice them to the upbuilding of the entire world as well as our own native land. Fashion into one people the multitudes brought hither out of many countries and many lands. Thus may we become true Americans.

Give us grateful hearts for the abundant harvests of the year. In the time of our prosperity temper our self-confidence with the recollection that "every good and every perfect gift is from above." Let no anxiety rob us of the consciousness of Thine abiding love. In the day of trouble suffer not our trust in Thee to fail. Be patient with us when our purposes break down or our endeavors seem of no avail.

Go with us into Thanksgiving day. Teach us to give thanks for all the blessings of the time to dread nothing but the loss of Thee and to perceive the sun of Thine enduring love forever shining behind every cloud.

Bless us all at the Thanksgiving board. Be with those who cannot be with us as well as those who can. Make us, wherever we may be, one in that unity of hope and faith and love which neither time nor distance can destroy. And send us forth into the future with Thanksgiving faces and Thanksgiving hearts—eager to labor, strong to endure, and useful to the land we love. Amen.

GOOD POSITION AT CITY HALL OPEN

A good position in the city service is going begging because it carries with it the odium real or fancied, of being connected with the municipal disciplinary barracks in the peak of the city hall.

According to Secretary Frank Colbourn of the civil service board, there is a dearth of applicants for the position which is that of nurse in the city jail.

Aside from its other recommendations and drawbacks the position carries with it a salary of $100 a month, and is said to be something in the nature of a "soft berth."

Examinations for the place will be held December 8 the last date of filing of applications being December 6. Application blanks and information are available in the offices of the civil service board in the city hall.

TEAMSTERS LIFT S. F. DOCK ORDER

SAN FRANCISCO, Nov. 26.—Announcement was made today by the Brotherhood of Teamsters that the embargo on the wharves of San Francisco has been removed. Union teamsters can now handle goods to and from all steamers at this port without jeopardizing their union standing.

This action rescinds the order of several years ago refusing to allow union teamsters to handle goods for steamers where non-union stevedores were employed. The action was taken after the Riggers and Stevedores Union decided to allow permits to be issued wherever union wages prevailed.

TRINITY PARISH TO GIVE THANKS

Thanksgiving day this year has a double significance for the people of Trinity parish. They will observe the time honored custom of gathering for public thanksgiving to Almighty God for the blessings of the past year but also they will celebrate the twenty-fifth anniversary of the founding of the parish.

The service will be at 10:30 in the morning. The special sermon will be preached by the Right Rev. William Ford Nichols, D. D. the bishop of California. There will also be a confirmation service. Special Thanksgiving day music will be sung.

A cordial invitation is extended to everyone to attend this service. The congregation of Holy Innocents' chapel will unite with Trinity congregation for this celebration. The music will be by the combined choirs of the two churches. Trinity church is at the corner of Telegraph avenue and Twenty-ninth street.

HUSBAND CLAIMS WIFE LIKED BOOZE

Mrs. Lenore Wiberg Bourke developed such a fondness for the flowing bowl that her husband persuaded her sister to come and live with them to aid in causing her to behave properly, according to the divorce complaint of J. Edward Bourke who charges cruelty and desertion.

Bourke says his wife told him she did not care for a second-hand husband" and that she was a fool ever to have married him. He also charges that she spilled medicine which she was taking when ill, ruining the carpet and other articles. Bourke claims as his own property at 115 Alvarado road, Berkeley. They were married in 1901. The husband charges he was deserted February 15, 1916.

Death Painless, Says Conan Doyle

Spiritland Described by Departed

'Few Try to Talk With Those Living'

Secrets from the limbo of the departed, how it feels to die and to arrive on the strange shores of another world—these tremendously important revelations are being brought to man by hundreds of those who have died according to Sir Arthur Conan Doyle once a crass materialist who is writing for the Sunday TRIBUNE. In every case examined death was painless he says. His new article in the great symposium on Life After Death" will deal with glimpses of Spiritland.

[illegible] cases examined the dead were attempting to communicate with the living. He continues:

These cases however are very rare in comparison with the total [illegible]. I imagine that the dead mind is much too preoccupied with his own amazing experience to have much thought for others. He soon finds to his surprise that though he endeavors to communicate with those whom he sees, his ethereal voice and his ethereal touch are equally unable to make any impression upon those human organs which are only attuned to coarser stimuli. Let us follow the fortunes of the departing spirit. He is presently aware that there are others in the room beside those who were in life and among these others who seem to him as substantial as the living there appear familiar faces and he finds his hand grasped or his lips kissed by those whom he had loved and lost. Then in their company, and with the [illegible] of some more radiant being who had stood by him and waited for the newcomer he passes to his own surprise through all solid obstacles and out upon his new life."

[illegible] writers and thinkers who contribute to the Sunday TRIBUNE on this question including Sir Oliver Lodge, Booth Tarkington, Rupert Hughes, Harvey J. O'Higgins, Ollah Toph, Sinclair Lewis and Dr. James H. Hyslop. To miss a single article is to miss a vital contribution to cosmic thought.

FRUITVALE TO MEET TOGETHER THANKSGIVING

The five churches of Fruitvale the Christian, Congregational, Methodist, Presbyterian and Episcopal, will unite for their Thanksgiving day service at St. Philip's Episcopal church, Nicol avenue and Capp streets, tomorrow at 10:30. All the ministers will share in the service and the Rev. Mr. Walker, pastor of the Presbyterian church, will be the preacher.

United services of this type have been the habit of some years in Fruitvale and a cordial welcome is extended to everyone to join in giving thanks to Almighty God for His bounteous benefits of the past year.

THE REASONS FOR THE CLUB

To provide a way for those of moderate and even small means to bank their money.

To teach the "saving habit" to those who have never learned it.

To give young folks a practical education about money—by showing them that if they give up the little things they want today, they can get the big things later.

To give you a "bank connection" and show you how our bank can be of service to you.

WHO GETS THE MONEY YOU EARN

Money spent is money gone—Money Banked is money SAVED.

It isn't the money you make that counts, but the money you sav[illegible] is no better way to acquire a bank account than by joining our Chris[illegible] Club.

Ask any wealthy man how he "got his start"—he will tell you t[illegible] and banked his money.

Get your start. Get it today. Come in and join our Christmas [illegible]

AFTER SICKNESS

The great drawback to a complete recovery is that awful weak, devitalized condition which is so hard to overcome. It seems as though every organ in the body lacks strength. Druggists recommend Vinol, the cod liver and iron tonic without oil, as the quickest aid to recovery; it induces a hearty appetite, promotes sound sleep, aids digestion and builds up strength, vim and vitality. Why not try it on this guarantee? The Owl Drug Co. and druggists everywhere.—Advertisement

LAWYERS PLAY CARDS BEFORE WOMEN JURORS

A demonstration of the game of "blackjack" in the courtroom of Judge E. C. Robinson and the testimony of Thomas Lovett that a bullet went through both sides of his coat and he did not know it until three days after the shooting of Arthur Woodyard, were features today of the trial of Ernest Dykes, negro soldier, on a charge of murder.

Dykes and two other colored soldiers, John H. Martin and Clarence McAllister, are charged with killing Woodyard during a dispute over their losses in a card game, "blackjack." Attorney Henry Davie and Deputy District Attorneys Frank Shay and Myron Harris gave a thorough exhibition of the game by dealing out the cards and explaining its intricacies to the jurors, nine of whom are women.

The defense asserts the cards were marked and the soldiers cheated of their money and that in the general shooting Woodyard, going out a door, was struck by a bullet fired by one of his friends.

Snyder Asks to Print His Suppressed Paper

Another effort to secure permission for the publication of The World, organ of the Communist Labor party, was made this morning before Commissioner of Public Health and Safety by John E. Snyder, editor of the paper, who is now under arrest on two charges of criminal syndicalism and is at liberty under bail on both charges.

Snyder was joined in his appeal by Franz Roepke, owner of the establishment that prints the paper. Snyder said in his petition if this week's issue is not printed he will forfeit his second-class mail privileges.

Commissioner Morse notified Snyder and Roepke that the case is in the hands of Chief of Police Lynch and that the chief's recommendations will be followed by his department.

According to Lynch, he has been in consultation with the district attorney in regard to the suppression of the paper.

City Takes Steps to Eradicate Smallpox

Measures are being taken by the health department to prevent a possible spread of smallpox following the development of a few cases during the past few days.

Thus far the cases are confined to West Oakland and center about the Clawson school district. Every case of illness of any kind among the school children is being investigated and close watch is being maintained on the pupils of the institution.

The first case developed two weeks ago on a railroad Pullman waiter who was reported as having the disease while the train on which he was working was en route to this city from Portland. When the train arrived here it was met by Dr. E. F. Jones, acting health officer, with a large crew of assistants, and every person on the train was vaccinated. The smallpox victim was sent to the county infirmary, where he is now under observation and treatment.

CONTRACT IS MADE FOR BIG OIL TANKER

The Moore Shipbuilding company has closed a contract to build a 10,000 ton tank steamer for the Vacuum Oil company of New York. The tanker will be similar to the regular standard type of fuel oil tank steamers the Moore Shipbuilding company has been constructing for the United States shipping board: 425 feet over all, 57 feet beam and will have a depth of 33 feet to the upper deck. She will carry 72,000 barrels of oil.

Every part of the tanker will be built by the Moore company, including a triple expansion reciprocating engine and Scotch marine boilers. The tanker is to be delivered in June, 1920, seven months after the contract was signed.

This makes the third contract awarded the Moore company by private corporations within the month, the other two being freighters for the Matson Navigation company of San Francisco. The freighters for the Matson company will cost in excess of $5,000,000 and are to ply between San Francisco and Honolulu, and are to be especially adapted to the Hawaiian trade. They will be the largest freighters ever built on the Pacific coast. When these freighters are completed the Moore Shipbuilding company is to build for the Matson Navigation company a fast passenger steamer, furnished with the most modern equipment from bridge to keelson, and to cost $4,500,000.

The new passenger vessel will accommodate 750 first-class passengers and will ply between San Francisco and Honolulu. No third-class passenger accommodations will be installed and only 4000 tons of freight will be carried.

SEARCHED BOTH EUROPE AND U. S. A.

Treated in Three Countries He Finally Regains Health by Taking Tanlac

"It was on the 19th day of December, 1918, I remember it as well as if it had been only yesterday, that I began taking Tanlac, and just forty days from that time I did the first work I had been able to do in five years," said William Campbell, a boilermaker employed by the Columbia Ship Building Company, living at 821 Thirteenth street, South, Portland, Oregon, in relating his remarkable experience recently.

"Five years ago," he continued, "I weighed two hundred and sixteen pounds, had always enjoyed the best of health, and hardly knew my strength. [illegible] ing for the Shell Oil Company on the British West Indies islands, where I was taken down with bronchial pneumonia and came in an 'ace' of dying. This spell left my system in very bad shape and in just a few months I dropped down to one hundred and thirty-nine pounds, having lost seventy-seven pounds. Well, from that time on until Tanlac straightened me out, I was almost a nervous and physical wreck. I was unable to do a day's work and not only spent all my time, but all my money, the savings, you might say, of a lifetime, trying to find relief. I was treated in England and France also in New York and several of the other large cities of the United States. I was the sickest man you ever saw, but no one seemed to understand my case, and I could find nothing to help me. I had a hacking cough all the time and my stomach was in such a bad fix that I would go for days at a time without eating a mouthful of anything. One time I actually went for eleven days without eating a bite. At that time my stomach would not even stand raw eggs, and if I ate bread or drank milk I couldn't retain it ten minutes.

"I would bloat up with sour gas and have cramping pains that would almost draw me double, and my stomach hurt me so I could hardly stand my clothes buttoned around me. I was habitually constipated and my head ached, without letting up, for two solid years. I was flat on my back more than I was up and my suffering was so great that I simply thought I would go distracted. My nerves were so shattered that at times I couldn't stand anyone near me and for weeks at a time I never got more than an hour's sleep a night. I had the worst kind of night sweats, which weakened me until I could hardly move, and I couldn't walk any distance without being completely exhausted. When we came to Portland last November I had to be helped off the train and I couldn't get on a street car, go to a doctor's office or any place without assistance. There wasn't any color in my face and I had not only given up hope of getting well, but felt that it was only a question of a short time when it would all be over. Well, I could just keep on talking, but to make my story as short as possible I just want to say that Tanlac has almost made me over into a new man. My troubles are all gone and I have gotten back all except ten pounds of my lost weight. I have not missed a day's work since I got my job at the shipbuilding plant on January 28, and I am feeling as strong and well as I ever did in my life." Tanlac is sold in San Francisco and Oakland by The Owl Drug Company Stores.—Advertisement.

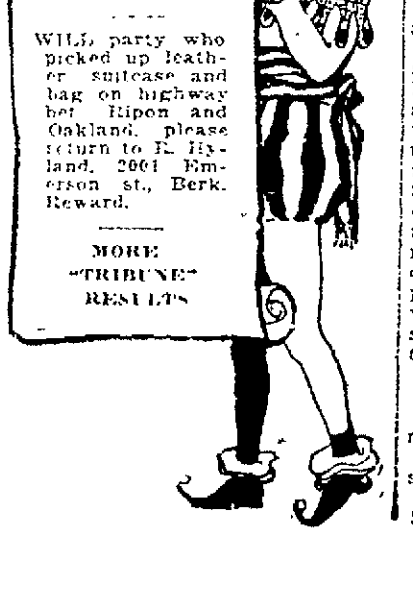

ASK YOUR NEIGHBOR

hardly a city, town or village in this country wherein some woman does not reside who has found health in that good, old-fashioned remedy, Lydia E. Pinkham's Vegetable Compound. Therefore, if you are suffering from some ailment, and hardly know what to do for it, and have tried other remedies without help, ask your neighbor if she has ever used Lydia E. Pinkham's Vegetable Compound. If she herself has never had need for it, undoubtedly she knows others who were just in your condition and who have been restored to health by its use.—Advertisement.

PERMIT FOR 'WAREHOUSE' VOTED DOWN

ALAMEDA, Nov. 26.—The city council ended last night a spirited campaign for and against the proposal to change the zoning ordinance to permit of the construction of a warehouse addition in the rear of 1330 Park street. Victory was achieved by Park avenue home owners who opposed the application of Arnold Postel, Park street merchant. The protests of the home owners were in line with the zoning ordinance provisions and the council acted accordingly. Judge L. R. Weinmann appeared on behalf of the Park avenue owners. The council—vote was four to one, Councilman E. J. Probst supporting Postel and Mayor Otis and Councilmen Greene, Majors, Al Latham and W. H. Noy supporting the Park avenue protestants. Postel wished to construct an addition to his warehouse on his lot running from Park street to Park avenue.

The council authorized the city manager and city attorney to take steps to open Morton street from Pacific avenue north to the Oakland harbor line. One pressing matter bearing on this street opening is the desire of the city to run another power cable under Oakland harbor from the Great Western Power plant to the Alameda shore for the supplying of growing power demands, especially in the western part of the city. City Manager Hewes said that he now had applications for 850 horsepower which would necessitate the installation of a second sub-station in the central part of town. North Morton street would furnish the ideal route from the landing place of the cable. The power company will run the cable under the harbor free of cost to the city. The cost will be $6000 or $7000.

A proposed fire escape ordinance, providing for fire escapes on different classes of buildings, where people congregate in second stories, was discussed, but will be considered further before being introduced.

An ordinance regulating signs on poles on the sidewalk, as well as signs in general, was passed. It will result in the removal of numerous old-style wooden signs in different parts of the city. Metal, glass or other fireproof signs, electric signs within stated limits, and awnings conforming to ordinance provisions will not be interfered with.

BURGLAR STEALS 'SMOKE' SUPPLY

Thanksgiving "smokes" were requisitioned in great quantities by a burglar who broke into the store of C. H. Hoskins, 802 Washington street, last night. The proprietor reported ... cigars and ... cigarettes stolen.

A thief entered through an open window at the home of Fred Hawkins, 556 Twentieth street. Loss, $2.50 from Hawkins' pants pockets.

ROBS CHILD'S BANK

Another open window, at the home of R. A. James 187 Athol avenue, was a means of entrance for a burglar, who got $5 from a child's bank and a wrist watch.

Mrs. C. A. Old, 814 Eighteenth street, confronted a burglar face to face this morning at 4 o'clock. She screamed. The burglar exited without any loot via the open window through which he had entered.

A. M. Ogh, 120? East Twelfth street, reported a burglar broke into his garage and stole a magneto from his machine.

RING IS STOLEN

A ruby ring inset with ten diamonds was stolen last night by a plunderer at the home of Mrs. E. Doziner 1227 Eighth street.

Miss M. A. Mullen, school teacher at Melrose school, reported that contents of her handbag had been stolen in the school dressing room yesterday. A twenty-dollar bill and some silver was taken. The police are investigating the theft today. The theft was committed yesterday afternoon while Miss Mullen was in her class.

Why Be Pale? Take Pepto-Mangan

Pepto-Mangan Increases and Enriches the Supply of Red Blood—Builds Strength

Restores Color and Appetite

Sold in Liquid and Tablet Form—Both Alike in Medicinal Qualities.

Why do pallid, thin, listless, easily-exhausted men and women continue to make themselves, and those around them unhappy by that condition, when they can so easily overcome it?

Unless a man or woman is suffering from some serious, deep-seated ailment, a prompt remedy that will overcome that continual tired, worn-out, sluggish feeling is within easy reach.

Pepto-Mangan contains just the elements needed to change thin, watery blood to good, red blood. Pepto-Mangan builds rich, red blood, enabling it to carry strength and vigor to every part of the body.

In a short time the great change is noticeable. The cheeks fill out and attain the wholesome, rosy complexion of health, the appetite returns, the eyes sparkle, the step quickens, the entire system is filled with renewed vigor.

Pepto-Mangan is offered in two forms, liquid and tablet. Both possess exactly the same medicinal qualities.

All druggists sell Pepto-Mangan. Look for the name "Gude's" on the package. If "Gude's" is not there it is not Pepto-Mangan.—Advertisement.

500 County Wards Face Bleak Christmas Unless Purse Strings Loosen

If there is no one to care, what is Christmas worth?

There are 500 men and women in an almost forgotten group out near San Leandro, who are dreading the day that will revive memories of the old home and the dear family circle. Why they must now call the county infirmary home is their own personal tragedy.

Back in the foothills of Livermore there are 150 men and women upon whom the white plague has laid its hand and who are striving to escape from its shadow. Alameda county has given them the chance to fight for their lives. But they, too, dread the Yuletide because, perhaps, there will be no one to care.

Six hundred and fifty hearts are troubled because holidays promise more hurt than healing.

"Put yourself in the other fellow's place," appeals the county hospital's Christmas committee. William H. Barry is chairman of the group of half-hundred who have appointed to themselves the role of Santa Claus and who are asking the public, the men and women like themselves, and those who are dreading the Yuletide, to supply the pack for the county infirmary and Arroyo Sanitarium with their greetings of "Peace and good will."

VALUE OF GIFTS.

This will be a happy Christmas for hundreds and thousands, for war is done and once again the family circle is made perfect. A little love gift is not too much to show that gladness. The little love gift in turn will be gladness unmeasured, for joy will flow into hearts weary and fainting that "somebody cares." No matter how discouraged one may be there is always some one thing above all others that one longs for. The county hospital Christmas committee has undertaken to fulfil that cherished dream to each of the 650 to whom it will play the good Kris Kringle. There will be Christmas trees and candy and fruit and flowers and the material things that express the spirit of the Christmasa tide.

Three thousand dollars will provide such a joyous day that not any may be sorrowful. For is not the Christ morn more meaningful to grown-ups than to children? Aye That is why a merry little band bearing in their hands the gifts that the people have made possible and accompanied with their carolers, will go out to the infirmary on Christmas morning and the beautiful keeping of tradition there will be again repeated at the Livermore sanitarium on Saturday, December 27.

The people are invited to take shares in the Christmas joy fund. It may be a small piece of silver or a big bit of gold, but whatever it is, it will bear a love message to those who are afraid, because the holidays promise only memories.

GARRISON CUSTODIAN.

E. F. Garrison, Hall of Records, is custodian of the Christmas treasury. Subscriptions in any amount may be made to him. Members of the committee are:

William H. Barry, chairman; Florence D. Cullen, secretary; E. F. Garrison, treasurer, Hall of Records, Oakland 847; Mrs. George Marshall, Mrs. John R. Tait, Mrs. Robert Glenn, Mrs. William H. Barry, Minora E. Kibbe, M. D., Mrs. E. W. Shaw, Miss Bertha Stem, Miss Lyda E. McGowan, Mr. and Mrs. M. J. A. McDonald, Arthur P. Karabach, Mr. and Mrs. Oliver E. Pelican Comes Back With Its Beak Full of Naughty Racy Things at U. C. Co-eds

BERKELEY, Nov. 26.—Following in the wake of the "Raspberry Press," which has created a storm of protest on the University of California campus, new flings are taken at women students in today's Thanksgiving number of the Pelican, comic monthly of the students.

Although its plumage has been slightly trimmed since its wild flight of last month, "Pelly" is still the same naughty bird of other days, chanting of wine, women and song to the accompaniment of a chorus of protest from the feminine inhabitants of the campus.

Lloyd S. Stock, member of the 1921 class, contributes a set of rules and regulations for co-eds which has particularly upset the equilibrium of the college maid. Here they are:

I. No more slurring remarks by co-eds while passing senior bench.

II. Abolition of late afternoon classes for women during these days of long sunset.

III. Sweaters for the physically fit only.

IV. Prohibit crossing of legs in the Greek at meetings or rallies. This provision is for the benefit of the artists and speakers as well as for the audience.

V. Prohibit co-eds from riding around in machines on and about the campus, without having men present in the machines.

VI. No more slapping faces.

VII. Prohibit killing with colored rouge or lip pomade.

VIII. No more hissing on shimmying of the fellow objects.

IX. Shorter and sweeter goodnights on the doorsteps, after the dances.

ANOTHER CRUEL FLING.

Another cruel fling comes in the following ads inserted under the heading "Too Late to Classify."

Reward of ten dollars to any person who can give information leading to the arrest of any co-ed who has the mentality necessary to understand this ad. Address, Pinfeather. Box 777, Pelican Office.

Wanted by batchelor: a co-ed who can dance without kicking, walking all over, and sitting down on me. Also a good cook (must be same person since I cannot afford to support two.) Address, Pinfeather P. S. She must be pretty with a curl, and like vers libere but not write it. Affectionately, P.

And in poetry are the feelings of the co-eds hurt thusly:

OH, BOY!

It was a very, very low-cut gown,
It seemed to be just slipping down,
I waited—one can never tell, you know—
For the whole darned thing to just let go.

But I was wrong (confound the luck).
In the nick of time, somewhere it stuck.
The maiden never changed expression,
And all she showed was her discretion.

Among the other contributions to the Pelican which are forming the subject of campus comment are these:

Fashion note: Legs will be worn with boots this fall.

STUCK UP!

Poet—His lips clung to hers.
Cynic—She'd been using the lipstick again, I s'pose.

Down with liquor! Drink her down!

If telephone operators could only roll their "i's" as well as they do their "r's" wouldn't this be some world?

Although there is an academic ruling against bottled spirits on the campus we have noticed an influx of this material lately.

And the plight of the poor college professor is told in verse as follows:

VERS LIBRE.

I am a college professor.
Thanksgiving time four years ago
I gave thanks for turkey.
Three years ago
I gave thanks for duck.
Two years ago
I gave thanks for chicken.
Last year
I gave thanks for squab,
And this year,
Having inquired extensively
For a sparrow which would fit my income.
I have been forced to
Give thanks for a telescope
With which I have learned
The combination
Of my neighbor's poultry safe.

ELSTON DELEGATE TO CONVENTION

Congressman J. Arthur Elston was advised today by Wilber Walker, secretary, of his election last night by the Merchants' Exchange to represent that body as a delegate to the fifteenth annual convention of the National Rivers and Harbors Congress in Washington, D. C. December 9.

E. F. Muller, chairman; A. Schlueter, J. C. Downey, W. P. Scott, C. H. J. Truman and I. H. Spire are a committee appointed to investigate the proposed city occupational license.

Responding to a letter received from W. J. Baccus, commissioner of public works, October 29, Wilber Walker was instructed to write the commissioner that a committee found the business men on Telegraph avenue opposed to changing the name to Roosevelt avenue. It was suggested to Baccus by the Exchange that the name of Tunnel road be changed to Roosevelt avenue.

Youth is Held for Thefts of Bicycles

Clayton Reynolds, age 18, is held in the Oakland city prison, while police detectives are investigating 50 recent thefts of bicycles in this city.

According to Inspectors George D. Powers and William Smith of the automobile detail, young Reynolds may be implicated in the wholesale thefts of wheels here. Reynolds is implicated in at least seven bicycle thefts according to the police. Reynolds was arrested yesterday in the downtown district by Patrolman George Underwood.

Use of electric light in hen coops has been shown to result in more eggs in the winter months.

SEVEN CLOTHING UNION OFFICIALS TO FACE CHARGES

BY INTERNATIONAL NEWS SERVICE. LEASED WIRE TO TRIBUNE

CHICAGO, Nov. 26.—Samuel Lavin, general manager of the Amalgamated Clothing Workers of the World, and six other officials of the organization, were indicted by the grand jury today on charges of extortion, conspiracy to extort through boycotting, malicious injury to business and the committing of acts injurious to public trade and justice.

According to previous announcement by Assistant State's Attorney Michels, clothing manufacturers of Chicago were forced to pay officials of the organization upwards of $500,000 "for the settlement of strikes previously called by the Amalgamated Clothing Workers of the World."

Others named in the indictment are:

Frank Rosenblum, Sam Rissman, Louis Grossman, Bernard Witner, Maurice Fisch and John Kroll.

Twenty-two clothing officials testified at the hearing of the grand jury.

DRASTIC RULES FOR HOUSEBOATS

ALAMEDA, Nov. 26.—Arks and houseboat owners must conform to the new Alameda ark ordinance or their property will be towed or hauled piecemeal to the corporation yard at the north end of Grand street and there held for redemption by the owner, or else sold by the city and the money banked for the benefit of the owner.

The new ark ordinance is a lengthy and rather drastic measure. It incorporates many of the provisions of the state health law and the state dwelling act, as well as local provisions. Size of rooms, size of windows, sewer connections, general plumbing equipment and other features of dwelling construction will be applied to the arks. The opinion was offered at the council meeting last night that probably a majority of the arks and houseboats now in use would fall short of requirements and would be done away with.

The foundation for the measure is laid in the declaration that an ark or houseboat mounted on piles, or resting on a foundation on land is a dwelling and comes within the state dwelling house law.

To the state law provisions is attached local provisions that the building and sanitary inspectors are to enforce the ordinance, posting notices in case of violation. The council then holds a hearing and reaches a decision. If the ark or houseboat is found wanting it is to be towed ot the corporation yard, if it will float, or razed and transported piecemeal over land if it cannot be hauled by water. After thirty days' grace expires, in case the owner does not redeem his property, the city sells it, and the money realized from the sale goes to the owner.

Seven are to be elected.

Judge Weds Pair He Formerly Divorced

Asking the judge who granted her a divorce to perform the ceremony that again should make her a bride, Mrs. Helen Marie Hawthorne appealed to Superior Judge T. W. Harris this morning to make her even happier than at ... three years ago when he set her free from galling matrimonial bonds.

Judge Harris united the couple in his chambers. The groom is Charles C. Rogers, employee of the Pacific Gas and Electric company. He gave his age as 31 to "Cupid" Stewart Gemmell in securing the marriage license, and Mrs Hawthorne mentioned hers as 31.

Mrs. Hawthorne charged that her former husband took her to a ranch in the north and distressed her by bringing the turkeys into the house to reside, besides subjecting her to numerous physical cruelties.

Officer Run Down by Thief Suspect

Police Inspector John Dufton met a thief suspect yesterday at Seventh and Franklin streets. The suspect mounted on a motorcycle, ran down Dufton and scattered clothing he was carrying over the street.

The man has three names, according to Inspectors George D. Powers and William Smith, who are investigating the ownership of the motorcycle. The machine bore a license plate with the name of D. S. Gratnot, 1718 Twenty-fifth street. Dufton arrested the man for reckless driving.

Syndicalist Cases Set for Dec. 17

J. C. Taylor, J. H. Dolson and John E. Snyder, who is editor of the late radical organ, the World, appeared in the court of Police Judge Samuels this morning on charges of syndicalism. Their examinations will be held December 17.

ADDICTS MAKE RUSH FOR 'GUN' AND MORPHINE

ALAMEDA, Nov. 26.—Three narcotic addicts under county jail sentences from 60 to 90 days on vagrancy charges, gave an exhibition of narcotic taking at police headquarters this morning just before they were taken to the county jail. The three were arrested within three days as narcotic addicts. When offered a farewell "shot of hop" the three made a simultaneous dive for the morphine, and the hypodermic gun and took their shots with avidity. Handcuffed to one of the addicts was Boze Krelitich, an alien, convicted of petty larceny, sentenced to six months. Krelitich is unusually strong. When the chief told the officers to let all the handcuffed bunch have a shot, Krelitich yelled "not me," and rushed across the room, dragging his handcuff mate as though the latter was a wisp of paper.

The narcotic addicts kpet the city hall wide awake nights with their yells and cries when the craving for drugs seized them with overpowering desire. They were fed more or less narcotics while in the city prison to keep them half ... and prevent them from going off their balance entirely.

CHINESE HONOR PROF. WOODWORTH

BERKELEY, Nov. 26.—Honoring Professor C. W. Woodworth, of the entomology department of the University of California, a scholarship has been established at the University of Nanking, China, by E. E. Luther, graduate of the State university with the class of 1907.

Luther, whose home is in Watsonville, is a former pupil of Professor Woodworth. The scholarship is open to any deserving Chinese student and is ample to carry him through a full course in the university.

Professor Woodworth instituted the summer session at the Chinese university and conducted classes in entomology for one semester. He was held in high regard by the students and the Chinese name of Wu Wai Fu was given him as coming nearest to the pronunciation of his own name.

WOMAN FIGHTS FOR N. Y. ESTATE

A battle to obtain $207,000 claimed by herself and two brothers as their share in the estate of Charles E. Fleming, New York business man, was opened in the New York courts today by Mrs. Leilah Osborne, of 304 Ninth street, Oakland.

Mrs. Osborne charges that other heirs obtained the money that should have gone to herself, John R. Fleming of Oakland and William E. Fleming of Sebastopol, California.

The provisions of the Fleming will were tangled and the court action seeks to unravel the threads. An estate of $800,000 was left to Charles E. Fleming Jr., with provisions that it should be divided among his nephews and nieces if his son died without direct heirs. The younger Fleming died without heirs but neither she nor her brothers received any share of the estate, Mrs Osborne alleges.

Associated Press despatches from New York today told of the filing of the suit by Mrs. Osborne's attorneys. She said that she had not yet received advice that action had been started.

Mrs Osborne is the daughter of Captain John R. Fleming, old-time sea captain of the Pacific coast. She has lived in Oakland for many years.

BILL CARLISLE SAYS HE IS IN SAN FRANCISCO

SAN FRANCISCO, Nov. 26.—To prove that he is in town, William Carlisle, Wyoming bandit, today wrote Chief of Police White and enclosed his photograph. The letter reads:

"Dear Chief. The papers are the bull. I'm here don't worry I'll not pull anything in your town. I'll lay low and rustle a few shorthorns. Regards to the bulls. Yours truly.
"BILL CARLISLE."

White believes the letter is bonafide and that Carlisle is here.

Narcotic Addicts Held on Suspicion

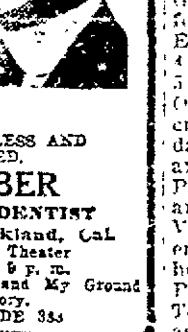

The police are investigating the theory that the trio of narcotic addicts, Bryon Price, G. W. Lister and Gerald Thomas arrested yesterday at the Panama Hotel as the result of a falling out and general fight amongst themselves, during which Price was hit over the head with a gas pipe by Lister are members of a drug ring dealing in a Mexican product. The men claim to be shipyard workers, but the police doubt their calling and will hold them for a rigid investigation.

Price was taken to the county hospital, seriously injured and the other two are in jail. The three men lived together at the hotel where the fight occurred.

The Sultan of Turkey, prior to the war, had more than twenty palaces in and about Constantinople.

ENGINEER, BURIED ALIVE UNDER CAB, PLEADS FOR AID

BY INTERNATIONAL NEWS SERVICE. LEASED WIRE TO TRIBUNE

FORT MADISON, Wis., Nov. 26.—Acetylene torches are eating their way through the steel sides of the engine of California-bound Santa Fe passenger train No. 1, in an effort to rescue Engineer Joe Spring of Chicago, who was pinned beneath the wreckage of his cab when the train collided head-on with a freight train at the east end of the Mississippi river bridge here early today.

Fireman Joe Griswold of Fort Madison was scalded to death and it is feared that Spring will die before he is rescued.

More than a score of passengers received injuries.

Spring's body, partly submerged in water, is caught fast. For two hours after the wreck occurred rescuers could hear his voice pleading with them to come to his aid. These appeals have ceased, however, and it is feared he has perished.

Arthur Hastings, a fireman; A. H. Zeller, baggage man, and C. W. Kelly, engineer of the freight train, are seriously hurt. Nearly every window in the coaches and sleepers was broken and passengers were cut by flying glass. Others were injured by being thrown from their berths.

The trains crashed together as a result, it is believed, of the failure of the signalman at Fort Madison to hold the passenger train at that station until the arrival of the freight train. It is reported the operator went to sleep and failed to deliver orders to the passenger train.

Both engines and two baggage cars were partly submerged in the river; the track is torn up for 200 yards and freight cars and passenger coaches ares trewn along the right-of-way.

POULTRY EXHIBIT VISITED BY MANY

Many persons are finding the fifteenth annual combined poultry, pigeon and rabbit show of the Alameda County Poultry Association a source of much interest. On the opening day, yesterday, 1060 persons visited the big exhibition in the Auditorium.

This is one of the largest crowds on record for the opening day and indications are that throughout the week there will be an exceptionally large stream of people passing through the aisles between the exhibits.

MEAT PRICES SHOW LOW IN PAPER OF 1880

ALAMEDA, Nov. 26.—A copy of the defunct Alameda Encinal of January 31, 1880, was brought to Alameda today by Deputy County Assessor James Bargones, who secured the paper from Deputy County Assessor Charles Hart of Oakland, who was an apprentice on the Encinal in 1880. The paper contains many interesting reminders of forty years ago. One of the ads is that of Councilman W. H. Noy, then, as now, in the butcher business at Bay station. The Noy ad contains a price list of meats as follows:

Roast beef, 12 1-2 cents; prime rib roast, 18 cents; porterhouse steak, 20 cents; tenderloin steak, 15 cents; rib and round steak, 8 to 10 cents; corned beef, 8 to 10 cents; leg mutton, 10 cents; rib and loin chops, 10 cents; forequarter of mutton, 5 to 6 cents; sugar-cured hams and bacon, 14 cents; smoked tongue, ... cents; lard, ... cents.

BOLTON PREDICTS 'FEUD' WILL END

BERKELEY, Nov. 26.—"Stanford is to California what Mexico is to the United States," says Professor H. E. Bolton of the University of California, and for this reason he advises the students of the Berkeley institution not to regard the present break in relations too seriously; for, he says, Stanford needs California, and California needs Stanford, just as in the case of the two nations.

In the eyes of an historian, he states, such breaks have no particular weight, for they are merely passing, and are forgotten in a few days, or at most, in a few years.

Following the analogy of the Mexican situation, Bolton believes that in the case of Stanford, as Mexico, Stanford needs California more than California needs Stanford; and this gives further cause for believing that a settlement will soon be made, for all of the action in the matter of causing the break has been on the Stanford side.

Student opinion on the campus, as a whole, is disinclinde to take the break seriously, and they believe that Dr. L. Wilbur of Stanford has placed too strenuous a construction upon the circumstances. California students and faculty are satisfied with the Cardinal apology and have no desire for the cessation of relations.

LION'S CLUB GIVES SPECIAL PROGRAM

With their wives, sisters and sweethearts as guests, the members of Oakland Den, International Association of Lions Club, presented a long program at a luncheon in the Hotel Oakland today. The occasion was termed "Ladies' Day" and many Oakland and Berkeley women attended the luncheon.

The Rev. William Keeney Towner gave a talk on "Thanksgiving," being the principal speaker for the occasions. Other numbers on the program were:

"Star-Spangled Banner," Lions and guests; "Roar, You Lions, Roar," Roy D. McCarthy; Egyptian dance, Marie Streibl, age 8 years; spring dance, Iris Krentzfeldt, 7; song and dance, Carol Hamerton, 11, Evelyn Prevett, 9, song, "Mattinata" (Tosti), Miss Margaret M. Kollmer, accompanied by Mrs Ethel Martin; song, Roy D. McCarthy; cane dance, Florence Vassen, 8; skirt dance, Janice Street, 5, ballet dance, Dorothy Henslupp, 10, song, "Dawn," Miss Margaret Kollmer; song, "Nettingham Hut," Roy D. McCarthy; "America," Lions and guests.

RAIN AND WINDS PREDICTED FOR THANKSGIVING

A rainy, and at some points a somewhat windy Thanksgiving was prognosticated for California by the United States weather bureau today while the northwest was to enjoy fair weather.

Light to heavy rainfall was promised for the entire state tonight and tomorrow morning, breaking a dry spell which has lasted since mid-September. Storm signals have been placed from San Francisco north to the Oregon line, and small craft have been warned

U. C. Faulty Aids Former Service Men

BERKELEY, Nov. 26.—Fearing that several years of absence from academic work will place returned service men of the University of California at a disadvantage during the final examinations ... plans have been made by the university professors to assist the returned soldiers and other students who will return to the three-hour type of examinations after their abolishment for a year.

Besides this attempt to ease the task of students, many of the professors have devoted time from their lectures to give advice to the students concerning the examinations. They have advised 'cool-headedness, slow thinking, analysis of each question, and general preparation rather than 'hectic or hit-and-miss' preparation.'

Some students, the professors say, do best under the excitement of an examination period, other fail under the strain although their daily work may be good.

"Gob" Tells Police He Deserted Twice

Charles Edward Samuel, 17-year-old "gob," has given himself up to the police, after deserting from the navy the second time in two weeks. He is held for Mare Island authorities.

After being returned to Mare Island from Salt Lake, where he was arrested, young Samuel escaped under the eyes of a guard at Mare Island. Last night he appeared at the city hall, 48 hours overdue.

"I'm through with this rebellion stuff; I want to take my medicine." Samuel advised the desk sergeant, who booked him.

DAILY MAGAZINE PAGE of the OAKLAND TRIBUNE

Winifred Black Writes about FOLKS AND THINGS

Winifred Black.

A San Francisco woman was granted a divorce the other day. While the suit was being tried, this woman told the judge that her husband told her that nine out of every ten men in San Francisco were untrue to their wives and that he was merely doing as the rest of the men did when he made love to other women and deceived her.

"I believe what my husband told me," said the woman who was suing for divorce. "And if I have my way I will never speak to a man as long as I live, except when I positively have to. I don't want anything to do with men at all—they are cruel, selfish, faithless, low-minded creatures, and if I had a daughter I would never let her marry at all."

What a foolish woman!

Poor thing; I don't blame her for saying anything if she really believed what her husband told her! No one is to be too deeply censured for anything they say under the torture of the rack, and there is no torment on earth so terrible as the torment of a proud woman who thinks that her husband has deceived her.

Her love is stabbed to the heart—her trust is destroyed—the whole foundations of the world are shaken beneath her feet, because a woman's world is built from the very beginning on her faith and trust in the fidelity of the man she loves.

But worse than all this, her pride is broken—and that is the real tragedy.

IT'S PRIDE THAT HURTS.

Some men may have died of love betrayed—some women may have died of love deceived; but the numbers of those who have died because their pride was wounded beyond recovery are legion upon legion.

When a man's pride is broken, when he is shamed before his fellowmen, it takes him years to pull himself together again and face the world—a man among men.

The boy who is whipped by another boy at school may not be very badly hurt as far as physical injuries go, but, oh, the biting agony to his pride!

The man who fails in business—really fails when he has tried hard to succeed—is never quite the same man again.

He may struggle up to the place he left when he failed, he may even attain great success afterwards, but he will never again have the same confidence in himself, never again go whistling down the world with the light heart of a conquering hero.

He has had his medicine—it was a bitter dose—and never, so long as he lives, will he forget it; never, never!

So it is with a woman when the man who has promised to love, cherish and protect her lies to her and makes her a laughing stock to all who know the truth.

WOMEN CAN'T FORGIVE.

This is what a really proud woman can never really forgive.

She may try; she may realize that it is to her interest to forget the wound to her pride; she may pretend. But down deep in her heart, as long as she lives, there is a rankling wound that will never really heal; the wound not alone to her love—that will sometimes heal—but to her pride, and that will never entirely heal.

Love forgives and forgets; love pities and excuses; love tries to see the best in the one beloved, even if it is necessary to put on a pair of blinders or wear a pair of magic spectacles to do it. And there, to my mind, love is wise—for, after all, why see too clearly when nearness of vision brings bitter pain!

But pride—ah, pride is argus eyed! It sees and hears and feels, and tastes and knows, and suffers and suffers and suffers.

I don't think the San Francisco woman was right in believing what her husband said. The majority of men are not unfaithful to their wives; they are faithful and true, in the main. But if she did believe it, I don't blame her for never wanting to speak to a man again.

Do you?

TOMORROW'S FEAST - By Juanita Hamel

SOMETHING in itself for which to be thankful is Thanksgiving Day in this country of ours—a land of peace and plenty where, though the same amount of money may not buy as big a turkey as it did last year, there are still countless things for which two whose *hearts* beat as one may be thankful. Doubly thankful are they for each other!

THE BRUTE

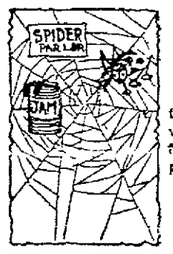

She: Before we were married you called me an angel.

He: I know I did, but it was a case of mistaken identity.

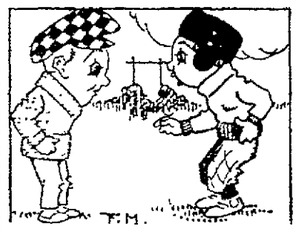

HORRIBLE THOUGHT

Christmas shopping's almost here,
And I view the time with fear;
They will charge, as prices rise,
Three bucks for those four-bit ties.

A GREAT SCHEME

Spider—I bet that pot of jam will bring those flies into my parlor.

A CALL-DOWN

Obnoxious Football Player: Look here, coach, there are two fellows not fit to be on our team at all.

Coach (calmly): That so? Who's the other.

IN LUCK

REVELATIONS OF A WIFE by ADELE GARRISON

(Continued from yesterday.)

"Pardon, madame, but the taxi isn't up there. If you will, please, come across to the Thirty-first street entrance."

"Not there!" I echoed in astonishment. "Why not?"

The expression of his eyes subtly conveyed to me that he thought me a very stupid and obstinate woman indeed. But his manner was most respectful.

"GO AHEAD, THEN."

"Mrs. Underwood was most insistent, madame, that I should not take the usual entrance. She herself suggested the Thirty-first street entrance, and—I did not presume to question her."

I distinctly resented his last words. The manner in which he spoke them was irreproachable, but I recognized a note running underneath them, a note which if completed would have sounded this message:

"And how dare you question her, either?"

And yet I realized that I had no right to resent the implied reproach. This man was also a service operative, also under Lillian's direction. Lillian had sent him for me. It was not mine to question. It was mine only to obey.

But I could not keep the frigidity from my manner as I turned away from the stairway.

"Go ahead, then," I said coldly. "I am not familiar with the entrances here."

That he understood the rebuff I was certain by the manner in which he straightened his already erect figure and marched down the long corridor.

"WAIT A MOMENT!"

I followed him through many doors and turnings, which seemed interminable even for the mazes of the Pennsylvania station, in which I invariably lose my way unless I am traveling the straight path from the Long Island station to the main one. Once I was almost certain that we had gone through the same door twice, but I put aside the impression as absurd, for immediately afterward we came out into the corridor leading to the Thirty-first street entrance.

I do not know when or how the first suspicion came to me that all was not right. Perhaps the appearance of the deserted corridor, the remembrance that at this time of night the Thirty-first street entrance was a lonely, empty place indeed, came with undue force to me. But as I followed in the chauffeur's wake, one of the little premonitions of danger near which I have always found it wise to heed, came to me.

My footsteps lagged as I tried to analyze the feeling that was fast taking possession of me. And at my slackening pace the chauffeur ahead turned his head swiftly and cast a glance at me in which I read suspicion.

He had been counting my footsteps, keeping pace with them! What it all meant I did not know, but I resolved not to go out into the loneliness of Thirty-first street without other escort than this man.

I racked my brain for some excuse to get back to the shelter of the lighted waiting room. But only the flimsiest falsehood came to my mind.

"Wait a moment!" I called peremptorily to the chauffeur who was walking in front of me.

The chauffeur who claimed to have been sent by Lillian for me turned abruptly as he heard me hail him. To my terror he began to advance swiftly toward me.

"I have lost a valuable ring," I said swiftly. "I must go back and look for it. Wait here for me. I will hurry."

I fairly tumbled the words out in my haste to be gone. For the look on his face, now not very far from me, set me wild with vague terror.

"You must not go back," he said between his teeth. "Mrs. Underwood—"

But not even the potency of Lillian's name stayed my footsteps. Like a hunted thing of the crest, I turned, and dropping my traveling bag to the floor in order that nothing should impede my footsteps I ran as I never had run in my life before, ran as if for my life.

And if I had needed anything to lend wings to my feet the sounds behind me were sufficient. A quickly smothered oath, a single shrill whistle, evidently a signal, and then the sound of hurrying masculine footsteps behind, first a single pair of feet and then two, turned me ill with terror.

Garis BEDTIME STORY

UNCLE WIGGILY AND PEETIE'S PEANUTS.

Copyright, 1919, by McClure Newspaper Syndicate.

(By Howard R. Garis.)

Once upon a time, when Uncle Wiggily Longears, the bunny rabbit gentleman, was hopping through the woods, he heard a rustling in the bushes, and, hiding behind a sassafras tree, he said:

"I guess I'd better peek out and see who this is before I go any farther. It might be the bad Pipsisewah or the worse Skeezicks."

And then, all of a sudden, Uncle Wiggily heard a voice say:

"Whacheetin?"

"Dear me. What a funny talk!" thought the bunny rabbit gentleman to himself. What an odd word—'whacheetin.' I wonder what it means? The Pipsisewah nor the Skeezicks never talked like that!"

Then he heard another voice answer and say:

"I'm eatin' peanuts. Want some, Jackie?"

"Of course, I do, Peetie," was the answer, and then, after hearing those names, Uncle Wiggily wasn't afraid any more. Peeking around the corner of the mulberry bush the bunny rabbit saw Jackie and Pettie Bow Wow, the two little puppy dog boys. And the funny word Jackie had said was really four words. "Whacheetin?" meant "What are you eating?" And Peetie had told—it was peanuts he was eating.

Still keeping hidden behind the laurel bush, Uncle Wiggily listened to the crackling of the peanut shells and the chewing of the two puppy dog boys, who didn't know the rabbit-gentleman was anywhere near them.

"There, all the peanuts are gone!" said Peetie, after a while. "Nothing but the shells left!"

"I know how we can have a lot of fun with hem," barked Jackie.

"How?" asked Peetie, as he polished his new collar by rubbing the brass name plate on some dried moss. He and Jackie each had new collars, and Jackie's was a bit old-looking, from having been used to pull Ding Dong Bell Pussy out of the well, as I told you in the story last night. "How can we have fun with empty peanut shells?" asked Peetie of Jackie.

"We can take the two halves of the shells, fasten them together with some sticky gum from the pine tree, and the peanuts will look as if they had never been opened," said Jackie with a low, laughing growl. "We can stick a lot of empty peanut shells together, put them in a bag, and, if we meet anybody, we can make believe give them a bag of peanuts."

"Oh, yes, that'll be lots of fun!" said Peetie.

So he and Jackie took the empty peanut shells, put them together again with sticky gum from the pine tree, and there they had a bag full of what seemed to be good peanuts, but which were, really, only empty shells.

"I guess it's time for me to come out now," said Uncle Wiggily, who, hidden behind the evergreen tree, had heard everything that went on. So he made a sort of coughing noise, and, with a twinkle of his pink nose he hopped along, making believe he had just gotten there. Out of one of his eyes he could see Peetie looking at Jackie.

"Hello, Uncle Wiggily!" called Jackie, and he held up the bag of empty peanut shells.

"Hello!" answered the bunny rabbit gentleman. "I see you have been eating peanuts," he went on, for some of the broken shells, that had not been pasted together, were still scattered about.

"Yes," answered Peetie, winking at Jackie. "We had some peanuts. Here is a bag for you."

He was careful not to say "bag of peanuts." He just said "bag." Of course Jackie and Peetie would not have played a mean trick on Uncle Wiggily. This was going to be only a funny one.

The rabbit gentleman took the bag, innocent like, and making believe he didn't know what was in it, and then he sat down on a flat stump and said:

"Jackie and Peetie, Nurse Jane sent me to the store after a loaf of bread. But I forgot it. Now I'll sit here until you run back and get it for me. Bring it to me here. Meanwhile I'll be eating some peanuts!"

"Yes, we'll get the bread for you!" barked Jackie. And he whispered to his brother: "Oh, won't he be s'prised when he finds only empty shells! Oh! Oh!"

Off through the woods to the bread store ran Jackie and Peetie, while Uncle Wiggily sat on the flat stump. The doggie boys hurried back, for they wanted to see how surprised Mr. Longears would be when he opened the empty peanut shells.

"There he sits!" said Peetie to Jackie, as they came within sight of the rabbit gentleman, who was sitting on the stump with the bag in his paws.

"What! Back so soon, boys?" asked Uncle Wiggily. "I guess I must have fallen asleep. I haven't yet eaten any of the peanuts you so kindly gave me. I'll start now. Are you sure you don't want any?"

"Oh, we had some!" barked Jackie.

Uncle Wiggily opened the bag and took a peanut in his paw. He cracked it and out came a nice little piece of peppermint candy.

"Dear me!" exclaimed the bunny rabbit gentleman as he popped the candy into his mouth. "These are very funny peanuts, but I'll say they're nice!" He opened another nut and this time out rolled a bit of sassafras candy. Uncle Wiggily ate that, and opened a third peanut. Out came a gum drop.

"Why, these are the best peanuts I ever ate, boys!" laughed the bunny. "Are you sure you don't want some?"

"Are these—are those—er—did we give you those peanuts?" stammered Peetie.

"Well, you gave me a bag of empty shells," said the bunny, twinkling his pink nose sly like. "Some one had taken out all the peanuts. But I happened to have some candy in my pocket, so I filled the empty shells with candy, gum drops, and the like of that. Will you have some?"

"I—I guess we will!" barked Jackie. "This joke is on us, Peetie!"

"Yes," agreed the other little puppy dog, "it is!"

And so it was; wasn't it?

For every cubic foot of an iceberg that is above the surface of the water there are eight cubic feet below.

AUNT ELSIE'S KIDDIE KORNER

Who knows ALL ABOUT geography? Because here is the chance for that kiddie to show what she or he knows—or DOESN'T KNOW! The names of three western states are hidden in our puzzle today. No, the dog isn't sitting on them nor has the long-necked animal swallowed them. They're hidden in the initial letters of the names of this foolish lot of things. And you'd better find them QUICKLY if you don't want the hairy gentleman in the middle of the picture to think he's a better scholar than you are. Guess the names correctly, write them down, then sort out the initial letters into the names of the states.

And THEN giggle over these letters:

IDA MAY KITCHEN
Concord, Calif.

Once upon a time there lived a Princess. The princess was proud and haughty. She would always find fault with any prince that came a'wooing. One day a prince asked the king, her father, if he might marry her. The king said no. Now this prince was a magician. He stole the princess' pet turkey and fed it nothing but mince pie. Soon the turkey turned into a mince pie! It had legs like a turkey and at once ran home to the princess. The princess was horrified. She went to the prince and begged him to change [illegible] back to a turkey. He said he would not do it until she promised to marry him. She said she would—and they lived happily ever afterward.

IDA MAY KITCHEN.

"SNOOKY OOKUMS."

(This story is written by one of our best known chums but she wants to be a mystery girl this time. Can't you just hear her giggling?)

Thanksgiving day had come. Mr. and Mrs. Brown and the children, Katie, Mabel and Jerry, sat around the breakfast table thinking of what they could have for dinner when suddenly Mabel jumped up.

Mabel—"Oh, mother, yesterday when I was out at grandpa's farm he said we could have a big fat turkey for dinner today."

Jerry—"But how are you going to get it home?"

Mrs. Brown—"Father will take you out to get the turkey, won't you father?"

Mr. Brown—"I surely will. Run upstairs, kiddies, and get ready while I get the truck out."

All the Children—"Goody, Goody, Goody!"

So off they went in a giggly crowd to grandpa's while mother ran over to Mrs. Jones' and invited them to dinner. Soon the children were back with the turkey.

Katie—"Mother, on the way home I thought of something—let's have a pumpkin pie."

Mother—"We can't dear, because there are no pumpkins but we'll have a mince."

Soon they were all gathered for the feast and while they were talking and laughing the turkey and the mince pie were out in the oven making faces at each other.

Turkey—"My stuffings are better than yours!"

Mince Pie—"No, they're not. Mine are the best! They are nice and juicy and if you don't stop being sassy I'll throw some juice at you!"

Just then the turkey began to answer the pie and in rage the pie went s-s-s-s-s-s-s and all over the turkey went the juice! Then p-p-p-p-ff went the turkey and a fat oyster hit the pie on the nose! With that the pie grew so angry that he turned black in the face and began to burn to a crisp and if Mrs. Brown hadn't come in just then there would have been no feast at all.

Once there was a lady who had an AWFUL funny cook. The day before Thanksgiving the lady told her that she was going to have a lot of company and she wanted a mince pie and roasted turkey for dinner. So Thanksgiving morning she caught the turkey—but instead of killing it at once she brought him into the kitchen and put him down by the stove while she started to make the mince pie. At once the turkey flew around the kitchen, right into the cook's dough. She had her hands full of dough and she had to chase all over the kitchen after the turkey. After she caught it she tied its legs and put it in the corner. Then she finished her pie, baked it and set it out to cool. Then she went out to get the axe. While she was gone the turkey ate the pie and flew away. When she came back both turkey and pie were gone. The cook was very angry for she had to make another pie and catch another turkey.

Old Buster the Turkey Cock strutted proudly by as Doris and Eleanor were cutting holly and mistleto at the edge of the woods.

"Mother says he is ideally plump," exclaimed Eleanor and Buster plumed himself a little more and strutted a trifle more jauntily. Praise was as dear to his heart as corn to his palate. That evening, secure in his own warm coop, he had a large bowl of hot mush which increased his belief that he was the farmyard pet.

Now Buster was a bit greedy in bolting his supper so his dreams were many and uncomfortable. Toward morning he was startled by hearing a voice say:

"We are both to be cooked tomorrow and eaten on Thanksgiving day."

Looking up he saw a rich flaky mince pie all ready for the oven.

"What's that!" cried Buster. "I am the pet of this family. Would they feed me better than my mates if they planned to kill me? You are not even 'half baked' mince pie!"

"Nevertheless that is the reason they fed you so well—that they may have you for Thanksgiving."

A cold sweat broke over Buster and he awoke shivering. Of course it had only been a dream, but he could see how silly his vanity had been and he began to think. So when the cows went out to pasture in the morning Buster went too and kept right on going through into the woods where he joined a flock of wild turkeys and was never heard of again. And I believe it is safe to say he was never foolishly proud again.

Once a mince pie was cooling in the window when a turkey passing by saw it and wanted to eat it. So he planned a way to get the pie down.

"Come and go for a walk in the woods with me," said he.

At first the pie refused but finally it consented. When they had come into the woods the turkey said: "Now I shall have a feast!"

The mince pie was so frightened that he rolled away with the turkey chasing after him. Soon they saw a hen—"Run catch it!" cried the turkey, away went the hen too. Then they came to a fox. Catch it!" they cried, so the turkey and the hen and the fox all ran after a pie but in vain.

At last they came to a little hut with an open door and the pie rolled in. Instantly a hand grabbed him and put him on the table and other hands grabbed the turkey. The hut belonged to a poor woman with five hungry children. O! how glad they were to see these wonderful goodies.

"Well, you can't eat me now," said the pie, because you're going to be eaten your own self." And so the chase ended.

Once upon a time, long ago, an Indian brave went out to hunt. Suddenly he heard a loud noise. It was a white man out hunting but the Indian did not know that and he was scared almost out of his wits. Soon the white man came in view.

"Where did you come from?" said the Indian.

"From the Hudson Bay Company," said the white man. "Would you like to come to my Thanksgiving feast?"

"Yes," said the Indian.

When they came to the fort the dinner was spread under a big tree. The Indian grinned when he saw the turkey and pie. He ate and ate—and after he was through he went home without even saying thank you.

Once there was a turkey named HOB GOBLIN who always fought with all the chickens in the barnyard and took the food away from the ducks—so it was much disliked. A dear little boy lived on the farm. One day he came out to feed the poultry with a fine new red suit on. Hon. Goblin was strutting around the yard and when he saw that red suit he got mad and knocked him down and took away all the feed.

Now Thanksgiving was near and every day Hon. Goblin was given all he could eat. My Turkey thought he was IT. On Thanksgiving morning the little boy's father came out with an axe and off came the cross turkey's head. At dinner the little boy said—"That turkey was no good alive but he surely is good now."

An old father turkey had six motherless baby turkeys to take care of named Gladys, Mabel, Maxine, Dorothy, Clara and Tom. He wanted to give his children a feast so he phoned to their aunt Emily and she came over and they went out together. Soon they came to a house where the cook had just put a salad, some mince pies, and cranberry sauce on a bench. Mr. Turkey and Aunt Emily Gobbles took them and went home. The father set the table. They had a stump of a tree for a table, and dishes made of bark. It was a wonderful feast.

3-minute Journeys

In the center of China's teeming millions, where "hands" may be bought for less than a mere fraction of what a "hand" can be hired in this land, even the trolley magnates sometimes find it cheaper to employ men than horses or mules as motive power for their "trolley cars."

Our drawing is from a photograph taken in Shanghai. It shows how some of the tiny cars are moved *along the little tracks that run* through crowded thoroughfares. Speed in some places is less important than "magnificence," and many a stately gentleman considers that his dignity is best served by riding even though it is at a rate slower than he could walk.

In this country or in Europe and in many another land, men pushing street cars would cause more amazement than such a sign could occasion in China, yet I found myself illogically championing Japan or India. For in China, particularly, men carry other men on their backs up steep hills, drag them along in jinrikishas or push them in clumsy wheelbarrows. Therefore, it seems but a logical extension of Chinese custom for men to push other men in street cars.

The fare is exceedingly small. True, the accommodations are not luxurious, nor is the riding easy, but to be able to ride for a comparatively long distance for the fraction of a cent in our money certainly seems the height of penurious luxury.

Each car bears a symbol—cryptic to foreigners and many of the uninitiated in China—telling the class of the car and the charge for the

A SHANGHAI "TROLLEY."

ride. Down the thronged thoroughfares they come, sometimes with many passengers, at others with none at all. It is when a car is crowded with dignity and sartorial splendor that it seems the strangest.

Solemnly, with scarcely the blinking of an eyelash, the riders dash along at the mad speed a perspiring coolie can work the car up to—and when once he has contrived to start it, that speed sometimes really is quite respectable. This is especially true when he has the aid of a little hill. Sometimes the speed grows so great that even the most complacently placid of passengers grips his seat and longs for the safe, old-fashioned wheelbarrow.

Matches are turned out in huge quantities by machinery. The machines now in use cut up great planks of wood into match splinters at lightning speed. The ends of the splints are then passed through a paraffin base and receive their heads.

ELSIE'S JOY KIDDIE CLUB

Nasty Colds

Get instant relief with "Pape's Cold Compound"

Don't stay stuffed-up! Quit blowing and snuffling! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken usually breaks up a cold and ends all grippe misery.

The very first dose opens your clogged-up nostrils and the air passages of your head; stops nose running; relieves the headache, dullness, feverishness, sneezing, soreness, stiffness.

"Pape's Cold Compound" is the quickest, surest relief known and costs only a few cents at drug stores. It acts without assistance. Tastes nice. Contains no quinine. Insist on Pape's!—Advertisement.

HOW TO GET RID OF YOUR COLD

The quick way is to use Dr. King's New Discovery

DON'T put off until tonight what you can do today. Step into your druggist's and buy a bottle of Dr. King's New Discovery. Start taking it at once. By the time you reach home you'll be on the way to recovery.

This standard family friend has been breaking colds, coughs, grippe attacks, and croup for more than fifty years. It's used wherever sure-fire relief is appreciated. Children and grown-ups alike can use it—there is no disagreeable after-effect. Your druggist has it. 60c. and $1.20 bottles.

BOWELS BEGGING FOR HELP

Torpid liver pleading for assistance? How careless to neglect these things when Dr. King's New Life Pills so promptly, mildly, yet effectively come to their relief!

Leaving the system uncleaned, clogged bowels unmoved, results in health-destructive after-effects. Let stimulating, tonic-in-action Dr. King's New Life Pills bring you the happiness of regular, normal bowel and liver functioning. Keep feeling fit, doing the work of a man or woman who finds relish in it. All druggists—25c.—Advertisement.

Try Making Your Own Cough Remedy

You can save about $2, and have a better remedy than the ready-made kind. Easily done.

If you combined the curative properties of every known "ready-made" cough remedy, you probably could not get as much real curative power as there is in this simple home-made cough syrup, which is easily prepared in a few minutes.

Get from any druggist 2½ ounces of Pinex, pour it into a pint bottle and fill the bottle with syrup, using either plain granulated sugar syrup, clarified molasses, honey, or corn syrup, as desired. The result is a full pint of really better cough syrup than you could buy ready-made for three times the money. Tastes pleasant and never spoils.

This Pinex and Syrup preparation gets right at the cause of a cough and gives almost immediate relief. It loosens the phlegm, stops the nasty throat tickle and heals the sore, irritated membranes so gently and easily that it is really astonishing.

A day's use will usually overcome the ordinary cough and for bronchitis, croup, hoarseness and bronchial asthma, there is nothing better.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, and has been used for generations to break up severe coughs.

To avoid disappointment ask your druggist for "2½ ounces of Pinex" with full directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets Are a Harmless Substitute

Dr. Edwards' Olive Tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. For 17 years he used these tablets (a vegetable compound mixed with olive oil) in his private practice with great success.

They do all the good that calomel does but have no bad after effects. No pains, no griping, no injury to the gums or danger from acid foods—yet they stimulate the liver and bowels. Take Dr. Edwards' Olive Tablets when you feel "logy" and "heavy." Note how they clear clouded brain and perk up the spirits. 10c and 25c a box.

STOP ITCHING SKIN

Zemo the Clean, Antiseptic Liquid, Gives Prompt Relief

There is one safe, dependable treatment that relieves itching torture and that cleanses and soothes the skin.

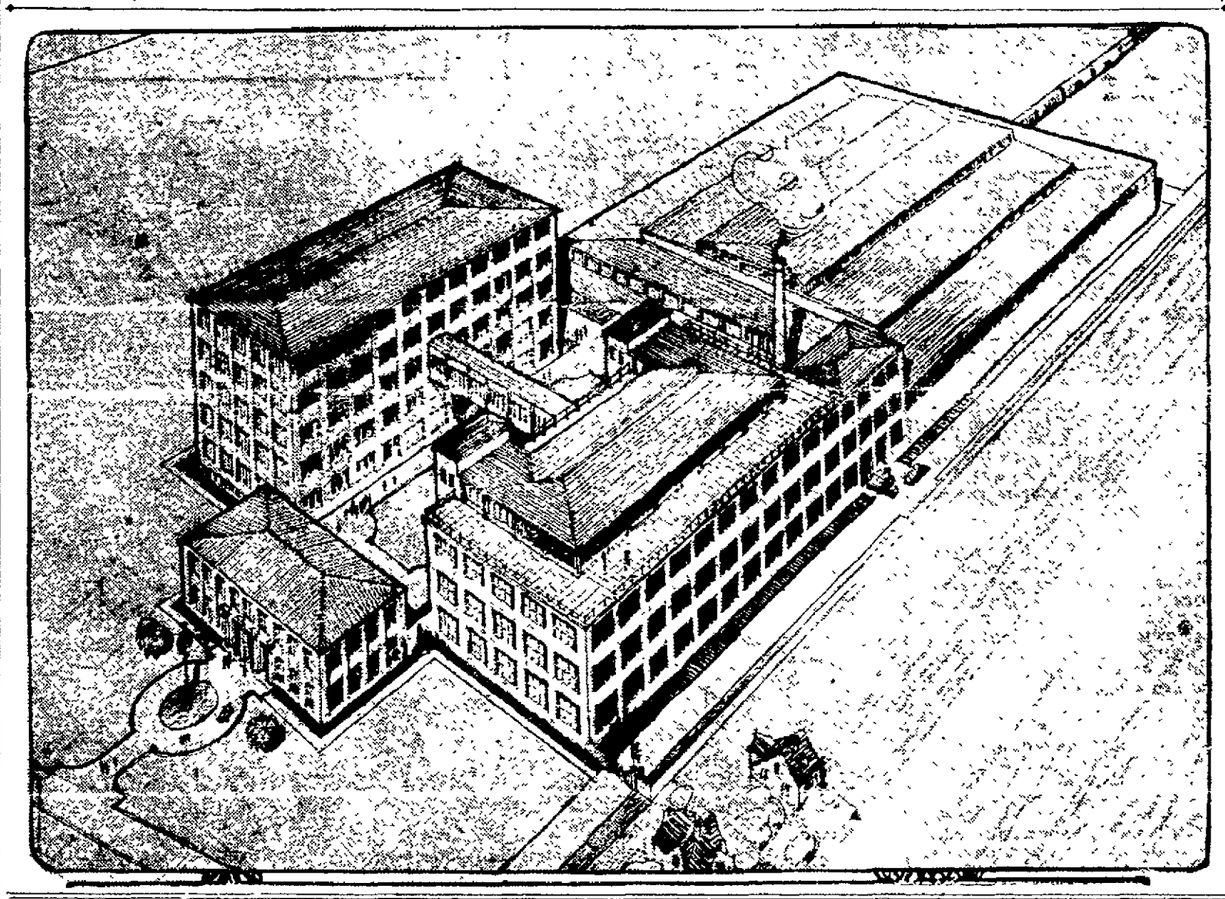

Ask any druggist for a 35c or $1 bottle of Zemo and apply it as directed. Soon you will find that irritations, pimples, blackheads, eczema, blotches, ringworm and similar skin troubles will disappear.

Zemo, the penetrating, satisfying liquid, is all that is needed, for it banishes most skin eruptions, makes the skin soft, smooth and healthy.

One thousand persons will be employed and extensive arrangements will be made for their social welfare.

U. C. PRESIDENCY CHOICE DELAYED

One more week's delay in the choice of a new president for the University of California follows the inability of the regents' executive committee to reach a unanimous decision in two protracted sessions yesterday. The committee will meet again next Tuesday morning, the regents themselves meeting in the afternoon.

Despite the fact that the choice has been narrowed to four candidates, members of the executive committee admit they are no nearer a choice than before. These four are Dean David P. Barrows, Professor John C. Merriam, Dr. James Angell and Dr. Henry Suzzalo.

Preference of the faculty for Dean Barrows was expressed individually to the executive committee by members of a faculty committee who met with them for a short time. The regents took care to make it plain that the admission of the faculty committee was merely a matter of courtesy and was to be taken neither as a precedent nor a recognition of the faculty right to a voice in the matter.

Final effort to reach agreement will be made by the committee Tuesday morning. If it fails the whole matter will be turned over to the entire board in the afternoon without recommendation. The regents imposed upon the committee the necessity of reporting a unanimous recommendation or none at all.

MRS. WM. RALSTON GRANTED DIVORCE

Charges of William C. Ralston against his wife, formerly Miss Georgia Grayson of Oakland, daughter of George W. Grayson, pioneer miner, were unsubstantiated, a Reno judge has decided, and Mrs. Ralston has been granted a divorce on her cross-complaint.

The wife was awarded $200 a month alimony and costs of the suit. She is now living in New York. Ralston is at the Palace Hotel in San Francisco.

Ralston charged his wife with "refined cruelty and extravagance," and said that she "considered him merely as a source of income." When he was a candidate for governor, she practically deserted him, he asserted.

Mrs. Ralston's answer denied these charges and in her cross-complaint she said that she had been caused the greatest humiliation by her husband's espousal of the Oriental faith of Abdul Bahai of Haifa, Persia. She alleged that he wore continually a "charm ring" given him by Bahai.

The couple married in Oakland, June 7, 1889. Ralston is the son of the pioneer of the same name who built the old Palace Hotel in San Francisco, established the old Bank of California and was drowned off Black Point the day after the bank closed its doors. Miss Grayson was widely known as an equestrienne. Her father presented her with a stable of thoroughbred horses. In her cross-complaint, she said she was forced to sacrifice the stable to pay current bills.

High School Students Paint on Sidewalk

High school students have been emulating their older brothers in the use of red paint and other customary football season pranks during the last few days. At the Technical High School, "December, 1919," was painted in red and yellow on the sidewalks last night. The same legend appeared on the Old Ladies' Home near the school. A bathtub was moved to the main entrance of the school and soon after the police were notified but the perpetrators of the pranks had disappeared.

Friday night Berkeley High School students painted their initials in red on every entrance to the University High School. Owing to the objection of Principal Boren, the U. H. S. students refrained from retaliating in kind, after having already procured blue and gold paint for that purpose.

SALT LAKE CITY, Utah, Nov. 26.—Three more alien enemy prisoners, Alfred Worm, Manila, P. I., Christ Selgmeyer, San Francisco, and Frank Partosch of Pittsburg, have been released from detention at Fort Douglas here and will be sent to the cities where they were arrested. All three men are Germans and were arrested in 1918 for seditious talk against the United States and her war efforts.

Mrs. L. K. Camp Tells How Cuticura Healed Her Baby

"My baby broke out in a rash that ran into her hair, and caused her to want to scratch all the time. It was very painful, especially in the evening when we tried to put her to sleep. She was in this condition for about two months, and we tried several things, but without success. Then my mother wrote me about Cuticura Soap and Ointment, and we used two cakes of Cuticura Soap and one box of Cuticura Ointment, and now she is completely healed." (Signed) Mrs. L. K. Camp, Box 662, Hayden, Ariz.

Cuticura Soap, Ointment and Talcum promote and maintain skin purity, skin comfort and skin health. The Soap to cleanse and purify, the Ointment to soothe and heal, the Talcum to powder and perfume.

How To Keep in Good Condition

Sound nerves, a clear head, good digestion, strength, endurance and general health depend upon clean blood. If the kidneys and bladder do not properly perform their functions, the blood cannot be clean and pure, for these organs filter and cast out the waste matter, impurities and poisonous acids that cause nervousness, rheumatic pains, backache, languidness, sore muscles, swollen joints, stiffness, puffiness under the eyes and other weakening symptoms.

WAS RELIEVED AT ONCE

"I was afflicted with kidney and bladder trouble for nearly 6 years. Had one very bad spell about 5 years ago. Was confined to bed for 4 or 5 days, unable to turn without help. I commenced using Foley Kidney Pills and can truly say I was relieved at once. I take pleasure in recommending your kidney pills to all who have kidney trouble." John Heath, Michigan Bar, California.

FOLEY KIDNEY PILLS

soothe, strengthen, heal overworked, weak and diseased kidneys and bladder. When these organs are working properly, the blood is cleansed and purified, appetite returns, good digestion follows, refreshing sleep is possible, health and strength come again. They have brought relief to thousands of men and women who thought old age was coming on before it was due.

Try This If You Have Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

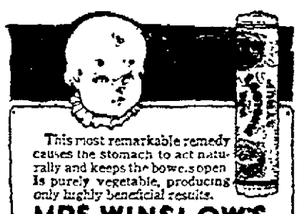

You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.—Advertisement.

BELSHAW'S FRIEND TO SETTLE ESTATE

SAN FRANCISCO, Nov. 26.—Charles M. Belshaw, who, with his wife and two friends, was killed in an automobile accident on the Half Moon Bay road last Sunday, left no will, and John Bermingham, Jr., of 718 Pine street, was yesterday appointed special administrator of the estate of the dead capitalist.

At a conference of the heirs held at Martinez, Superior Judge R. H. Latimer named Bermingham, lifelong friend of Belshaw's, and the appointment was approved by all interested in the estate.

Thorough search of Belshaw's effects in Contra Costa county has failed to disclose a will and Bermingham late yesterday afternoon, on authority of the court, examined Belshaw's safe deposit vault in the Crocker National Bank. He said last night that no will had been found.

The double funeral of Belshaw and his wife was held at 2 o'clock this afternoon in Native Sons' Hall.

Services were held at the same hour for Mr. and Mrs. J. S. Sherwood, the other victims of the tragedy, in the First Presbyterian church at Van Ness avenue and Sacramento street. Their bodies will be taken to the Cone Mausoleum at Red Bluff. Mrs. Sherwood was a daughter of J. C. Cone, a large land holder in Tehama county, and a sister of Douglas Cone, whose death occurred a few years ago. She was also a sister of Mrs. Mary Cone Runyon of this city and Los Molinos.

ITALY PEACE FOES MAY RETIRE KING

BY CAMILLO CIANFARRA,
United Press Staff Correspondent.

ROME, Nov. 26.—A hard fight against ratification of the peace treaty, which may precipitate a crisis involving existence of the monarchy, was indicated here today.

Socialist and Catholic deputies in the recently elected chamber will combine to defeat the pact, it was said. The signal for the fight was expected to be the introduction in the chamber of deputies of a royal decree ratifying the treaty for conversion into a law. Both the Catholics and Socialists who exhibited [illegible] tion, have opposed the treaty from the beginning.

The coming session of the chamber of deputies is awaited with considerable misgiving. There is no precedent in Italian history for rejection of a royal decree, especially in the matter of a peace treaty. The treaty right is a constitutional prerogative of the crown. Should the Socialist plans succeed the outcome of such a solemn disavowal of the king's wishes practically would necessitate his abdication, in the belief of many Italian leaders.

Gier is Sued for $3885.83 on Grapes

Theodore Gier, former member of the Alameda County Development Board and other public bodies, has been sued by A. Cortez for $3885.83, alleged to be due for picking 900 tons of grapes in Napa county between September 11 and October 31 last, no part of which, it is stated, has been paid. Cortez says he was to receive $4.25 a ton for picking the grapes packed in large boxes and $4.50 for those in smaller boxes.

Watch Them Whiten

As the film disappears. You will know then what clean teeth mean.

Your teeth are not clean. You can feel a slimy film. Probably the film has dimmed them—some tartar may have formed.

Your present methods of brushing do not end film, and that is the teeth's great enemy. Now we ask you to try a new method—try it at our cost—and compare results.

Film Can Be Ended Now

Most tooth troubles are due to that film.

It is film that discolors—not the teeth. It is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea.

The film clings to the teeth, enters crevices and stays. Brushing does not end it. No ordinary tooth paste can dissolve it. Night and day it may do a ceaseless damage. And millions find, as a result, that ordinary brushing does not save the teeth.

Now dental science, after many years, has found a film combatant. The facts have been proved by convincing clinical and laboratory tests. The method is today approved by leading dentists everywhere.

For home use this method is embodied in a dentifrice called Pepsodent. And we are mailing 10-Day Tubes to all who ask, to let everyone see its effects.

The Pepsin Method

Pepsodent is based on pepsin, the digestant of albumin. The film is albuminous matter. The object of Pepsodent is to dissolve it, then to day by day combat it.

Science has found a harmless method of activating pepsin. The usual method is an acid harmful to the teeth. So pepsin long seemed barred.

Now pepsin can be constantly applied—can be left to linger between the teeth. Now you can every day combat this film in a simple, dainty way.

Millions of teeth are being cleaned in this new way. You can see them everywhere—white, glistening teeth.

Send this coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the slimy film. See how the teeth whiten as the fixed film disappears.

Learn what clean teeth mean—see how they look. Then decide for yourself between the old methods and the new. Cut out the coupon now.

WEDNESDAY, NOVEMBER 26, 1919.

A GOOD PLAN.

The suggestion made in the report of the building program committee of the Oakland Board of Education that an advisory committee be appointed to assist in the formulation of the new construction program authorized at the recent bond election is highly commendable and will doubtless receive the unqualified approval of the taxpayers and school patrons. Approximately $5,000,000 is to be expended under the bond issue and every effort should be made to achieve the highest standard of efficiency and the largest measure of public benefit.

There is no occasion to express doubt of the readiness of the Board of Education to give its best thought and ability to the new building program, but since the suggestion for an advisory committee has come from the board itself it may be hailed as a good one. A committee of public-spirited and well-informed citizens will add strength to the board's judgment and make the performance of many of the board's tasks much easier. It will also inspire the people interested in the public schools with confidence that a larger degree of wisdom will mark the expenditure of the money they have just voted.

According to the suggestion of the school board the citizens' advisory committee would concern itself with the audit of plans, procedure, results and costs of the building program, the creation and administration of a construction department, the hiring of architects and engineers, purchase of sites, execution of plans, specifications and estimates of cost. Such a committee would not of course possess the final decision in any matter; that is delegated by law to the members of the Board of Education. But it would be an agency for bringing before the board measured and, it is to be hoped, well-formed opinions on many important matters connected with the proposed new schools.

Under this understanding it is difficult to see how any protest against the plan can be reasonably conceived or soundly sustained. The Board of Education is faced with the performance of an extraordinary and important task in providing the new school facilities authorized at the recent bond election. It is perfectly proper that it should seek the assistance of representative citizens who have no interest other than to see the school system attain the highest degree of effectiveness. And if such an advisory committee is created, as ought to be done, the board will be right in according its decisions and recommendations the highest possible moral authority.

THE CITY THAT KNOWS HOW.

San Francisco has long enjoyed the compliment paid by former President Taft when he said, upon the occasion of breaking ground for the Panama-Pacific Exposition, "San Francisco knows how." But if the wise and judicial minded former President should permit himself to comment on present performances, he probably would say that San Francisco knows how to place itself in an absurd position.

The spectacle of the board of [illegible] supervisors of the city across the bay [illegible] the great national government [illegible] protecting the whole United States against a coal famine in the [illegible] been equaled in the annals of civic [illegible]. The Tooley Street Tailors probably were [illegible] by a comparable exalted idea of their importance and the appropriateness of things, but [illegible] be understood that no disparagement of the Tooley Street Tailors is intended.

There is one phase of the action of the San Francisco supervisors in condemning the steps the federal government has taken to end the coal strike, which was [illegible] fore was unnecessary at the time, which puts them far below the moral level of the famous tailors. They acted out of cheap motives of political self-interest. They thought that by condemning the federal government, in their futile blustering way, they would win the votes of organized labor at next election.

But organized labor as a rule has little confidence in men who expose themselves so cheaply. Possessing at least average intelligence, it shows small respect for officials who do not respect themselves, officials who are blatently obvious in their bids for its support.

THE TRIBUNE must disclaim the belief that the conduct of the supervisors reflects the sentiment of San Francisco's intelligent citizens. It does not.

The trouble with San Francisco's official life at present is the same as that which afflicts Oakland and many other cities—too many officials in a frantic effort to make themselves politically solid in times so grave as to make political selfishness a crime.

ANOTHER WAR THREATENED.

Another war looms in Europe. The Jugoslavic confederation of Balkan States, under the greatest provocation imaginable, are about to the end of their forbearance and are ready to attack Italy. Opening of hostilities can only be prevented by the withdrawal of the Italian forces now on the Dalmatian and Croatian coasts. This is plainly indicated by the despatches from Europe and the record of events of the last three months.

Italian troops under Gabrielle D'Annunzio have seized Fiume and other ports along the coast of Jugoslavia to the southward. Italy has denounced these operations as being unauthorized. According to Italian law and the law of nations D'Annunzio's enterprises have been pure filibustering and brigandage. Yet units of the Italian navy have supported the Italian raiders on land. The peace conference decisions have been violated without conscience and the Paris council has done nothing.

Through it all the troops and people of Serbia and the other states of Jugoslavia have shown rare restraint, seemingly hoping that the Rome government would prove that it was playing fair and that the Allied nations would not let the peace treaty be made a scrap of paper by one of their own number. But the hope seems to be vain. It is plain that the Jugoslavs will soon take into their own hands the matter of freeing their Adriatic coast of invaders.

Whatever may be the exact standing of D'Annunzio with the Italian government, his operations coincide perfectly with the well-known desire of many Italian statesmen to control the Adriatic sea in its entirety, including the eastern coast. This would be to put the economic life of all Slavic states completely at the mercy of Italy. The trade and commerce of Hungary, Serbia, Montenegro, Croatia, Dalmatia, Czecho-Slovaka and Austria would have to pay tribute to Italian industrial and business operators. It forecasts a phase of commercial and economic warfare which to attempt to differentiate from armed warfare is to quibble over small details.

The Allies have promised Serbia an outlet to the sea. They have written into the German and Austrian peace treaties guarantees of free outlets for all of Jugoslavia and the Czecho-Slovak republic. Italy has signed these treaties and, unlike the United States, has ratified the German treaty. Yet she permits their violation by her own forces—forces which she alleges to be freebooters but which she does nothing to curb.

A recrudescence of war between Italy and the Balkan states should not be contemplated by Italy without serious concern. It almost certainly would have the desirable effect of consolidating the Balkan peoples and might plunge Italy into absolute anarchy. Italy is in no position to play with fire. In meditating her later deeds she should not forget the disaster of the Caporetta. Bolshevism almost overwhelmed her then. It may do so next time. This is no hour to provoke a new conflict, especially by a country that is from day to day saved from bankruptcy by her friends.

The concrete ship Faith is back in home waters after nearly two years of service. She has traveled through nearly every sea and every kind of weather. And at the end of this long, hard, practical test, she is pronounced seaworthy. In the face of the record of the Faith and numerous other successful efforts at building concrete seagoing ships, it will be difficult for the government to brand the new type of ship as a failure, regardless of what is to be said of the methods and mistakes of those who are chosen to build ships.

A news item states that the Japanese press of Honolulu attacks the picture bride ban. There is no such ban as yet, but a movement has been started by the Japanese Association of America to establish one. It would thus appear to be recognized that the practice should be stopped for the good of the Japanese themselves. Certainly it could be stpoped to the advantage of general decency.

SPIRIT of the STATE PRESS

Oakland and Berkeley have the right idea about tradition. Not even to honor former President Roosevelt would they consent to have the name Telegraph avenue changed to Roosevelt avenue. This is the main artery and one of the oldest streets in Oakland and traverses both cities. With it are associated historic memories of the early days that ante-date even Roosevelt's greatness. All over California are men and women who carry the name Telegraph avenue in their hearts as associated with their college days. To many residents of Oakland and Berkeley it means their pioneer fathers and mothers who laid the foundation for these cities' greatness, who were a part of these towns when they were mere villages, and who gave them this [illegible] it is said is not duplicated in any other city, at least in California.—Stockton Record.

TWISTING THE LION'S TAIL AGAIN!

The Duty and Beauty of Gratitude

By W. S. PRYSE.

It is of course but a truism to say that Thanksgiving to be genuine must proceed from sincere gratitude in the heart, but it is no less a pertinent and needed reminder for many. To observe a Thanksgiving Day as a mere custom, or an outward formality, signifies nothing. And to make it but a holiday and a day for feasting, results in nothing except perhaps a fit of indigestion, or in physical discomfort and lowered vitality. As a day of family reunions and of feasting in moderation, it may be good, but there should go with it some genuine gratitude, and some public, united expression of that gratitude, if the day is to be the personal uplift and national benefit that it is well fitted to be.

Whether in individual or national life, a most essential and significant element is the spirit of gratitude. A nation that observes an annual Thanksgiving Day, as a genuine expression of national feeling, is infallibly a strong, progressive and enduring nation. One which, on the contrary, has no impulse to such an observance, and is destitute of the spirit that would find expression in it, is a weak nation in a decaying and precarious condition. There is no surer index to personal character or national condition than the presence or absence in either of gratitude.

Is a nation strong in all the elements of potential strength and endurance, or is it destitute of all such strength and promise? The answer to the question is found in the answer to this other, are its people permeated with the spirit of gratitude, or is all national gratitude wanting among them? The nation in which gratitude has died out is hastening to its doom. Only the nation in which gratitude prevails stands upon a stable and secure basis, and has promise of the future.

As to individual life the estimate which has been placed upon gratitude by the best human conviction, has been imbedded in language itself. It is seen in the words used to designate the ungrateful, such words as ingrate and ingrateful. These are among the most opprobrious words in our language bearing in themselves a positive emphasis of condemnation. There could be no stronger proof that in the estimation of [illegible] the ungrateful person is a fit object to scorn and contempt. The very words that designate him are synonymous with that which is mean and contemptible.

Why is this? It is because ingratitude is seen to be a sure indication of despicable qualities of character. It shows a lack of worthy responsiveness to the just claim of that which is good and generous. It proceeds from selfishness, conceit, envy, malevolence, one or all. There are people of such perverse dispositions that there is no surer way to incur the ill-will of such a person than to do him a favor. In his conceit he takes the favor as somehow placing him in an inferior position. He may conceal it for a time, but the only return he will make, when the opportunity occurs, is to do an ill turn or an injury to the one who had done him a favor. It is easy to see why ingrate is an opprobrious term.

On the other hand gratitude for kindness or favors received shows a generous and noble responsiveness to good will. It proves a disposition that is quick to feel and quick to respond to that which is good and generous and noble. Gratitude as a human emotion is linked up with everything that is good and admirable in character. It is inseparable from love, honor, fidelity, sincerity, every worthy quality. Where these are dominant in the character there will [illegible] a safe response to kindness and favors from others. A man of honor [illegible] dishonor himself as to return ingratitude for kindness received.

Unselfish love or good will must instinctively and gladly respond with gratitude to such favors. No faithful or sincere soul could belie itself by ingratitude. Thus it is evident that gratitude is an index to the qualities that are good in human character. All right-minded persons recognize it as a beautiful expression of character. It is a duty, as that which is rightfully due from one who receives to the one who bestows a favor. But it is more than a duty, for to be genuine it must spring not from a sense of duty, but from a spontaneous and generous impulse of the heart. This gratitude combines duty and beauty as an attribute of character, and becomes an actual test and index of character as well.

There is another and closely related reason why gratitude is of the highest import and importance in human life. It is a sure index to a person's own realization and valuation of his life and of the highest things of life. What is a man's life to himself? How does he value himself? What estimation does he place on the blessings of life, and especially on the things that make for a worthy and noble life? The sure answer is found in the question whether he is a thankful soul, filled and moved by the spirit of gratitude, or whether he is empty and destitute of such thankfulness.

Yes, gratitude is the measure of a man's value to himself. It measures the value which he places on his own wondrous being of body, mind and soul, and on all its glorious possibilities. For the grandeur of his nature and the wonder of its powers and capacities, for the present reality and the eternal prospect, for the glories of his environment of earth and sky, for the companionship of kindred natures and the inestimable treasure of dear ones, his for time and eternity, for all these he is innately, necessarily and eternally an overflowing fountain of joyous gratitude.

Pity the poor, empty soul who has no such gratitude, who finds no reason for it or impulse to it in his life, his surroundings, possessions or outlook. No gratitude in the soul simply means no greatness or glory in life, no riches or heart treasures within, no grand meaning or eternal outlook for this pitiful pauper. Let us not say that gratitude is a duty merely. [illegible] full worth-while life. But a poor fragment is the life that is wanting in gratitude. He to whom life measures up to its great design is filled with gratitude unspeakable and full of glory.

The application of all this to a national Thanksgiving should be apparent. Who and what is an American? He who is gladly thankful for this American nation, for all that it means to himself, to the millions of its people, to the world. He is not ignorant of its defects, which are the faults of human nature, but he knows that politically it embodies the hope of the world. He is thankful for its history, for its founders and leaders, for its principles and institutions, for its natural features and resources, for its progress and prospects.

Those among us who are not thankful for it are not Americans. Whether born in this land or not, they are alien and ignorant of everything that constitutes true Americanism. To Americanize all such is both a favor to them and a duty to the nation itself. The true American is one who is deeply thankful, intelligently proud and valiantly loyal, in his adherence to all American ideals and institutions.

One question remains: gratitude necessarily implies an object. There can be no gratitude without a conscious person as its object. We are grateful to our fellow men who show us kindness or bestow on us favors. But how about the blessings that no human power can or does bestow? How about the transcendent blessings of life itself, and all that pertains to its support and eternal good? Gratitude for these can have but one object, the supreme, creative Benefactor. He who denies such a Benefactor denies to himself the possibility of the highest gratitude. He makes null and nugatory all the higher realizations and valuations of life. He nullifies the highest things of human nature, and robs his life of its glory.

Gratitude, thankfulness, what words can tell its exalted place and eternal significance in human life? It is a full recognition of the supreme Author of all being, Ruler of human life and of nations, Giver of all good.

KEYS TO THE PACIFIC.

At last Hawaii's naval station is a fact. The roadstead at Pearl harbor can accommodate all of Uncle Sam's navy in case of need, and the station shops are capable of repairing, at least temporarily, the most disastrous effects of the attack of enemy fleets on our battleships. But these things would be almost useless without the dry-dock, which can take care of the hull of any ship that puts into Hawaiian waters. Pearl harbor is now a complete defensive unit of the very first class. The keys to the Pacific coast are in her hands. She is no outpost to be used as a coaling station in times of peace, only to succumb helplessly at the first onslaught of a strong enemy fleet, and she must be still stronger—strong enough to hold off an entire navy in order to function properly as a naval base; otherwise Pearl harbor, in the hands of an intelligent foe, would have the Pacific slope at its mercy. The American navy would be restricted to a cruising radius that would hardly permit it to come the 2100 miles that separate the islands from the mainland. The opening of the Pearl harbor dry-dock is emphatically a major moment in Hawaii's twentieth-century history.—The Honolulu Star-Bulletin.

WOMEN CARRY H. C. L. FIGHT TO NEIGHBORS

Housewives' League Formed in San Francisco Immediately Declares War on 17c Loaves; Endorse Milk Fight

With the Alameda County Anti-High Costs of Living Committee successfully organizing a Housewives' League in San Francisco yesterday, arrangements are being completed for a preliminary meeting in the city of Alameda early in the coming week when the home keepers will federate to fight the high costs in food necessities. Plans are being made within the next few days to organize a Housewives' League in Richmond, the first to be launched in Contra Costa county. With Oakland, Berkeley, San Francisco, Alameda and Richmond women cooperating in a general boycott of foods they find to be held at unfair prices, the first step in the reduction of foodstuffs is expected.

More than 200 San Francisco women gathered in San Francisco yesterday in the supervisors' chambers to discuss the problems of cost which confronts them as housewives. Steps were immediately taken toward organization. A ban was immediately placed up 17-cent bread. The fight of the Retail Grocers' association for 13-cent a quart milk was endorsed. Raisin days are doomed. The high price of eggs was considered.

San Francisco women were called to order by Mrs. W. T. Cleverdon, chairman of the Alameda county committee working against the high costs of food necessities. Mrs. May Larkin Marston of Alameda, a member of the local county committee, was also a speaker.

Mrs. Annette Adams, United States district attorney; Frank B. Connolly, secretary of the San Francisco Retail Grocers' association, and Supervisor Charles A. Nelson were among the speakers yesterday afternoon. Mrs. Adams has promised the leaders in the Housewives' Leagues which have been organized, the benefit of such information as she possesses and interpretations of the laws which relate to the buying and selling of foods.

"Economy is the most effective way to reduce prices," Mrs. Adams told the women.

Oakland Housewives' League meeting on Monday afternoon in the council chambers of the city hall, will be addressed by Mrs. Adams.

WORKERS FURL SERVICE FLAG

With Americanization, 100 per cent pure, as the keynote of the ceremony, employees of the Pacific Gas and Electric company assembled last night in Ebell hall and demobilized the service flag of the company with impressive services at which the officers and members of Oakland Post of the American Legion were guests.

The ceremony was held under the auspices of the Pacific Service Employees' Association, which furnished a large number of service men and women during the great war. In keeping with the sentiment of the services, Captain Walter J. Petersen, president of the local post of the American Legion, outlined the ideals and aims of the legion, and expressed the hope of the organization of former service men to become the spokesman for the great unorganized mass of people who are without voice in the strife between capital and labor.

"The American Legion stands in the first place for 100 per cent Americanism," said Captain Petersen. "We have no room for little Americans, near-Americans, and hyphenated Americans. We stand for one country, one flag and one language, and for the maintenance of law and order, and it is our hope to have the courage and wisdom and foresight to eventually present such a plan for the adjustment of the differences between capital and labor as will bring exact justice to all. Our first effort to this end is for absolute fairness to all parties in these great national controversies."

Grain Dust Expert to Talk in Coast Cities

The United States grain corporation has just made announcement of the dates for California meetings, which have been included in the itinerary of Dr. H. H. Brown of the bureau of chemistry, department of agriculture, who will soon reach the Pacific coast. His tour was arranged by Wheat Director Julius H. Barnes to bring the work of the experts employed in the grain corporations' grain-dust explosion prevention campaign to the attention of grain and milling men throughout the country.

Dr. Brown will speak in San Francisco December 12; Stockton, December 15, and Los Angeles, December 17.

Ellis Island Hunger Strike is Continued

NEW YORK, Nov. 26.—"The Ellis Island Soviet" continued its hunger strike today, while the house immigration committee held a hearing in the same building on immigration and deportation problems.

Seventy-three radicals, avowedly anxious to go to Soviet Russia, but on strike against attending deportation proceedings before immigration inspectors, again spurned a call to breakfast. This was the fourth meal they had missed since adding a hunger strike to a "silence" strike in an effort to see visiting relatives without an iron bar receiver intervening between them.

Free Speech and Liberal Government Defended by British Lecturer at U. C.

BERKELEY, Nov. 26.—"The greatest truths of the morrow must seem the greatest terrors of today. Every attempt to crush the spirit of the common people under the iron heel of a dictating dynasty engenders recklessness and brings about a dramatic downfall in every case."

Defending in these words the right of "free speech" and urging for a liberal discussion of so-called "dangers" of the present day, Professor J. A. Hobson, distinguished British economist and author, lectured Monday evening at Wheeler Hall at the University of California in the third of a series of addresses under the Barbara Weinstock foundation.

WAR SECRECY NECESSARY

Censorship established during the war, Professor Hobson declared, was necessary as far as preventing the giving of aid and comfort of the enemy but he scored allied "propaganda" as a "steam roller" running over the minds of the people. He declared that the end of the war had not brought an end to censorship of speech, particularly in his own country.

"To repress criticism of existing institutions" he declared "is stopping the very stirrings of social progress. A test of sane and good chizenship is to invite freedom not only of the view we think right but of others that we consider 'moral errors.'

DANGER IN LIME LIGHT

"The more dangerous the view the more it should see the light of day. The greatest truths of the morrow must seem the greatest terrors of today. Unless we grasp this quickly truth will have no meaning. The repression of thought kills the very germs of spiritual progress. People would set themselves up as did Prussia or as Japan is perhaps trying to do. They would crush out thoughts of religion, politics and economic progress. They would crush out the very spirit of adventure even in the business world. All this makes for progress. Without it the world would perish.

"There are those who say there must be a number of permanent truths which should pass without question. There are but these can only be known by their power to defend themselves."

CRISIS IN GREAT BRITAIN

That his own country is facing a critical situation at the present time was the declaration of the visiting lecturer.

"The suppression of opinion as has taken place in my country is its greatest peril," he declared. "Propaganda is a fine art but in the way it is handed forth it has a semblance of truth with a dilution of perhaps 2.75. People were acquiesent during the period of the war. They realized it was a life and death struggle. But to many it does not appear that it is a wise process now to keep the mind of the people under strict control. It is a reasonable test of the power of an individual to ascertain whether they function freely in a great emergency.

"This new discovery of 'regimentalizing' the mind has a sinister aspect. It came from Germany but its workings are greater now than the traditions from which it sprung. The war is over but this danger has not disappeared. There are those today who desire to keep the world dangerous. Society [illegible] liberty of thought, freedom and comfort. These qualities are useful for social development."

"INTELLECTUAL INERTIA"

Great Britain is experiencing a danger at the present time which does not confront America, declared Professor Hobson. This he cited as a "sheer intellectual inertia" among the great masses of the people.

"This inertia is not only among the working classes," was his statement. "It extends to the so-called 'better' classes. Great Britain's educational system is far behind almost every other country in the civilized world. Before the war a census showed that but six per cent of the children in primary grades received any secondary education. A nation whose mind is delinquent is in danger, especially when called upon to enter new and safer relations with other nations."

Hope was seen by Professor Hobson for relief in his country in "stirrings in the minds of teachers who are awakening to the dangers exposed by the war."

PRESS EDUCATES ADULTS.

The school and the press, Professor Hobson held forth as the two greatest mediums of education of the present day, the latter as the educator of the adult. He scored the spreading of "propaganda" of any kind in both.

"A pure educational system and a pure press seems hopeless," he said, "but while we may score the press as capitalistic we must admit that there is ten times as much truth as falsehood in any paper we read."

Professor Hobson scored also as travesty on justice any attempt to try the kaiser for his crimes against humanity.

SAYS JUSTICE IMPOSSIBLE.

"It has been proposed to take our enemies and put them on trial formally in a court of justice in which the witnesses, the prosecuting attorney, the judge and the executors would all be one and the same person," was his comment. "There is a widespread opinion that this method would be true to justice. Although the crimes of which these enemies are accused are true, the attitude of such a trial could have no semblance to justice whatever.

Democracy, Professor Hobson declared in concluding his lecture, fights its enemy with "weapons of the spirit."

"To society the truth must ever be greater than moral suppression," he said. The pressure of unstained free personality must be felt. Unless there is a sense of justice abroad we can have no peace or steady advancement."

MINING MAGNATE ACCUSED BY WIFE

LOS ANGELES, Nov. 26.—An automobile trip through Yellowstone park, which George W. Walker, millionaire mine owner, is alleged to have taken with Mabel La Martine, is made the basis of a suit for separate maintenance filed by Mrs. Eva Walker. She names four hotels of nation-wide fame in which she charges that her husband stopped with Miss La Martine.

Mrs. Walker asks $400 a month allowance and a restraining order to prohibit her husband's disposing of mining stocks, two automobiles, $4000 in a Hollywood bank and other property.

The Walkers were married in San Francisco February 2, 1906, and have two children, John Alanson Walker, age 10, and Wayne Walker, age 6.

Walker was cited to appear next Monday before Judge Taft to show cause why the restraining order should not be issued.

EXHIBITS TO SHOW AMERICANIZATION

Some of the practical results of the Americanization work of the International Institute of the Y. W. C. A. will be shown at its exhibit Friday afternoon in the main building of the association at 1515 Webster street. The nationalities represented will each have a section of the exhibit room assigned to them, where their representatives will be in attendance in native costume.

The daily classes in sewing will have exhibits of home-made articles showing the result of the institute's campaign for better citizenship.

Miss Peck, an English woman, formerly chairman of the Serbian relief work in the bay cities, will give an illustrated lecture on the Dalmatian coast. She has also done much relief work in London and has traveled through all the Balkan states.

The nationalities represented in booths in the gayly decorated exhibit room are: Italian, Mexican, Korean, Japanese and Jugo-Slavian. The program starts at 3 o'clock.

CITY WORKERS ARE GRANTED SALARY RAISE

Voluntarily increasing the salaries of all city employees who have no union affiliations, the civil service board last night made a sweeping revision of the municipal salary schedule providing for a general increase of $10 a month for the great bulk of municipal employees.

The new schedule will affect stenographers, clerks, bookkeepers, draftsmen, nurses, office engineers, secretaries, telephone operators, janitors, elevator operators and watchmen, who have had no salary increases.

The step was taken voluntarily by the civil service board without the solicitation or knowledge of the employees concerned and as a matter of justice, according to the statements of Commissioners J. F. Chambers and Ralph Beebe, who authorized the revision last night. The increase granted will become effective on the first of the month and in cases where the employees concerned are paid under a sliding scale the increase will be added to the minimum and maximum wages.

Salaries of municipal employees belonging to various union organizations have been advanced recently in accordance with increases made in the union scales, but the salaries of employees not connected with any union have remained stationary. According to Secretary Frank Colbourn, the total of increases under the new schedule will amount to $10,000 between now and the end of the fiscal year, and the increases can readily be provided for out of the budgets of the various departments.

JUSTICE MELVIN'S EYES AFFLICTED

Justice Henry A. Melvin of the state supreme court, former Eastbay resident and connected prominently with Oakland enterprises, has been stricken with acute eye trouble, due to overwork, it is announced at his offices in San Francisco. Since last Thursday he has been unable to attend to his work and on advice of his physician has kept extremely quiet. He was reported somewhat improved today, and hopes of his speedy recovery were entertained. Meanwhile, however, all his engagements hav bn canceled. His affliction is what is popularly known as "double vision," and his physician told him to give his eyes a complete rest.

The skin of a walrus is so tough that the animal can be killed only by a shot at the base of the skull.

ANTI-PICKET ORDINANCE TO BE ENFORCED

Strict enforcement of the anti-picketing ordinance was demanded of Commissioner of Public Health and Safety F. F. Morse this morning by a delegation representing Eastbay shipyards, cotton mills, gas engine plants and other manufacturing concerns. The delegation was headed by W. W. Crocker of the Crocker Construction Company, who acted as spokesman at the conference.

According to Johnson, since the shipyards opened up for operation Monday large numbers of pickets representing the striking shipyard workers have been posted at the gates and about the grounds of the shipyards, some of them on foot and others riding in automobiles.

WILL ENFORCE LAW

At the conclusion of the conference Commissioner Morse informed the delegation that the spirit and letter of the anti-picketing measure will be strictly enforced. Orders to this effect were given by the commissioner to Chief of Police J. E. Lynch, who was present at the conference.

Commissioner Morse stated that his department had no concern in where the employees secured their labor, or who they hired, but is interested only in the maintenance of law and order, and will take every means at hand to prevent violation of the law.

The third day's operation of the big shipyards as "open shops" began with claims by the employers that the number of skilled men at work was increasing rapidly while the strikers announced a campaign among the unions handling materials to or from the yards.

SAYS 7001 MEN AT WORK

Fred C. Metcalf, secretary of the California Metal Trades association, declared that the strike had been broken, success of the re-opening assured. At closing time yesterday, he said that there were 7001 men at work and that this number was increased today.

A committee was appointed last night by the Bay Cities Metal Trades Council to visit unions handling yard materials and ask them to cease this service. All shipyards of the bay district were put on a formal "unfair" list.

Robert W. Barton, president of the council, said that the molders, patternmakers, blacksmiths, coppersmiths and other skilled mechanics are fully organized and that the shipyards cannot operate without them.

Metcalf on the other hand, declared that 75 per cent of the men reporting for work are skilled workers.

CYCLE AND AUTO CRASH.

At East Fourteenth and Foothill boulevard last night, Harold Dunlap, of East Eighth and Twenty-third collided with an auto driven by William Dunlap, 2061 Eagle avenue, Alameda. Harold was treated at Emergency hospital for a sprained ankle and contusions.

'Practical Tests' in Fire Promotion Decided on By Civil Service Board

Settling the controversy among members of the fire department over the question of whether or not a physical and medical test shall be held in examination for promotion, the civil service board last night decreed that no agility test or medical examination shall hereafter be held in promotion examinations in the department.

Taking the stand, however, that some means should be taken to insure physical fitness of applicants for promotion, the board provided that in future examinations for promotion a gymnasium test for physical qualifications shall be held under [illegible] tests.

The decision, it will be the effect of objections, the advantage of seniority enjoyed by the older men in the service, which was protested by the younger members in their opposition to efforts to have the physical requirements waived.

BOUND BY CHARTER.

The decision of the board handed down last night was in accordance with the interpretation placed on the charter amendment covering the situation by a trio of local attorneys to whom the point was submitted for decision, and who ruled that the board is bound by the charter provision to waive agility tests and medical examinations in holding examinations for promotion.

Receding from its previous stand of objecting to the elimination of the physical and medical tests, the Health Club, an organization of firemen, last night notified the board through President W. R. Smith and Secretary J. Mulligan of a resolution adopted at the last meeting of the organization, withdrawing the club's objections and setting forth the attitude of the membership as being neutral and offering no recommendations.

HEARING OF APPEAL.

Hearing of the appeal of Harry G. Winham, foreman carpenter of the board of education, from his recent suspension on charges preferred by School Director Fred A. Campbell, was set last night for December 16, when the taking of testimony will commence. The board has put itself on record against hearing the case before the return of President Ralph Fisher from Washington.

Sergeant J. F. O'Neill of the police department, who was recently reinstated in the department together with Sergeant J. B. Nedderman, former chief of police, following the action of the district attorney in dismissing the graft indictments against them, appeared before the board last night with a request for his salary during the time he was under suspension.

He was advised that the board was notified today by Secretary Ben B. Jones of the department of public health and safety that the question of whether or not he and Sergeant Nedderman are entitled to draw back pay for the time they were under suspension pending the outcome of the graft indictments has been submitted to City Attorney H. L. Hagan for decision and that the opinion will be presented to the board next Tuesday. Sergeant O'Neill announced that he will hire an attorney to take up the case.

WILL INCREASE SALARIES.

The difficulty of securing and holding good clerical help in the school department because of the low salaries paid was brought before the civil service board by Secretary Lloyd D. Barzee of the board of education, with the result that an investigation of the condition with a view to increasing salaries in the clerical branch of the department was authorized. Investigation will also be made to determine proper monthly salaries for the foremen carpenter, electrician and plumber in the school department, following the request of the school board that the salary status of the three be changed from a per diem to a monthly basis.

Request for the change was filed following charges made recently by President Floyd Gray of the school board that the foremen were drawing overtime in violation of civil service rules. It developed that the overtime was in accordance with the union rules under which the men worked.

The board last night went on record endorsing the campaign of the World Trade Club of San Francisco for the establishment of the metric system as a uniform standard of weight and measurement.

PICKETING IS BARRED UNDER ALAMEDA ACT

ALAMEDA, Nov. 26.—Picketing is now unlawful in Alameda. The city council passed an anti-picketing ordinance as special legislation last night, enacting the measure on the same night that it was introduced, as the charter provisions provide under certain circumstances. The certain circumstances in this case were the alleged industrial unrest and the expressed fear of employers that strikers or others might adopt picketing tactics. The request for the enactment of the ordinance was signed by the Alameda Belt Line, Shipbuilding Corporation, the Barnes & Tibbitts Shipbuilding and Drydock Company, the Dow plant, N. Clark & Sons, the Alaska Packers, the Rhodes & Jamison Company and the San Francisco Bridge Company.

Harrison Robinson, attorney, was present to watch proceedings, but did not speak, the council quickly acting on the filed request. Mayor Frank Otis and Councilmen E. J. Probst, Al Latham and W. H. Noy voted for the measure. Councilman Greene Majors declined to vote, saying that the measure ought to go first to the people and treaded too closely on constitutional rights.

Stage Coach Days

Our forefathers selected their own glasses. They also traveled in stage coaches. They did both for the same reason—there was no other way.

Today stage coaches are a curiosity—their utility has passed with the invention of more modern methods, just as "selecting your own glasses" has given way to scientific eye testing.

Our methods of testing are the latest and most scientific known and our work is fully guaranteed to be satisfactory. Call and see us.

CALIFORNIA AT SEATTLE READY TO MEET WASHINGTON

CHAMPIONSHIP OF COAST GRIDIRON AT STAKE, TOMORROW

California-Washington Clash Should Be Season's Most Torrid Affair.

By DOUG. MONTELL.

Tomorrow marks the passing of King Football. A season, all too short, has come to a close practically with the firing of the closing guns on tomorrow's games. It has been a successful season, has the season just closing, and its passing is mourned by the followers of the American game who long for its continuance, especially with such weather as the coast has had for its season. A few games remain on the schedule for later dates, the Army and Navy Saturday and the big East vs. West game on New Year's Day, but to all intents and purposes the season closes tomorrow.

Throughout, from the opening games up to and including Saturday's games, it has been a season of reversals of dope, more than in any other season the sport has seen.

For that reason in looking back over the records of the various college elevens we find many strong teams represented throughout the country, yet without a distinct champion. No powerful eleven has been able to battle off fate and escape throughout the season a defeat that would keep it from claiming the championship.

UP TO PASADENA COMMITTEE.

It becomes all the harder when one goes to sort out the best of the teams in the east. The selection should come shortly from the Pasadena committee and the public will be eagerly awaiting the decision following tomorrow's games as to the choice that will meet the Western representative. On the face of matters it looks like Dartmouth is really the strongest team in the east. Beaten by Brown in their last game, the Dartmouth team still possesses an enviable record with victories throughout the season over Cornell, Pennsylvania, and Penn State and a tie with Colgate. The 7-6 defeat that Brown slipped the Green eleven came with the team suffering from injuries and really was not a victory on merits over the Dartmouth team that has played all year.

Will it be Illinois? The charges of Zuppke showed a spirited fight to win the conference title in the middle west and their supremacy makes them a likely candidate. Should California win from Washington a dish of Illinois vs. California would attract a crowd from all parts to watch the final game of the year.

FINAL CONFERENCE GAME

In the meantime tomorrow will find the coast selection virtually fought out on the Seattle gridiron when Purple and Gold of the north meets Blue and Gold of the south. Against odds the California eleven is playing its last game of the season with conference honors at stake. The Bruins must play a real brand of football in their last start to make up for the showings made in their last two starts when they have fallen below the expectations of their ardent supporters.

STANFORD VS. U. S. C.

Stanford takes the Thanksgiving Day on which to invade the south and clash with U. S. C. The Cardinal should have their hands full to trim the Trojans. The team that Henderson has assembled in the south is as full of fight as any team on the coast and the scare they threw into California ought to make them very worthy opponents for Stanford. Stanford will have to play more perfect football than Saturday to come out ahead, for it is the favorite dish of the Trojans to profit by the mistakes of their opponents and fumbles are mighty convenient with speed burners to handle the ball. At the Stanford ought to win if they enter the game with the spirit that they showed against California. That alone ought to make up for any lack of teamwork or playing ability that they might lack.

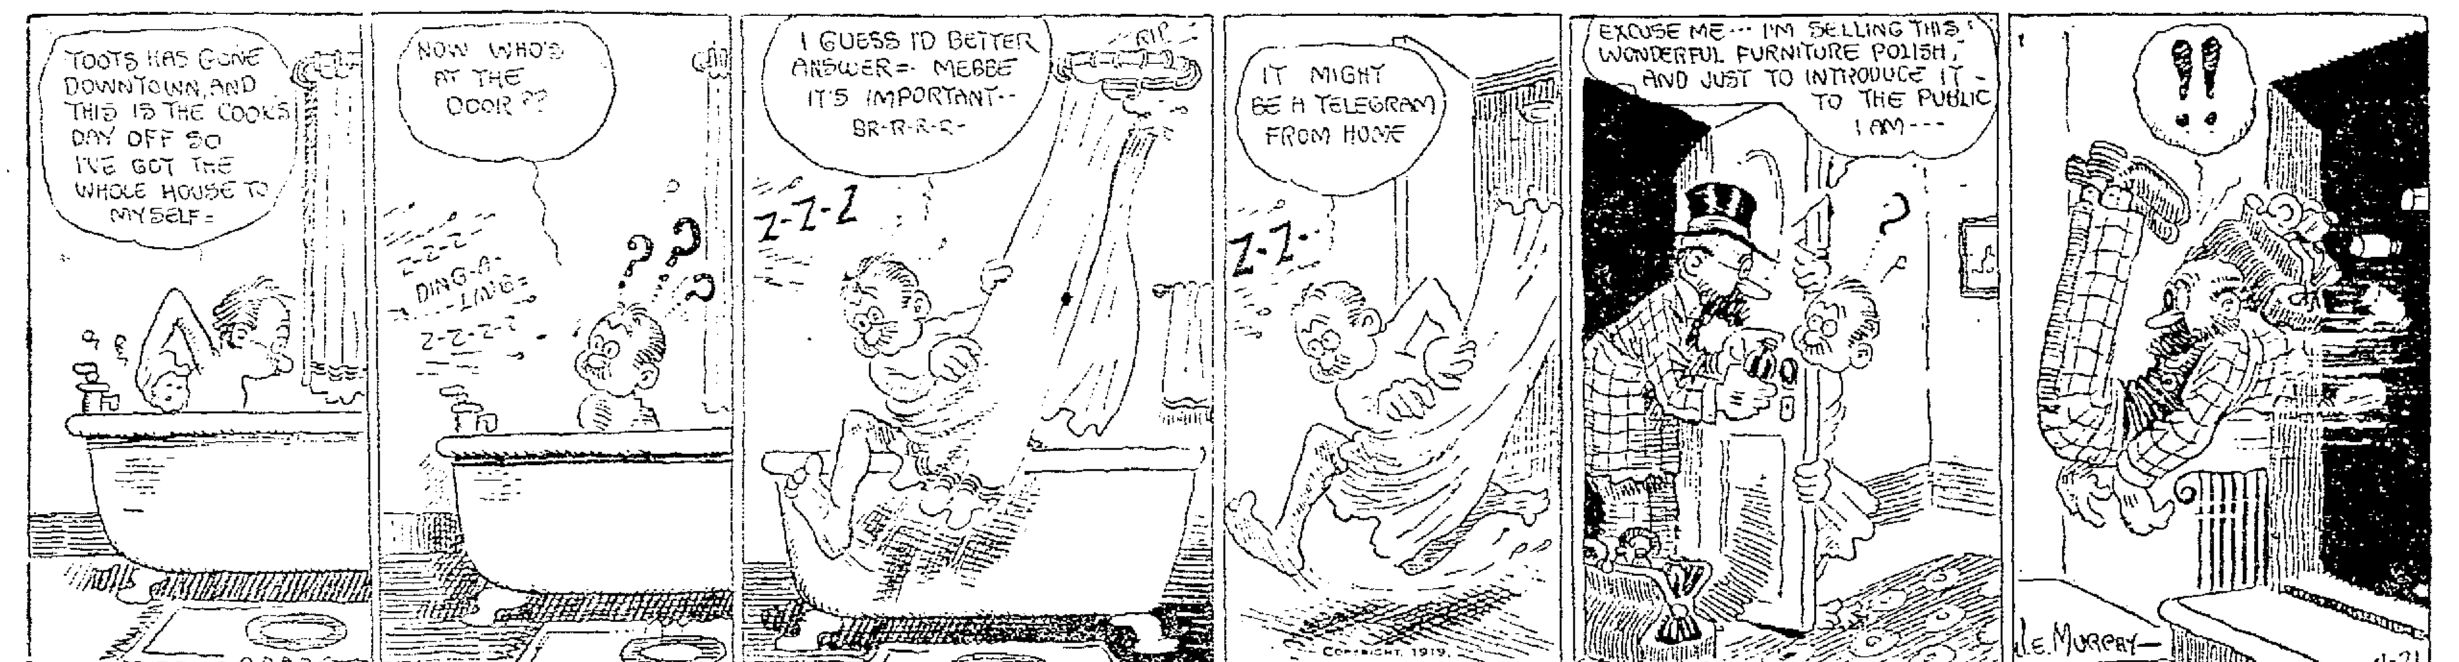

SANTA CLARA AND OLYMPIC

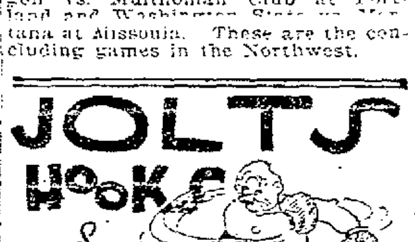

On the home lot for a holiday bill the Santa Clara eleven and the Olympic Club will play a sort of football on Ewing Field as a dish for home consumption. The Winged "O" footballers have been having a good season and ought to take Santa Clara down the line in a hard fought game. Coach Harmon has not made a winning football team out of his material at Santa Clara, but he has developed a fighting aggregation that are willing and trying all the way with some good men in the line-up and they should offer enough resistance to let the Clubmen know they have been in a game.

Other coast games that are attracting interest are furnished with Oregon vs. Multnomah Club at Portland and Washington State vs. Montana at Missoula. These are the concluding games in the Northwest.

TOOTS AND CASPER -:- -:- -:- -:- -:- -:- By Murphy

IT WAS JUST ONE OF THOSE "IMPORTANT" CALLS THAT AMOUNT TO NOTHING.

They say this "Scotty" Williams who meets Ortega at Portland, is none other than the Jamaica Kid, a veteran colored boxer who used to be quite a card. Williams told the Seattle scribes when he first came west that he hailed from Kansas City.

Frank Barrieau was matched to box Williams in Seattle a couple of weeks ago, but beat it for Canada one fine morning when he discovered how tough the colored fighter is. Barrieau believes Williams is the Jamaica Kid.

Austin and Salt, the Seattle promoters, are bringing Mike Gibbons west to meet Frank Farmer Dec. 2 with the winner to draw Billy Miske.

Frankie Malone only got a draw with Joe Gorman last week, but disinterested scribes say Malone had eight of the ten rounds in his favor. Jimmy Dundee was also credited with a win over Gorman in Seattle, but only got a draw.

Billy Burke, former trainer of Coast League ball teams and now located at Modesto, was parading [illegible] wonderful fighter Soldier Day is. Burke says Day can lick Battling Ortega. Jack Brown and Pete Nolan advised him to bring his fighter here and also plenty of dough to bet on him.

Johnny Nunes is in the South looking for a fight. Frank Tabor will probably open the stage door and let Johnny in. Tabor has half a dozen fighters in the South with [illegible]

LOCAL BOY RETURNS TO SIGN PLAYERS FOR CALGARY CLUB

Was Mentioned As Leader of Seattle Club When He Signed With Canadian League

By EDDIE MURPHY

A few years ago on the local sand lots there was a young chunky fellow chasing balls around the outfield for the Ambrose Tailors, Alameda and a few other bush teams. Suddenly that young fellow pulled out for the Northwest, and today he is heralded as one of the greatest men in baseball in that section of the country. The fellow is Joe Devine, who has not yet reached his twenty-seventh birthday, but who is able to outsmart a number of the much older heads in the game. Joe, along with Bobby Smale and Billy Cunningham, a couple of more bay cities ball players, arrived in town and intend to stay for the winter months. Joe as usual came to have his Thanksgiving dinner with his folks, but this time he will make the visit more of a business one.

Fans around the bay should be glad to hear all the good news which Devine has brought along with him. First we want to tell you that Devine's wishes have been realized. He has landed a job as manager of a team in organized baseball; the team is Calgary of the Canadian league. It may sound surprising to say that Devine almost landed the job as manager of the Seattle club in the Pacific Coast league. Last season, at the time the Purple Sox were going so bad, Devine was sent East by the Seattle owners to do business for them. While in the East he received word that he was practically picked to succeed Bill Clymer as manager, but before he got back Charley Mullen had landed the job. Then came the picking of a successor for Charley Mullen, and Devine was put on the list as one of those who might get the job. The local boy had many boosters, but was sorry to have to announce that he could not take the [illegible] as he had already signed to manage the Calgary team, [illegible] is another example of how much baseball knowledge that Devine is supposed to have.

Local players and fans who have heard of Devine's great success in the Northwest, wonder how he could make such a big climb in a few years, and also be stepping ahead of the veterans. The way that Devine became a successful baseball man at such a young age, was by his wanting to get along and learn all that he could about the game. Joe has come in conversation with many of the old generals of the game and there was not a Pacific Coast league club manager who took his team to Seattle last season who was not always glad to talk with Joe. Even Bill Clymer used to get the local boy to one side and seek advice when wanting to sign new players.

Zeider and Herr Tried to Get Devine's Job

It might sound funny that Devine, as young as he is, was mentioned as a manager of the Seattle club, but it is not funny when one looks at the prominent men who tried their hardest to land the job as manager of the Calgary team only to have Devine beat them to it. Eddie Herr, former manager of Salt Lake, Rollie Zeider, who will captain the [illegible]

Players He Took From Here Go to Majors

Several players who were with the Canadian league last year will get trials in the majors next season due to the recommendations by Devine while on a business trip in the East for the Seattle Coast league club.

as tryout with the New York Americans next season.

Henion, the young pitcher who Jack Roach tried to put with the Oaks last spring and who hails from San Diego semi-pros, landed in the Canadian league, and is to go up to the big show next season on Devine's [illegible]

Bobby Smale is the same fellow who was out with the Oaks for a couple of springs, but failed to make the grade. Devine says that the only fault with Bobby was that no one told him he held his bat wrong. Joe told him so, and his hitting improved so much that he also looked good enough to a Boston National league scout to get him a trip East next spring. Devine says that Smale is twice a better player than he was when playing here. The major league clubs made a big raid on the youngsters in the Canadian league after the season closed.

Eddie Bogart, now with the Hall-Scotts in The TRIBUNE league, was with the Regina team in the Canadian league. He was with Portland last spring, but McCredie could not see him. Now he is signed by the St. Louis Browns. But it is seldom that McCredie lets a good prospect like Bogart slip through his paws.

Devine thinks that the Coast league managers should give the young ball players a better chance to make good.

Devine Ready to Sign Tribune League Stars

Calgary and Edmonton are to be the new teams in the Canadian league and many a well-known player, some of them ex-managers, fought to land the job as leaders of those clubs. Peter Standridge, former Seal, had the inside dope on the Edmonton job, so got it, but Devine had to be picked from the bunch of fellows mentioned before.

Now Joe is talking of turning out his fourth pennant-winning club, and he thinks that he can find the real makings for it right here in California, most of the players now performing in The TRIBUNE league. Joe wants a fast club of young players, and says he will show the fans in the Canadian league circuit that there are a lot more mighty good ones to be had from the Golden State. Already he has talked with several promising players, and says that he can pay them more to start in the Canadian league and give them a [illegible] than they would get in any other place outside the big leagues. Also Joe has not forgotten about the good California climate that he enjoyed while playing on the local lots, and says that he will send word to the directors of the Calgary club that the spring training will be done right in the bay cities, maybe at Lincoln park in Alameda.

We have not heard Joe say anything about signing his brother Jimmy to a contract, so we want to remind him that Jimmy is having his greatest season or did have it. He [illegible] and fielded like a champion for the San Jose Bears all summer.

The Canadian league, which had a [illegible] circuit last season, drew [illegible] crowds and Devine looks for [illegible] to have another big season in 1920, [illegible] you fans and players should [illegible] off to Joe Devine, a local product and Californian [illegible] to stand with the older [illegible] in the grand old game.

Vallejo Fans Witness Some Fast Battles

Joe Azevedo Takes the Decision From Joe Herrerra.

By BOB SHAND.

VALLEJO, Nov. 26.—Jack Brereton and Scotty Watts staged another fine set of battles at the Airdome theater here last night and the big arena was crowded with enthusiastic fans from the navy yard and the barracks. The card was voted the best yet offered by the new promoters and the fans went home well satisfied with what they saw.

As usual the main event, though not a bad scrap, was about the worst of the evening. Joe Azevedo and Joe Herrerra were the principals and because they had their names on top of the card they fought like regular main eventers—with the "safety first" sign hung out in every round.

It looked as though Azevedo could have knocked his man for a [illegible] in the first round, but Joe was either saving Mr. Herrerra for some future occasion or he was saving himself for his bout with Johnny Cline, which will be staged at Marysville tomorrow night. In the first minute of the first round Azevedo crossed Herrera hard enough to stagger the Mexican and another to the same place would have wound up the show. But, instead of standing off and letting go for the chin, Azevedo fell into a clinch. It was give and take for the balance of the fight with little to chose between the pair.

Azevedo was not the same boy that boxed Willie Jackson. He did not have the old ginger and his punches lacked the old steam. Perhaps Joe is playing the bush circuit a bit strong as he fights about three times a week in different parts of the state.

A SLUGGING MATCH

Earl Young and Jimmy Staff slugged their way through four hurricane rounds and the draw decision was fair enough. They landed enough haymakers to sink an ordinary fighter for the count, but their best wallops bounced off the other gentleman's chin like water off a duck's back. It was a whirlwind affair with Young having a very slight edge, but not enough to give him the decision.

"Dago Jimmy" Lewis gave Bert Harris a fine licking, but could not or would not knock his opponent. Jimmy hit Harris with everything but Scotty Watt's shoes and Scotty was wearing them. Lewis slowed up and let Harris get in some hefty wallops in the last round which influenced the judges to call the fight a draw.

Frankie Neil, a bantamweight from Sacramento, showed a lot of class when he whipped Kid Jones in four rounds. Neil had a bad right hand but he hit Jones often enough with the left to bring home the bacon. Jones has two of the longest arms in captivity, but he used them to wrap around his head in the last round and this cost him some of his popularity.

REIDY BREAKS HAND

Harry Reidy broke his right hand in the first round of his bout with Kid Suddington, but Harry was game enough to keep shooting with his left and he jabbed himself into a draw. Had Suddington had a little more experience he might have got wise to the fact that the Reidy starboard hitter was out of commission and then stepped in pretty but Suds is still a novice.

Jack O'Brien and Young Poole slugged and wrestled through four rounds in the curtain raiser with O'Brien taking the decision.

Dr. Frank Dunlap and Jess Langlois acted as judges while the writer refereed.

Bill Shafer and John Rusting both want to fight Bill Larue. They say that John knocked Bill goofy while they were sparring before the Gunboat Smith fight.

Southern Football Fans Await Clash of Stanford-U. S. C.

[illegible], Nov. 26. — With Stanford University's footballers arriving in Los Angeles today, interest in the Stanford-U. S. C. tomorrow reached a high pitch. "Experts" pondering over the dope declared the game should be the hottest of the season.

It is an open secret that Coach Henderson of U. S. C. has put his men through a unique course of open field plays for the offensive and has tried to teach them a defense against the peculiar style of play which he is told Stanford is following.

NO GAME AT VALLEJO.

VALLEJO, Nov. 26.—Vallejo football fans will not see any game at Beach park Thanksgiving Day, according to announcement made public by Manager Bill Stevens of the All-Vallejos.

NO HOPE OF RELIEF FOR CATARRH VICTIMS

Unless Old-Time, Obsolete Treatment Is Discarded.

The coming winter offers little hope to the victim of Catarrh. In fact very shortly you will begin to once more know the real annoying and disagreeable features of the diseases which always make their appearance with cold, raw and windy weather.

Doubtless during the mild summer months you have enjoyed some relief from the disease, because there is always less inflammation of the membranes during the summer, but do not make the mistake of thinking that your Catarrh is gone, for the very first raw, damp, wintry day, the delicate linings of the membranes will begin to again become irritated and sore, the air passages will begin to clog up, and soon you will find that your old enemy is still with you, with a fiendish intention of making the winter as full of discomfort as ever.

What are you going to do about it? If you have had the disease for any length of time, the chances are that you have used enough local remedies to convince you that there is no cure for you in this method of treatment. Are you going to drag through another winter hawking, and spitting and spraying constantly in an effort to unclog the stopped up air passages so that you can get your breath for awhile, knowing that these accumulations will immediately reappear—or are you going to discard this makeshift treatment, and use a little intelligence in an effort to get rid of this disease that is such an annoyance and a constant handicap?

You must accept the teachings of science, which shows that to get rid of any disease, you must treat it at its source, you must direct your efforts toward removing its cause, instead of being satisfied with slight temporary relief from its symptoms. You must rout out from your blood the millions of tiny germs which cause Catarrh, so that there can be no more inflammation of the nose and throat, and choked up nasal passages that make breathing difficult and painful.

S. S. S., the fine old blood remedy, has given splendid results in the treatment of Catarrh, and you will be delighted with its effect to your case. It so purifies and cleanses the blood, that disease germs are eradicated, hence when the germs of your Catarrh are eliminated from the blood, you are on the right road to permanent riddance from the disease. Go to your drug store, and get a bottle of S. S. S. today and begin the real rational treatment that will give real results.

If you will write our medical department, we will take pleasure in giving instructions regarding the treatment of your own particular case. Address Chief Medical Adviser, 153 Swift Laboratory, Atlanta, Ga. —Advertisement.

CHICAGO GRAIN

CHICAGO, Nov. 26. — Pre-holiday adjustment of trades tended to keep the corn market from any pronounced swing today either up or down. Opening prices, which ranged from the same as yesterday's finish to ⅝c lower, with December $1.33 to $1.33⅛ and May $1.28¾ to $1.28⅞ were followed by a moderate further sag and then rallies all around.

Shorts covering made the market close firm, ⅛ to 1⅛c net higher, with December $1.33¾ to $1.34 and May $1.29½ to $129⅝.

After opening unchanged to ⅝ lower, including May at 76⅛c to 76⅝c, oats eased a little more and then recovered.

Provisions reflected the weakness of hog values.

Corn, No. 2 mixed, $1.47; No. 2 yellow, $1.50@1.52.

Rye, No. 2, $1.46.

Barley, $1.20@1.53.

Timothy seed, $8.50@11.00.

Clover seed, $35.00@48.00.

The close:

Corn, Dec., $1.33¾; Jan., $1.29¾; May, $1.29½.

Oats, Dec., 72⅞c; May, 76⅛c.

Pork, Jan., $34.50; May, $32.45.

Lard, Jan., $23.75; May, $22.20.

Ribs, Jan., $18.77; May, $18.35.

The Waterfront

Everything along the Oakland water front is normal again, with the shipyards running and the usual noise of the riveters. Old timers seem at home, especially at noon, when the whistle that has been silent for eight weeks is heard again calling the men from labor to refreshment and from refreshment to their labor again. The Barron Estate wharf, foot of Sixth avenue, is about the busiest dock along the front. There is a barge discharging 200,000 [illegible] new buildings in Oakland. The gravel and sand hopper at that dock is being filled from the scows and the teams are taking away the sand and gravel. The steamer Loof is unloading 1500 telegraph poles and the [illegible] submarine cable on her reel to lay between Oakland and San Francisco. The Howard dock at the foot of Market street has several large deep water craft unloading, and the lumber yards are all receiving cargoes.

The Charles Nelson Company has purchased the new barkentine Koosawin from the United States Shipping Board. The new craft is now at Alameda with other vessels of the board and will be removed today to a private dock. She was launched September 23 and will be used as a lumber carrier for off shore cargoes.

The steamers Redwood and the Idaho, both new craft, have been chartered by W. R. Grace & Co. to load lumber at Grays Harbor for Callao.

The steamer San Juan, which left this port for Balboa October 20, has been reported arriving at Cristobal November 21, leaking badly. She has 11½ feet of water in hold number one, nine feet of water in hold number two and some water in her after holds. Her cargo is badly damaged and is being unloaded. The steamer will go on the drydock for repairs. The San Juan is well known at this port and is owned and operated by the Pacific Mail Steamship Company in the South American route. She is 2152 tons register and was built at Chester, Philadelphia, 37 years ago. For over thirty years the old craft has sailed out of the Golden Gate.

It has been announced by Walter Scammell of Oakland, owner of the white flyer Humboldt, that he is to place the craft in commission again and will operate her between this port and Los Angeles. She has been laid up in Oakland harbor since the longshoremen's strike began. Scammell has made reservations for the drydock at the Moore plant and the Humboldt will go on the ways after Thanksgiving Day.

Captain W. S. Harriman will have great responsibility when he leaves the Golden Gate today as master of the tanker Pearl Shell. She has a full cargo of oil in her tanks, and the skipper will have $600,000 in silver dollars and bullion in his room. The bullion goes to the Orient, shipped from here by the American Mercantile Bank, and the oil goes to the same place, from the Shell Oil company.

COTTON MARKET

NEW YORK, Nov. 26. — The cotton market opened weak today, prices being 15 to 45 points lower. There was selling by the south and also pre-holiday liquidation based upon unsatisfactory coal labor news and rather poor cables. The decline met trade buying again, however, and shortly after the start prices rallied about 20 points. On fresh selling, however, quotations dropped 45 points under last night's close.

LIVERPOOL, Nov. 26.—Spot cotton opened in moderate demand. Prices easy. Sales, 6000 bales. Futures opened steady.

MONEY MARKET

NEW YORK, Nov. 26. — Mercantile paper 5¾@6¼. Sterling demand 4.11; cables 4.11¾, time loans unchanged.

Call money easy; high 7, low 6, ruling rate 7, last loan 6, closing bid 6, offered at 7.

NEW YORK, Nov. 26. — Bar silver 135. Quotation on Mexican dollars not received.

LONDON, Nov. 26. — Bar silver, 77½d per ounce. Money 4¾.

SUGAR PRICES

NEW YORK, Nov. 26. — Raw sugar, steady, centrifugal, 7.25; fine granulated, 9.00.

SELLING SENDS PRICES LOWER IN WALL STREET

NEW YORK, Nov. 26. — Irregular price changes at the outset of today's stock market session indicated renewed selling for both accounts. The strongest issues of the previous day, notably the motors, oils, equipments and shippings, were 1 to 3 points down. Active steels were moderately lower and coppers continued to reflect unfavorable trade conditions. The reaction made further headway within the first half hour. General Motors extended its decline to 10 points. The trend of the day's trading follows:

FORENOON — The market's reactionary trend became more pronounced during the forenoon with greater activity as prices yielded. Lacking a more definite reason, the increased pressure was ascribed to pessimistic reports dealing with foreign financial conditions. Crucible Steel was especially weak, falling 10 points, and Pierce Arrow lost 7. General Motors recovered part of its loss, only to go lower than before. A few stocks stood out for their comparative strength but soon forfeited their gains, rails also becoming heavy. Moderate rallies succeeded the opening rate of 7 per cent for call money.

AFTERNOON—Recoveries at noon among such leaders as General Motors, Pierce Arrow, Crucible Steel from 2 to 5 points. These were again cancelled for the most part, however, and oils also developed increased heaviness.

CLOSING—Another rally in Motors, oils and equipments in the last hour was checked by further weakness of standard industrials and rails. The closing was heavy. Sales approximated 1,150,000 shares.

LIBERTY BOND PRICES

NEW YORK, Nov. 26. — Liberty bond prices at 2:55 p. m. today were: 3½s, $100; first 4s, $94.10; second 4s, $91.40; first 4¼s, $94.20; second 4¼s, $91.99; third 4¼s, $94.10; fourth 4¼s, $91.70; Victory 3¾s, $99.08; Victory 4¾s, $99.10.

Wheat Production of World Decreased

WASHINGTON, Nov. 26. — Wheat production for 1919 in the United States and principal wheat countries of Europe is 95.5 per cent of the production of those countries in 1918, according to a cablegram made public today by the bureau of crop estimates of the agriculture department from the International Institute of Agriculture of Rome, Italy. The estimate covers the production of the United States, Spain, France, England, Wales, Scotland, Italy, The Netherlands, Rumania, Switzerland, Canada, British India and Japan. The total production is estimated at 2,040,500,000 bushels and 96.5 per cent of the five-year average of 1912-1917.

LOCAL PRODUCE

More than seventy-five tons of dressed turkeys have been sold for Thanksgiving by wholesale commission merchants. This is fully ten tons more than were sold last Thanksgiving. Prices have remained firm, dressed birds ranging from 45 to 48 cents a pound. All stocks were sold out close. Some dealers did not have sufficient turkeys to meet the demand. The weather has been unusually good for getting turkeys to market and for successful handling, dealers report.

Cranberries declined in price today, the late Howe variety dropping $1.50 a barrel, the present quotation being $16 a barrel. Oregon and Washington cranberries declined 50 cents a box each, the top price being $5.50 a box.

AUTO EXPERTS END MEETING IN OAKLAND

With a dinner dance at the Hotel Oakland, participated in by more than three hundred members, the northern division of the California Automobile Trade Association came to a close last night, after electing Santa Rosa as the next meeting place. The dinner dance was preceded by an afternoon business session, which ratified the legislation adopted by the various allied crafts in separate sessions the day previous. Before the principal business [illegible] members were entertained at luncheon, which proved to be the speech-making occasion of the convention. H. C. Capwell, president of the Chamber of Commerce; P. J. Tehaney, superintendent of the California state motor vehicle department; President George Butterfield of the association; State Secretary Robert W. Maitland and others were the speakers.

The relation of the automobile industry to banking was the principal theme of the Capwell talk, after he had provoked the members to laughter with an account of a convention of veterinary surgeons who met to consider how they could keep the horse the king of the road. He told them that the banks do more business with the automobile industry than with any other industry in the country, and that the business is generally satisfactory and profitable. He told them that even so the business is in its infancy and that its opportunities for profit are the very greatest. He approved the convention idea as the preacher of the square deal between the dealers and the public. The automobile man, he said, has no interest in the old saying that a sucker is born every minute, for he said the sucker nowadays is the man who does not buy a car.

LICENSE PLATE REGULATION.

Superintendent Tehaney attended the convention to talk over with the dealers the new regulations concerning number plates, the regulation of headlights, permits for dismantling cars and the proposed stringent regulations of the qualification for drivers.

The new law enables dealers to buy plates to be loaned to new customers. The dealers have not agreed that the scheme is a good one, first because it necessitates an outlay of money for which they can see no return, and second because the customer to whom they lend the plates fails to return them. The arrangement is for the accommodation of the dealer in making sales, which are occasionally held up because the prospective purchaser will not buy if he has to wait for his license to come from Sacramento. Tehaney promised that the regulations will be speedily improved and that soon the department will have a branch office in every important city where the numbers may be readily obtainable.

Tehaney told the convention that the law with respect to license plates and the headlights is going to be rigidly enforced in future and that the owners might as well understand it. He said that after returning from a trip through the east he is convinced that the California law is the best law on the subject. He asked the support of the association for a law defining qualification for drivers, and the convention applauded the suggestion.

MARTLAND ACTION PASSES.

"Bob" Martland put over his proposition to nationalize the association, the convention endorsing his idea, and a motion carried for a committee to consider ways and means. Martland had talked the project as consistently as President Haberfelde had talked the Bakersfield date for the next meeting, December 8 and 9, of the state association, and when the motion was put for the committee to go ahead with it there was no votes in opposition. His plan is to extend the scope of the trade association over the whole country and affiliate with the National Dealers' Association.

The resolutions adopted by the various crafts looking to the standardization of the service as outlined in yesterday's TRIBUNE were endorsed by the main body without opposition. They will be submitted to the state organization at Bakersfield for ratification. The features of the proposals are the elimination as much as possible of the free service feature and the strengthening of prices for better service, the limitation of guarantees and for general strengthening of the business.

Chester N. Weaver, dealer, told the convention that in his opinion the price of cars will remain about as at present until the labor situation improves. He said that practically everything going into the production of a car is labor and that the labor situation is such that cars cannot be produced [illegible] figure. In one eastern factory, he said, he saw 200 cars held up for lack of windshields, and the factory was scouring around the country trying to buy plate glass to cut up for the purpose of supplying the cars. He said that the automobile industry is using over fifty per cent of the plate glass produced. The glass situation was referred to merely as an incident, he said, illustrative of the situation.

Frank Hunt, [illegible] of the [illegible] of the association, of which the Alameda county association was the nucleus. He said that when they organized people told them they could not get over with the thing because it was not right. He said that it succeeded because it is right, and that it will succeed as long as it stays right and stands for the square deal to the men of the trade and the public.

Cliff De Mar, general manager of the Chanslor Signal company, received a vote of thanks for the silk banner which he presented to the association. The banner, bearing the insignia of the association, was carried at the head of the automobile parade yesterday morning, in which several hundred machines followed the leader over the scenic highways of Oakland's hills.

These three girls and the tire combined to furnish one of the features of the dance that wound up the meeting of the California Automobile Trade Association. From left to right, MISS JANE MAGNESI, MISS LOUISE JORGENSEN and MISS MARGARET ROMMEL.

Godfrey Faces Bad Check Charge Here

George T. Godfrey, who was captured in Chicago after Oakland had been scattered with alleged worthless checks, has been held to answer in superior court in bail of $2000 by Police Judge George Samuels. Godfrey fled Oakland after he had tendered an alleged fictitious check to a teller at Central National bank. He left the bank while the teller was communicating with the police, and was captured a few weeks later in Chicago.

GABY DESLYS OF TWINKLING TOE FAME TO MARRY

LONDON, Nov. 26.—Gaby Deslys, whose nimble heels have delighted theatergoers on two continents, has quit the stage to be married, according to the Daily Mirror. The name of the bridegroom-to-be is not revealed, although Gaby says he is not an actor.

The dancer is now appearing in an Italian film production, but says she will not return to the stage except at charity performances.

Tribune's Policy is Approved by Autoists

The northern division of the California Automobile Trade Association in session at the Hotel Oakland the past two days, attended by several hundred members of the allied crafts from every city in Northern California, before adjournment last night adopted resolutions expressing appreciation of The TRIBUNE'S insistence upon clean, unambiguous automobile advertising copy and for this paper's support of the association in its efforts to strengthen the business of the crafts and improve the quality of the service rendered to the public.

The vote of thanks was tendered after a discussion of advertising methods, during which reference was made to The TRIBUNE'S policy of rejecting advertising copy that does not come up to the standard fixed by the association for its members.

SCHOOL BUILDING PLANS UNDER EYE OF FIVE CITIZENS

An auditing committee of five citizens, to supervise the handling of the building program about to be undertaken under the recent $5,000,000 school bond issue, was decided upon this morning at a special meeting of the school board held to decide the question after the failure of the members to agree on the point Monday night.

Following the meeting the names of the members of the committee selected were announced as follows: Fred Kahn and James Pedgrift, members of the advisory bond committee; George Randolph and Joseph King. The fifth member is to be selected by the four named by the board.

A revised report of the building program committee of the board covering the duties of the auditing committee was adopted by the board this morning, providing that the citizens' committee shall work jointly with and bring to the consideration of the board for final action all matters involving the expenditures of bond money in the building program, and shall co-operate with the board in carrying out the building program already recommended.

In addition, the committee shall have the power to consider and report on the plans for the establishment of a construction department to have supervision over construction work, the hiring of architects and engineers, the purchase of sites, the execution of plans, specifications and contracts, and the expenditure of all funds. All matters of policy and procedure pertaining to the purchase of sites and the erection of buildings provided in the building program will be undertaken only after conference with the committee.

CITIZEN VOICES PLEA FOR LIGHT

"Let there be light," beseeches J. C. Hart, 240 Wayne avenue.

In the dark, Hart declares he looks like a city commissioner and this, he hints, is much too much. Therefore, he is the leader in a petition to the council for a street light in the middle of the block on Wayne avenue between Athol and Hanover.

"I have been frequently mistaken for the commissioner of revenue and finance of our city," says Hart in the petition, "and have been obliged to burn up my own matches to convince some of the ladies that I am not he.

"If the lack of names on this petition will make it prohibitive for us to obtain a light, it might be well to enact an ordinance making it compulsory for the said commissioner to retire on a moonlight schedule."

The request was referred to W. H. Edwards, who is the commissioner of [illegible].

Aim of Women Voters to Purify and Perpetuate Nation, Says Mrs. Catt

"Do not mistake jingoism for Americanism," Mrs. Carrie Chapman Catt, president of the National League of Women Voters, charged a large mass meeting of men and women which last night tested the capacity of the First Congregational Church. "We cannot put the I. W. W. and Bolsheviki out of American life by interning the leaders or deporting them; by making men kneel and kiss the American flag. Those who believe in orderly progress must now let their sentiments be known. This is the most critical in all our history. The war against the kings and tigers among us in which we are engaged is not too great for the patriots. We must decide now whether it be revolution or evolution before us. There is no compromise. It must be one thing or the other.

"We must give to the world an English-speaking nation, where men and women who vote can read their own ballot; where there is no illiteracy; where the American flag is honored because it stands for constructive, constitutional, political evolution; which will bring to all citizens the justice they seek.

DISCONTENT PREVAILS.

"We have learned that ours is not a contented people. There is an uproar from the Atlantic to the Pacific. There is more anxiety now than during the war. Nobody knows what is the right thing to do. The conditions are not so much unrest as the effects of political failure.

"There has been a continual violation in our country of the ideals of a government by the majority and no group has yet arisen strong enough to defend these ideals. No political party has challenged the wrong doers. The people have lost confidence along with the men who bought the vote and the men who sold.

"Had America done its duty in defending before the world its own ideals, there never would have been a Kaiser to dream of world power nor a world war, nor the present aftermath of that strife. The industrial unrest is a challenge to our boasted American principles. New despots have come among us. So long as there is collective bargaining by the money kings there will be collective bargaining with labor. We who stand between pay the costs.

PLEADS FOR IDEALS.

Mrs. Catt pleaded to a return to American ideals and to a government which should in truth be a government by the majority.

Miss Marjorie Shuler, and Dr. Valeria Parker, chairmen of departments of the National League of Women Voters, were speakers also last night.

"This is not in any sense a sex party movement, or a sex fight," explained Miss Shuler. "We have campaigned too many years for the privilege of working with the men to experiment in an independent movement now. War has taught us that we must educate those now using the franchise. We believe that a wife should be naturalized in her own right and not in her husband's; we insist on a loyal American electorate. We will not affiliate with any political party nor work for or against candidates of any party, but unite with them all in a partisanship which stands for right as opposed to evil.

WOMAN'S PARTY AIMS.

Dr. Parker discussed moral and social conditions and the ideals of the woman's party. At the conclusion of the program Miss Gail Laughlin of San Francisco presented the issue of the community property bill which the women of California are supporting.

Dr. Mary Roberts Coolidge presided as chairman. The mass meeting which presented the national suffragist party to the Eastbay cities was sponsored by the civic centers of Oakland, Berkeley and Alameda.

Miss Jessie Haver, Dr. Parker and Miss Shuler were the speakers at a conference at Hotel Oakland which assembled several hundred women at the invitation of Oakland center yesterday afternoon.

DENVER WOMEN TO WEAR OLD CLOTHES

DENVER, Colo., Nov. 26.—Honorable patches will be fashionable here until the high cost of clothes drops. The Woman's Club members today signed a pledge to stop buying clothes until prices drop.

Tattered frocks, frayed hats and dilapidated shoes will not cause milady heart aches at any function, the members agreeing to make patches the watchword at elite gatherings.

Certain high priced foods may be included in the ban.

"Wear-Ever" Aluminum Griddle

A KITCHEN full of smoke and odor of grease is unknown to the woman who uses the "Wear-Ever" Griddle when making that distinctly American and most delicious breakfast dish—griddle cakes.

No grease necessary—and the cakes do not stick, but are browned beautifully and baked thoroughly—light, deliciously appetizing and wholesome.

Heat the griddle. (Some women place a bit of batter near the outer edge of the griddle. When the batter browns, griddle is hot enough to bake cakes.) Then turn down the flame about one-half. Save fuel!

It now is possible for you to get shapes and styles of "Wear-Ever" utensils which have been unobtainable during the war because so many thousands of tons of aluminum have been used in making cooking utensils for soldiers and sailors.

The utensils which gave enduring service there will give lasting service here.

All these delicious drinks and a hundred more - in a bottle of O-T

O-T Radiance Rickey

Pour the juice of one lemon or one lime over a lump of ice in a serving glass. Add about half a wine-glass of O-T (or a more or less quantity according to taste); fill up with carbonated water or seltzer.

O-T Sunbeam Sherbet

Follow usual method for making water ice—using sugar syrup, cherry flavor and O-T. A delightful "follow-up" for the meat or game course of a dinner.

O-T Anzac Delight

Spread chopped nuts on a 6-inch plate; build on this a "tower," scoops of vanilla, and chocolate ice cream, and orange ice. Press a Nabisco wafer upright on each side for "walls"—pour over it a sauce of crushed pineapple and O-T.

O-T Sunny South Egg-Nog

Use 1 egg for each glass. Beat yolk and white separately. Blend beaten yolk, 1 tablespoon sugar and a little milk, then add O-T carefully, to avoid curdling. Now add the remainder of the milk hot or cold, finally the beaten whites—and, if you wish, a pinch of cinnamon, or nutmeg, or both.

O-T Rosy Glow Drip

Fill a tall glass with chopped ice—pour over it a blend of O-T and sugar syrup. Put a "scoop" of pineapple ice on top, trim with a cherry, and serve with spoon and straw.

O-T makes a new beverage, of subtle delicacy and piquant flavor, out of the old-time favorite soda-fountain drinks—lemonade, and all the fruit juices.

A bottle of O-T is the magician that transforms plain iced or charged water into a delicate, zestful quencher. A "nip" of O-T, in your favorite "Scotch,"—wine, beer or fruit punch—gives you an uncommonly delicious blend.

O-T is entirely unlike any other drink. Spicy, pleasing, with the "tang" that satisfies thirst. In fruit sauces, pudding sauces, cream desserts, and iced novelties, O-T is delightful. On cantaloupe or grape fruit, O-T is as pleasing as wine. And O-T's versatility never seems to end.

Sold in bottles at grocery and drug stores: served at all soda-fountains, hotels and cabarets
